Re: Petition for Rate Increase by Tampa Electric Company
FPSC Docket No. 080317-EI

Dear Ms. Cole:

Enclosed for filing in the above docket, on behalf of Tampa Electric Company, are the original and twenty (20) copies of each of the following:

1. Petition of Tampa Electric Company 7050-08
2. Direct Testimony and Exhibit of Charles R. Black 07051-08
3. Direct Testimony and Exhibit of Gordon L. Gillette 07052-08
4. Direct Testimony and Exhibit of Susan D. Abbott 07053-08
5. Direct Testimony and Exhibit of Donald A. Murry 07054-08
6. Direct Testimony and Exhibit of Lorraine L. Cifuentes 07055-08
7. Direct Testimony and Exhibit of Mark J. Hornick 07056-08
8. Direct Testimony and Exhibit of Joann T. Wehle - 07057-08
9. Direct Testimony and Exhibit of Regan B. Haines 07058-08
10. Direct Testimony and Exhibit of Dianne S. Merrill 07059-08
11. Direct Testimony and Exhibit of Edsel L. Carlson 07060-08
12. Direct Testimony and Exhibit of Steven P. Harris - 07061-08
13. Direct Testimony and Exhibit of Alan D. Felsenthal 07062-08
14. Direct Testimony and Exhibit of Jeffrey S. Chronister 07063-08
15. Direct Testimony and Exhibit of William R. Ashburn 07064-08
16. MFR Schedule A - Executive Summary 07065-08
17. MFR Schedule B - Rate Base 07066-08
18. MFR Schedule C - Net Operating Income 07067-08
19. MFR Schedule D - Cost of Capital - (Redacted MFR Schedule D-2)
20. MFR Schedule E - Cost of Service and Rate Design 07068-08

FLORIDA PUBLIC SERVICE COMMISSION**

DOCKET NO. 080317-EI

IN RE: TAMPA ELECTRIC COMPANY'S
PETITION FOR AN INCREASE IN BASE RATES
AND MISCELLANEOUS SERVICE CHARGES

PETITION

**INCLUDING TARIFF SHEETS
AND RATE SCHEDULES**

DOCUMENT NUMBER-DATE

07050 AUG 11 08

FPSC-COMMISSION CLERK

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Petition of Tampa Electric Company)
for an increase in its base rates and service) DOCKET NO. 080317-EI
charges and approval of a fair and)
reasonable rate of return) FILED August 11, 2008
_____)

PETITION OF TAMPA ELECTRIC COMPANY

Tampa Electric Company (“Tampa Electric” or “company”) files this, its Petition for a permanent increase in its base rates and miscellaneous service charges, pursuant to Section 366.06, Florida Statutes, and Rules 25.60425 and 25.6.043, Florida Administrative Code, and in support thereof respectfully represents that:

1. Tampa Electric is a Florida corporation which is a wholly owned subsidiary of TECO Energy, Inc., with its headquarters located at 702 North Franklin Street, Tampa, Florida. Tampa Electric is an investor-owned electric utility operating under the jurisdiction of the Florida Public Service Commission (the “Commission”) pursuant to the provisions of Chapter 366, Florida Statutes. The company provides generation, transmission, and distribution service to approximately 667,000 retail customers in Hillsborough and portions of Polk, Pasco, and Pinellas counties. The company also provides wholesale full requirements service and other wholesale bulk power to a variety of other utilities in Florida.

2. It has been 16 years since Tampa Electric found it necessary to seek an increase in its base rates in Docket No. 920324-EI. Since then, the company has met tremendous growth while providing cost-effective, reliable electric service. This includes investments of \$3.4 billion

DOCUMENT NUMBER-DATE

07050 AUG 11 8

FPSC-COMMISSION CLERK

in generation, transmission and distribution systems; the costs of serving approximately 200,000 new customers, an increase of about 42 percent more customers; costs associated with the increase in peak demand by almost 50 percent; and the effects of a 48 percent increase in the cost of goods and services, as measured by the Consumer Price Index (“CPI”). While the company has undertaken cost-savings initiatives and found productivity efficiencies, they are no longer sufficient for Tampa Electric to continue to effectively and reliably meet the electric needs of existing and new customers at current base rates. All of these factors have combined to create the need for an increase in base rates.

3. This Petition seeks a \$228.2 million permanent increase in base revenues and miscellaneous service revenues. No interim increase is requested. As of the date of this Petition, Tampa Electric is not aware of the existence of any disputed issues of material fact relative to the relief requested herein.

4. The projected period of January 1, 2009 through December 31, 2009 serves as the test year on which Tampa Electric has calculated its revenue deficiency in this case. The test year in a rate proceeding provides an appropriate period of utility operations that may be analyzed so the Commission can set reasonable rates for the period the new rates will be in effect. The period January 1, 2009 through December 31, 2009 has been used as the test year for preparing this case because it best represents expected future operations. As part of this petition, Tampa Electric seeks the Commission’s approval of this test period as a reasonable representation of the company’s expected future operations.

5. Tampa Electric is required by Section 366.03, Florida Statutes, to provide “reasonably sufficient, adequate and efficient service” to each person who applies for service in the company’s service area. In order to provide reasonably sufficient, adequate and efficient

service to existing and new customers, Tampa Electric must build and maintain adequate and reliable generation, transmission and distribution ("T&D") systems. Tampa Electric is dedicated to the efficient use of energy and has aggressive conservation programs that has been very effective to date and which will continue to reduce future capital expenditures from what they would be without such programs. The company has also demonstrated its commitment to environmental performance and has significantly reduced its emissions of sulfur dioxide, nitrogen oxide, particulate matter and mercury, and has significantly reduced greenhouse gas emissions from the company's major power plants.

6. The revenues of Tampa Electric from its present base rates will not be sufficient to cover the company's costs and provide an adequate return on invested capital. The company's jurisdictional 13-month average rate base for the period ended December 31, 2009 is projected to be \$3.7 billion. Tampa Electric's jurisdictional net operating income for the same period is projected to be \$183.0 million using the company's rates currently in effect. The resulting adjusted jurisdictional rate of return on average rate base is projected to be 4.38 percent. To maintain financial integrity necessary to access capital markets to meet the company's extensive capital program, the company requests that it be allowed an overall rate of return of 8.82 percent, which equals Tampa Electric's total cost of capital, including a range of return on common equity of 11 percent to 13 percent, with a midpoint of 12 percent.

7. Tampa Electric attaches and incorporates herein by reference appropriate tariff sheets, including new rate schedules designed to produce the additional revenue sought by this petition and needed to give the company a realistic opportunity to earn a fair and reasonable rate of return. Such tariff sheets and schedules are attached as Appendix "A".

8. Tampa Electric is also simultaneously filing with this petition, and as a part hereof, Minimum Filing Requirements (“MFRs”) containing the information required by Rule 25-6.043(1)(b), Florida Administrative Code. Pursuant to Rule 25.6.043(1), Florida Administrative Code, Tampa Electric has compiled the MFRs by following the policies, procedures and guidelines prescribed by the Commission in relevant rules and/or in the company’s last rate case. Additionally, the supporting testimony and exhibits of Tampa Electric witnesses are being pre-filed contemporaneously with this petition so that the Commission will have the immediate opportunity to begin its review of the company’s case.

9. Subsection (3) of Section 366.06, Florida Statutes, is sometimes referred to as “the file and suspend law.” The Florida Supreme Court has said that the file and suspend law was “expressly designed to reduce so-called regulatory lag in full rate proceedings.” Citizens v. Mayo, 333 So.2d 1 (Fla. 1976). The purpose of the statute is accomplished by providing “a series of alternatives for the Commission whenever, in conjunction with a general rate increase request for which a full rate proceeding is required, a utility company seeks immediate financial relief.” Id., at 4.

10. The Commission’s alternatives under Section 366.06, Florida Statutes, are as follows:

- A. The Commission may take no affirmative action to suspend the new rates within sixty (60) days, in which event the new rates become effective without bond or corporate undertaking.
- B. Within sixty (60) days after the filing of the new rates, the Commission may suspend all or part of the new rates. The suspension would continue from day to day pending final decision.

- C. The rates not suspended would become effective and continue until the final order of the Commission.
- D. If the final order is not entered within eight (8) months of the filing of the Petition and rate schedules, the proposed rates will become effective under bond or corporate undertaking.
- E. If final Commission action is not taken within twelve (12) months of the filing of the minimum filing requirements, the proposed rates become final.

12. The company is also requesting approval of a Transmission Base Rate Adjustment ("TBRA") to address the financial needs of the company as new required transmission additions are identified and placed in service. Given the need for additional transmission in Florida and the uncertainty associated with future expenditures, this mechanism is appropriate to ensure timely recovery of transmission costs associated with Florida Reliability Coordinating Council's approved 230kV and above transmission projects.

13. The company is also seeking to increase its annual storm damage reserve accrual from \$4 million to \$20 million and the target reserve amount from \$55 million to \$120 million to more realistically manage the cost of damage to the company's uninsured T & D assets and property deductibles associated with damage to insured assets such as substations and generating facilities. To the extent that viable and reasonably priced mutual insurance coverage of T&D systems becomes available through the joint efforts of investor owned utilities in Florida, Tampa Electric would propose to charge the cost of such insurance against the storm damage reserve.

14. The total revenue increase requested by the company for 2009 is \$228.2 million.

15. Copies of all notices and pleadings with respect to this petition should be furnished to:

Lee L. Willis
Ausley & McMullen
Post Office Box 391
Tallahassee, Florida 32302

Paula K. Brown
Tampa Electric Company
Post Office Box 111
Tampa, Florida 33601

WHEREFORE, Tampa Electric respectfully prays that this Commission will:

- (1) Forthwith consent to the operation of new permanent rate schedules and tariff sheets filed as Appendix "A", pursuant to Section 366.06(3), Florida Statutes, and thereby permit the collection of an additional \$221.1 million in annual base sales revenues and \$7.1 million in miscellaneous service charge revenues for a total increase in 2009 of \$228.2 million when the new rates are put into effect;
- (2) If the Commission does not consent to the company putting the new permanent rate schedules and tariff sheets filed herewith into operation and effect in whole as requested in Paragraph (3) above, then set this matter for an early hearing for purposes of granting permanent relief, and entering its final decision before April 1, 2009, in accordance with controlling statutes and court decisions, so as to adequately protect the financial integrity of the company by giving it a reasonable opportunity to earn such fair rate of return as may be fixed by the Commission in this proceeding;
- (3) Find that the company's present rates are insufficient to yield a fair and reasonable rate of return and the company is not earning a fair rate of return;
- (4) Authorize the company to revise and increase its base rates and service charges by \$228.2 million on an annual basis so that Tampa Electric will have an opportunity to earn a fair overall rate of return, including a rate of return on common equity range of 11 to 13 percent with a midpoint of 12 percent, thereby enabling the

company to maintain its financial integrity and its ability to serve the public adequately and efficiently;

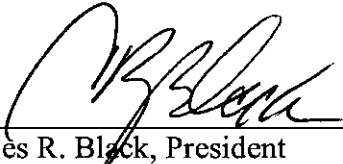

- (5) Authorize the company to recover, through a true-up mechanism, transmission costs that are required under the conditions set forth in the company's proposed TBRA;
- (6) Approve the relevant tariff sheets and rate schedules attached to this petition as Appendix "A" and filed herewith;
- (7) Provide all relief as is proper and authorized to provide fair and reasonable rates and charges and provide Tampa Electric an opportunity to earn a fair and reasonable rate of return;
- (8) Grant to the company such other and further relief as the Commission may find to be reasonable and proper pursuant to the authority granted to the Commission under Chapter 366, Florida Statutes.

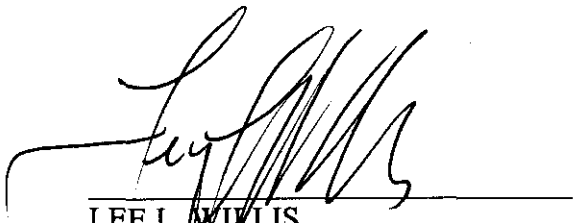

DATED this 8th day of August, 2008.

Respectfully submitted

TAMPA ELECTRIC COMPANY

SUMMARY BILLING PLAN

(OPTIONAL)

A Customer with ten (10) or more Tampa Electric accounts and no bill in arrears may request a single statement for the billing and payment of those accounts which are to be included in the plan. Those accounts will then be separated into groups each of which will be billed once a month on cycle billing days as designed by the Company.

Tampa Electric will read each meter and calculate a billing amount for each account separately. The billing amount for each of the designated accounts will be totaled on a Summary Billing statement, with each of the individual account bills attached as backup, and a single totaled bill will be included for remittance. Summary bills are due when rendered and must be paid within ten (10) days from the mailing date in order to remain on the Summary Billing Plan.

ELEVENTH REVISED SHEET NO. 3.030
CANCELS TENTH REVISED SHEET NO. 3.030

SERVICE CHARGES

1. An Initial Connection Charge of \$75.00 is applicable for the initial establishment of service to a premise.
2. The appropriate Connection Charge shown below shall apply to the subsequent re-establishment of service to a premise for which service has not been disconnected due to non-payment or violation of Company or Commission Rules. For purposes of these charges, normal working hours are Monday through Friday, 7:00 a.m. to 6:00 p.m., excluding holidays.
 - a. A Connection Charge of \$25.00 shall apply to the re-establishment of service to a premise. The service work will be performed during normal working hours on the next business day following the customer's request for service unless the customer requests a later service date. This charge shall also apply to the change of an existing customer's account to another customer's name.
 - b. A Connection Charge of \$65.00 shall apply to the re-establishment of service to a premise performed by the Company to accommodate a special request by the customer for same day service. Such special request must be made prior to 6:00 p.m. of that day.
 - c. A Connection Charge of \$300.00 shall apply to the re-establishment of service to a premise performed by the Company on a Saturday, between 8:00 a.m. and 12:00 noon, to accommodate a special request by the customer for service during that time.
3. The appropriate Reconnect after Disconnect Charge shown below shall apply to the re-establishment of service after service has been disconnected due to non-payment or violation of Company or Commission Rules:
 - a. For service which has been disconnected at the point of metering, the Reconnect after Disconnect Charge is \$50.00.
 - b. For service which has been disconnected at a point distant from the meter, the Reconnect after Disconnect Charge is \$140.00.
4. A Field Credit Visit Charge of \$20.00 is applicable in the event a Company representative visits a premise for the purpose of disconnecting service due to non-payment and instead makes other payment arrangements with the customer.

ISSUED BY: C. R. Black, President

DATE EFFECTIVE:

ORIGINAL SHEET NO. 3.032

Continued from Sheet No. 3.030

5. A Returned Check Charge as allowed by Florida Statute 68.065 shall apply for each check or draft dishonored by the bank upon which it is drawn. Termination of service shall not be made for failure to pay the Returned Check Charge.
6. *Charges for services due and rendered which are unpaid as of the past due date are subject to a Late Payment Charge of the greater of \$5.00 or 1.5%, except for the accounts of federal, state, and local governmental entities, agencies, and instrumentalities. Accounts of federal, state, and local governmental agencies and instrumentalities are subject to a Late Payment Charge at a rate no greater than allowed, and in a manner permitted, by applicable law.*
7. A Tampering Charge of \$50.00 is applicable to a customer for whom the Company deems has undertaken unauthorized use of service and for whom the Company has not elected to pursue full recovery of investigative costs and damages as a result of the unauthorized use. This charge is in addition to any other service charges which may be applicable.

ISSUED BY: C. R. Black, President

FIFTH REVISED SHEET NO. 3.210
CANCELS FOURTH REVISED SHEET NO. 3.210

**GENERAL SERVICE
INDUSTRIAL LOAD MANAGEMENT RIDER**

SCHEDULE: GSLM-2

APPLICABLE: At the option of the customer, to commercial and industrial customers on rate schedules GSD or GSDT who sign a Tariff Agreement for the Purchase of Industrial Load Management Rider Service.

MINIMUM QUALIFICATION: The minimum interruptible service provided under this rider is 500 kW.

LIMITATION OF SERVICE: The electric energy supplied under this schedule is subject to immediate and total interruption whenever any portion of such energy is needed by the Company for the requirements of its firm customers or to comply with requests for emergency power to serve the needs of firm customers of other utilities.

MONTHLY CHARGES: Unless specifically noted in this rider or within the Tariff Agreement or a Facilities Rental Agreement, the charges assessed for service shall be those found within the otherwise applicable rate schedules.

Additional Customer Charge:
\$200.00

MINIMUM CHARGE: The Additional Customer Charge.

MONTHLY CREDITS: An Interruptible Demand Credit will be applied each month (regardless of whether actual interruptions of service by the Company occur) to the regular bill submitted under the GSD or GSDT schedule. No credit will be applied to a minimum bill.

The Interruptible Demand Credit is the product of the Contracted Credit Value (CCV) (set forth in the Tariff Agreement for the Purchase of Industrial Load Management Rider Service) and the monthly Load Factor Adjusted Demand. The Load Factor Adjusted Demand shall be the product of the monthly Billing Demand and the monthly Billing Load Factor. The Billing Load Factor shall be the ratio of the Billing Energy to the monthly Billing Demand times the number of Billing Hours in the billing period. Billing Hours shall exclude any hours during which interruption of service occurred and no Optional Provision Energy was provided.

Continued to Sheet No. 3.215

ISSUED BY: C. R. Black, President

DATE EFFECTIVE:

SECOND REVISED SHEET NO. 3.215
CANCELS FIRST REVISED SHEET NO. 3.215

Continued from Sheet No. 3.210

TERM OF SERVICE: The Initial Term of service under this rider, as described in the Tariff Agreement for the Purchase of Industrial Load Management Rider Service, shall be 36 months, the term shall be automatically extended after the end of the Initial Term subject to the notice requirement. In addition to committing to take service for an Initial Term of 36 months, the customer is required to give the Company prior written notice of desire to cease service under this rider of at least 36 months. Such notice shall be irrevocable unless the Company and the customer should mutually agree to void the notice.

OPTIONAL PROVISION: Any customer served under this rider may elect to have the Company minimize interruptions through the procedure described below. Such election must be made in writing to the Company and shall remain in effect until such time that the Company is notified in writing that the customer no longer desires that such procedure be employed by the Company.

Procedure: During periods when the Company would otherwise interrupt customers served under this rider, the Company will attempt to purchase sufficient energy from other systems to prevent, in whole or in part, such interruptions. The customer agrees that whenever the Company is successful in making such purchases, the customer will pay, as part of its monthly service bill, an extra charge per kilowatt-hour for each kilowatt-hour consumed during the time of such purchase. The extra charge per kilowatt-hour shall be the amount per kilowatt-hour paid to the outside source less the amount per kilowatt-hour otherwise billed under this rider, plus 3 mills (\$0.003) per kilowatt-hour.

PENALTY CLAUSE FOR TRANSFER WITHOUT FULL NOTICE: The Company may permit transfer to firm service without full notice upon satisfaction of the initial term of service and upon a determination by the Company that there is sufficient capacity to provide firm service to the customer. Any customer allowed to cease taking interruptible service under this rider without giving full notice shall pay a charge amounting to the value of the credits given for the period of time immediately prior to the changeover that is equal to the period that the changeover will be less than the required notice period.

This penalty may be waived by the Company if the following two conditions can be demonstrated:

- 1) The customer has been on the interruptible service for at least 36 months; and
- 2) There will be no adverse effect to existing firm customers or the Company's generation expansion plan.

SECOND REVISED SHEET NO. 3.225
CANCELS FIRST REVISED SHEET NO. 3.225

Continued from Sheet No. 3.220

6. Any "Essential Needs" load of the customer must be furnished through a separate meter. "Essential Needs" for purposes of this provision include but are not limited to any customer electrical load(s) which are required by any local, state or federal law, statute or code to have emergency equipment to serve such load(s). Service under this rate is not available if all or a part of the customer's load is designated by the appropriate governmental agency for use as a public shelter during periods of emergency or natural disaster.

ISSUED BY: C. R. Black, President

DATE EFFECTIVE:

SECOND REVISED SHEET NO. 3.230
CANCELS FIRST REVISED SHEET NO. 3.230

**GENERAL SERVICE
INDUSTRIAL STANDBY AND SUPPLEMENTAL LOAD MANAGEMENT RIDER**

SCHEDULE: GSLM-3

APPLICABLE: At the option of the customer, to commercial and industrial customers on rate schedules SBF or SBFT who sign a Supplemental Tariff Agreement for the Purchase of Industrial Standby and Supplemental Load Management Rider Service.

MINIMUM QUALIFICATION: The minimum interruptible service provided under this rider is 500 kW.

LIMITATION OF SERVICE: The electric energy supplied under this schedule is subject to immediate and total interruption whenever any portion of such energy is needed by the Company for the requirements of its firm customers or to comply with requests for emergency power to serve the needs of firm customers of other utilities.

MONTHLY CHARGES: Unless specifically noted in this rider or within the Tariff Agreement of a Facilities Rental Agreement, the charges assessed for service shall be those found within the otherwise applicable rate schedules.

Additional Customer Charge:
\$200.00

MINIMUM CHARGE: The Additional Customer Charge.

MONTHLY CREDITS: Interruptible Demand Credits will be applied each month (regardless of whether actual interruptions of service by the Company occur) to the regular bill submitted under the SBF or SBFT schedule.

The Interruptible Supplemental Demand Credit is the product of the Contracted Credit Value (CCV) (set forth in the Supplemental Tariff Agreement for the Purchase of Industrial Standby and Supplemental Load Management Rider Service) and the monthly Load Factor Adjusted Demand. The Load Factor Adjusted Demand shall be the product of the monthly Supplemental Billing Demand and the monthly Supplemental Billing Load Factor. The Billing Load Factor shall be the ratio of the Supplemental Energy to the monthly Supplemental Billing Demand times the number of Billing Hours in the billing period. Billing Hours shall exclude any hours during which interruption of service occurred and no Optional Provision Energy was provided.

ISSUED BY: C. R. Black, President

DATE EFFECTIVE:

SECOND REVISED SHEET NO. 3.235
CANCELS FIRST REVISED SHEET NO. 3.235

Continued from Sheet No. 3.230

The Power Supply Reservation Credit (i.e., the monthly charge) is the product of 12% of the CCV (set forth in the Supplemental Tariff Agreement for the Purchase of Industrial Standby and Supplemental Load Management Rider Service) and the monthly Standby Demand. This credit is not adjusted for Billing Load Factor.

The Power Supply Demand Credit (i.e., the daily charge) is the product of 4.76% of the CCV (set forth in the Supplemental Tariff Agreement for the Purchase of Industrial Standby and Supplemental Load Management Rider Service) and the monthly Actual Standby Billing Demand. This credit is not adjusted for Billing Load Factor.

TERM OF SERVICE: The Initial Term of service under this rider, as described in the Supplemental Tariff Agreement for the Purchase of Industrial Standby and Supplemental Load Management Rider Service, shall be 36 months, the term shall be automatically extended after the end of the Initial Term subject to the notice requirement. In addition to committing to take service for an Initial Term of 36 months, the customer is required to give the Company prior written notice of desire to cease service under this rider of at least 36 months. Such notice shall be irrevocable unless the Company and the customer should mutually agree to void the notice.

OPTIONAL PROVISION: Any customer served under this rider may elect to have the Company minimize interruptions through the procedure described below. Such election must be made in writing to the Company and shall remain in effect until such time that the Company is notified in writing that the customer no longer desires that such procedure be employed by the Company.

Procedure: During periods when the Company would otherwise interrupt customers served under this rider, the Company will attempt to purchase sufficient energy from other systems to prevent, in whole or in part, such interruptions. The customer agrees that whenever the Company is successful in making such purchases, the customer will pay, as part of its monthly service bill, an extra charge per kilowatt-hour for each kilowatt-hour consumed during the time of such purchase. The extra charge per kilowatt-hour shall be the amount per kilowatt-hour paid to the outside source less the amount per kilowatt-hour otherwise billed under this rider, plus 3 mills (\$0.003) per kilowatt-hour.

PENALTY CLAUSE FOR TRANSFER WITHOUT FULL NOTICE: The Company may permit transfer to firm service without full notice upon satisfaction of the initial term of service and upon a determination by the Company that there is sufficient capacity to provide firm service to the customer. Any customer allowed to cease taking interruptible service under this rider without giving full notice shall pay a charge amounting to the value of the credits given for the period of time immediately prior to the changeover that is equal to the period that the changeover will be less than the required notice period.

CANCELS FIRST REVISED SHEET NO. 3.245

Continued from Sheet No. 3.240

5. When the customer's Initial Term of service runs out, that customer shall have a new CCV applied then for a new 36 month period. The credit applied shall be the one on file at that time at the FPSC. At any time, at the customer's discretion, the customer may request a new 36 month commitment whereupon their CCV shall be changed to the one then on file at the FPSC and a new Initial Term of 36 months shall be established.
6. Any "Essential Needs" load of the customer must be furnished through a separate meter. "Essential Needs" for purposes of this provision include but are not limited to any customer electrical load(s) which are required by any local, state or federal law, statute or code to have emergency equipment to serve such load(s). Service under this rate is not available if all or a part of the customer's load is designated by the appropriate governmental agency for use as a public shelter during periods of emergency or natural disaster.

DATE EFFECTIVE:

ORIGINAL SHEET NO. 3.270

RENEWABLE ENERGY PROGRAM**(OPTIONAL)****SCHEDULE: RE****RATE CODE: 910****AVAILABLE:** To all customers served throughout the Company's service area.**APPLICABLE:** Applicable, upon request, to all customers in conjunction with all standard rates. Customer billing will start on the next billing cycle following receipt of the service request.**CHARACTER OF SERVICE:** Renewable Energy Rider customers will be served from the existing electrical system. Customers may purchase 200 kWh blocks of renewable energy produced at or purchased from photovoltaic facilities, facilities utilizing biomass fuel, and/or specifically delivered from other clean, renewable energy sources. The renewable energy may not be delivered to the customer, but will displace energy that would have otherwise been produced from traditional fossil fuels.**LIMITATION OF SERVICE:** Customers requesting service under the rider will be accepted on a first-come first-served basis subject to availability of renewable energy. If additional renewable energy is not available, customers requesting service under the optional rider may request to be put on a waiting list until additional renewable energy can be secured to serve request.**MONTHLY RATE:** \$5.00 per 200 kWh premium in addition to charges applied under otherwise applicable rate schedules.**TERM OF SERVICE:** Service under the RE rider shall be for a minimum term of one (1) billing period.**ISSUED BY:** C. R. Black, President**DATE EFFECTIVE:**

TAMPA ELECTRIC

SIXTH REVISED SHEET NO. 4.040
CANCELS FIFTH REVISED SHEET NO. 4.040

Current

The volume of electric energy in amperes flowing through a conductor.

Customer

Any present or prospective user of the Company's electric service, his authorized representative (builder, architect, engineer, electrical contractor, etc.) or others for whose benefit the electric service under this tariff is made (property owner, landlord, tenant, renter, occupant, etc.). When electric service is desired at more than one location, each such location or delivery point shall be considered as a separate customer.

Customer Facilities Charge

A charge comprised of the return on the Company's investment in a customer's meter and service equipment plus the recurring cost of reading the meter, calculating and mailing the bill, processing payment, and maintaining the customer's records.

Delivery Point (Point of Attachment, Point of Delivery)

The point where the Company wiring interfaces with the customer wiring, and where the customer assumes the responsibility for further delivery and use of the electricity.

Delta Connection

A three-phase electrical connection where the electrical service is connected in a triangular configuration.

Demand

The magnitude of electric load of an installation. Demand may be expressed in kilowatts, kilovolt-amperes, or other suitable units.

Demand Charge

The specified charge to be billed on the basis of the demand under an applicable rate schedule.

Difficult Trenching Conditions

Trenching through soil which contains considerable rock, is unstable, has a high water table, and/or has obstructions that unduly impede trenching at normal speeds with machines or requires extensive hand digging or shoring.

Distribution System

Electric service facilities consisting of primary and secondary conductors, service laterals, transformers and necessary accessories and appurtenances for the furnishing of electric power at utilization voltage (13 kV and below on the Company's system).

Drawing

Drawings illustrating technical specification and requirements for electric service are published separately in the Tampa Electric Standard Electrical Service Requirements Manual which is available upon request at any Tampa Electric Company office.

ISSUED BY: C. R. Black, President

DATE EFFECTIVE:

TAMPA ELECTRIC

FOURTH REVISED SHEET NO. 4.090
CANCELS THIRD REVISED SHEET NO. 4.090

Overhead Service

Wiring and associated facilities normally installed by the Company on poles to serve the customer.

Ownership Line

The point where the Company's facilities connect with the customer's facilities.

Pedestal

A meter socket mounted on a post and fed from an underground source.

Power Factor

Ratio of kilowatts to kilovolt-amperes.

Premises

The property location of customer or Company equipment.

Primary Distribution Service

The delivery of electricity transformed from the transmission system to a distribution service voltage, typically 13kV, whereby the customer may utilize such voltage and is responsible for providing the transformation facilities to reduce the voltage for any secondary distribution service voltage requirement.

Primary Voltage

The voltage level in a local geographic area which is available after the Company has provided transformation from the transmission system.

Qualifying Facility

A cogenerator or small power producer which obtains qualifying status under Section 201 of PURPA and Subpart B of FERC regulations.

Raceway

A mechanical structure for supporting wiring, conduits or bus.

Rate Schedule

The approved standard used for calculation of bills.

ISSUED BY: C. R. Black, President

DATE EFFECTIVE:

THIRD REVISED SHEET NO. 4.100
CANCELS SECOND REVISED SHEET NO. 4.100

Relay Service

Premium service supplied to a customer from more than one distinct source capable of automatic or customer controlled manual switching upon loss of the preferred source. A distinct source is a distribution source originating from a unique distribution substation transformer.

Residential Service

Service to customers in private residences and individually metered apartments and condominiums when all energy is used for domestic purposes.

Right-of-Way

The established path for the installation of the Company's wiring on public property.

Rules and Regulations

The approved standards and methods for service to the Company's customers.

Rural

Outside the geographical limits of any incorporated cities, except areas which exhibit urban characteristics.

Secondary Distribution Service

The delivery of electricity transformed to the lowest utilized service voltage, typically ranging from 120 volts to 480 volts.

Service

- (1) The supply of the Company's product, "Electrical Energy", measured in kilowatt-hours and kilowatt demand.
- (2) The conductors and equipment for delivering energy from the electricity supply system to the wiring system of the premises served.

Service Area

The established geographical boundaries of the Company.

Service Drop

The overhead service conductor(s) from the last pole or other aerial support to and including the connections to the service entrance conductors at the building.

Service Entrance

That portion of the wiring system between the point of attachment to the Company's distribution system and the load side terminals of the main switch or switches. This will include the grounding equipment.

Service Equipment

The necessary equipment, usually consisting of circuit-breaker or switch, fuses and their accessories, located near the point of entrance of supply conductors to a building and intended to constitute the main control and means of disconnection for the supply to that building.

TAMPA ELECTRIC

SECOND REVISED SHEET NO. 4.110
 CANCELS FIRST REVISED SHEET NO. 4.110

Service Location

The point established by the Company for the location of the service entrance.

Set Pole

An existing pole on which Company facilities may be attached.

Single Phase

One phase of a three phase system (see three phase)

Subdivision

A tract of land which is divided into five (5) or more building lots or upon which five (5) or more separate dwelling units are to be located, or land on which new multiple-occupancy buildings are constructed.

Sub-Meter or Test Meter

A meter used to check electric usage on a particular electrical load for a non-billing purpose.

Subtransmission Service

The delivery of electricity at the lowest transmission system voltage, whereby the customer may utilize such service voltage and is responsible for providing transformation facilities to reduce the voltage for any primary distribution service voltage requirement and to further reduce the voltage for any secondary distribution service voltage requirement.

Subtransmission Voltage

The lowest transmission system voltage, typically 69kV.

Tariff

The assembled volume containing the "rules", "regulations", "rate schedules", "standard forms", "contracts", and other material as required by, and filed with, the Florida Public Service Commission.

Temporary Service

Service which is provided by the Company for limited time use, such as construction poles.

Three Phase

A term applied to circuits or machines utilizing three alternating current voltages, equal in magnitude, separated by 120 electrical degrees.

Time Pulse

A metering pulse indicating when the meter checks demand.

Totalized Metering

A summation of adjacent metering equipment readings.

ISSUED BY: C. R. Black, President

DATE EFFECTIVE:

SECOND REVISED SHEET NO. 4.120
CANCELS FIRST REVISED SHEET NO. 4.120

Townhouse

A single family dwelling unit in a group of such units contained in a building where each unit is separated only by fire walls. Each townhouse unit is normally constructed upon a separate lot and serviced with separate utilities.

Transformer

The device which changes voltage levels.

Transmission System

The network of high voltage lines and associated equipment, typically ranging from 69 kV to 230 kV, which are used to move electrical power from generating resources to load centers where it is transformed to a lower primary distribution voltage for distribution to customers.

Underground Commercial Distribution (UCD)

The wiring, transformers, and other related equipment required to distribute electrical energy to a commercial customer or customers.

Underground Service

The wiring system and associated equipment which is placed on or in the earth, as opposed to pole line construction.

Urban

Inside the geographical limits of an incorporated city, or having the characteristics of such an area in terms of use and density.

Vault

An isolated ventilated enclosure for electrical equipment with fire-resistant walls, ceiling and floor which personnel may enter and in which transformers and switching equipment are installed, operated, and maintained.

Voltage

The electrical pressure of a circuit expressed in volts. Generally, the nominal rating based on the maximum normal effective difference of potential between the conductors of a circuit.

Voltage Dip

A momentary reduction of voltage level.

Watt

The basic unit of electrical power (see Kilowatt).

Weather Head

A device used at the service entrance to prevent water from entering the service mast or riser.

Wye Connection

A three-phase electrical connection where the equipment (transformer, load, etc.) is connected in a "Y" configuration. Also called a star connection.

SEVENTH REVISED SHEET NO. 5.060
CANCELS SIXTH REVISED SHEET NO. 5.060

I. INTRODUCTION

The "General Rules and Regulations" section contains the rules, practices, classifications, exceptions and conditions observed by the Company in supplying service to its customers. Included, by reference, are the technical specifications and requirements of the Company's currently effective *Standard Electrical Service Requirements (SESR)* and *Vault Design Criteria* on file with the Florida Public Service Commission and available on request. The SESR explains the general character of electric service supplied, the meters and other devices furnished by the Company, and the wiring and apparatus provided and installed by the customer.

These requirements supplement those of the National Fire Protection Association, National Safety Codes, and those of state, county and municipal authorities.

Situations not specifically covered herein, or questions regarding the application of these requirements may be resolved by contacting the Company as early as possible.

Except for installation and maintenance of its own property, Tampa Electric Company does not install or repair customer owned wiring on customer's premises. Therefore, the Company cannot assume any responsibility for, or liability arising because of, the condition of wires or apparatus not owned by the Company.

Cooperation in these matters will be greatly appreciated and will help the Company to render prompt, satisfactory service when it is needed.

II. GENERAL INFORMATION

2.1 DEFINITIONS

See section 4, technical terms and abbreviations.

2.2 GENERAL RULES REGARDING SUPPLY AND USE OF ELECTRICAL ENERGY

Notwithstanding any contrary provisions contained in any other agreement between the customer and Tampa Electric Company, the following sections 2.2.1 through 2.2.5 shall apply.

Continued to Sheet No. 5.070

SIXTH REVISED SHEET NO. 5.110
CANCELS FIFTH REVISED SHEET NO. 5.110

Continued from Sheet No. 5.105

In addition to the service application, a request for service layout location at the desired address shall be made by the customer's electrical contractor at the company office serving the area in question before construction is started.

2.7 RATES AND THEIR APPLICATIONS

The rates for all types of electric service rendered by the company are on file with The Florida Public Service Commission. Copies of these rates are available and information regarding their application may be obtained in the nearest company office.

2.8 APPLICATION FOR SERVICE

In order to obtain service at the desired time, application by the customer should be made as early as possible to the Company. Time is required to procure and assemble the necessary materials and for installing the service or altering the existing service. Deposits are sometimes required with the application.

Applications for service or change in service may normally be made by telephone, in writing, or on-line at www.tampaelectric.com. Under certain conditions, however, the application or contract shall be in writing as determined by the Company.

Unless otherwise specifically provided in the applicable rate, or in a contract between the customer and the Company, all applications for service shall be deemed for the period of one year and continuously thereafter until notice of termination is given by either party.

Application for new service or alteration in existing service must be accompanied by an adequate description of the location of the property where service is desired, such as street and house number, rural address, or legal description of the property.

In order to insure that adequate Company electrical equipment is installed to provide satisfactory service to the customer, load data must be submitted with the application. This load data should include the electrical requirements of each device to be installed and the total anticipated demand.

2.9 ALTERATIONS OR ADDITIONS TO EXISTING WIRING

The Company must be notified by the customer before adding any major load. An application for required alteration in service must be made by the customer in the same manner as application for new service.

Continued to Sheet No. 5.120

ISSUED BY: C. R. Black, President

DATE EFFECTIVE:

SEVENTH REVISED SHEET NO. 5.210
CANCELS SIXTH REVISED SHEET NO. 5.210

Continued from Sheet No. 5.200

3.1.5 RIGHTS-OF-WAY AND EASEMENTS

The Applicant shall furnish satisfactory rights-of-way and easements at no cost to the company and in ample time for the company to provide the service required by the Applicant. Before the Company will start construction, these rights-of-way and easements must be cleared by the Applicant of obstructions that conflict with construction and must be staked to show property lines and final grade and graded to within six inches of final grade. Such clearing and grading must be maintained by the Applicant during construction by the company. Should paving, grass, landscaping, sprinkler systems or other utilities be installed prior to the construction of the underground distribution facilities, the Applicant shall pay the added costs of trenching, backfilling and restoring the paving, grass, landscaping and sprinkler systems or other utilities to their original condition. The Company will utilize to the fullest extent practicable, the public streets, roads, highways and platted easements for its facilities.

3.2 RESIDENTIAL AND SMALL USE SERVICES AND WIRING

3.2.1 General

Service entrance conductors installed by the customer between the point of attachment and the meter when exposed to the outside environment shall be enclosed in a rigid metallic conduit.

Service entrance conduit to and including the meter will be run only on exterior parts of the building. Conduit fittings, such as LB, LL, LR, and junction boxes shall not be used. Exposed service entrance conduit must be securely fastened to the building wall.

All customer installed service entrance wiring conduits exposed to the outside will be rigid metallic conduit. The service entrance is from the point of attachment to the main switch.

For each four wire delta service entrance the conductor designated to have the highest voltage measured to ground (*high leg*) shall be identified by orange color outside of the weatherhead, within the meter enclosure and within the main switch enclosure, and will be connected to the right-hand terminals of the meter socket and to the center terminal of the main switch.

For two metered services, each not greater than 200 amperes, a duplex meter socket can be used. For larger service or for more than two meters, a service raceway must be provided.

Continued to Sheet No. 5.220

NINTH REVISED SHEET NO. 5.480
CANCELS EIGHTH REVISED SHEET NO. 5.480

Continued from Sheet No. 5.470

3.5.6 Limitations

The Company will make all connections at the point of ownership. Maximum wire size is 750MCM copper or 750MCM aluminum per connection with limitations as set forth in Subsection 6.41.

3.6 OTHER TYPES OF ELECTRIC SERVICE

3.6.1 Lighting Service

Lighting service is offered by the Company to civic groups, subdivision developers, governmental authorities, and individual customers for the sole purpose of lighting roadways or other outdoor areas. Such service consists of the installation, operation, and maintenance of lighting equipment. Applicants for lighting service shall satisfy the requirements of Section 3.1.5.

Based on written lighting system design specifications provided by the Customer and/or the lighting equipment selected by the Customer, the Company shall prepare and provide the Customer with a copy of the final design sketch at least five (5) business days prior to the commencement of installation of the Equipment at the Installation Site. If the Company is unable to provide some or all of the Equipment selected by the Customer or the Company is unable to install the Equipment in reasonable proximity to the locations identified in the Customer's original design specifications, the Company shall note any material deviations from the Customer's original design specifications or equipment selections in the final design sketch. The Customer is solely responsible for specifying the general location of the Equipment and the direction and orientation of the illumination provided thereby. If the final design sketch has been provided to the Customer, as required immediately above, and the Customer has not advised the Company of specific changes to be made to the final design sketch prior to the commencement of work at the Installation Site, then the Customer will be deemed to have consented to the configuration and installation of Equipment pursuant to the final design sketch. The final design sketch will conform, to the extent practicable, to the Customer's preferences or preferred design. However, THE COMPANY MAKES NO WARRANTY, EITHER EXPRESSED OR IMPLIED, INCLUDING AN IMPLIED WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE of either the Equipment or the lighting design plan pursuant to which the Equipment is installed.

Continued to Sheet No. 5.485

ISSUED BY: C. R. Black, President

DATE EFFECTIVE:

ORIGINAL SHEET NO. 5.485

Continued from Sheet No. 5.480

The luminaires will be mounted on Company-owned poles only. Poles supporting these luminaires may be located in either road right-of-way or on private property, but the location must be such that they are, and will continue to be feasible and accessible to the Company for both construction and maintenance.

Upon request by the customer, the Company will move its existing lighting facilities to a mutually agreeable location. The customer will bear all costs of such relocation.

Continued to Sheet No. 5.490

ISSUED BY: C. R. Black, President

DATE EFFECTIVE:

EIGHTH REVISED SHEET NO. 5.490
CANCELS SEVENTH REVISED SHEET NO. 5.490

Continued from Sheet No. 5.485

It shall be the Customer's responsibility to notify the company in the event of failure of one of these units. Maintenance will be performed by the Company during normal daytime working hours only, and will normally be done after receiving notice as provided for under Section 768.1382 Florida Statutes, that the light is inoperable or malfunctioning.

Standard lighting service is continuous dusk-to-dawn automatically controlled by company-owned light sensitive devices (i.e., photoelectric cell). Timed lighting service utilizing a programmable timer device is also available; however, timed service shall not exceed 2,100 hours each year and customer access to the timer settings shall not be permitted.

The number of poles required for a given installation to provide proper line construction shall be determined by the Company. The details of the installation must be agreed upon by the customer and the Company prior to the installation of any lighting facilities. A non-refundable deposit will be collected for customer-requested lighting designs on commercial property involving ten or more lights. The deposit amount will be applied as a credit to the customer's monthly bill for the lighting service after the lighting service commences.

3.6.2.1 Customer-Owned Highway Lighting

The Company will furnish energy at primary or secondary voltage, at the discretion of the Company, for customer-owned highway lighting. Metering will be at the secondary voltage level. The Company's metering equipment will be located on customer-owned equipment that is accessible to the Company's meter personnel.

3.6.3 Temporary Service

Temporary service will be supplied under the applicable rate. The customer must furnish and install all entrance wiring. Receptacle outlets must be of the polarized grounding type.

Single phase service for construction purposes only will be installed according to Drawing Nos. 7.1 or 7.2 of the Standard Electrical Service Requirements Manual. Such service is limited to a maximum of 70 amperes at 240 volts.

Larger metered temporary single phase service will be installed according to Drawing No. 7.3 of the Standard Electrical Service Requirements Manual.

Three phase installations for construction purposes, requiring current transformers, will be metered in accordance with Drawing No. 7.15 (Standard Electrical Service Requirements Manual). When current transformers are not required, the metering installation will be similar to that shown in Drawing No. 7.3 (Standard Electrical Service Requirements Manual). In either case, the customer should contact the Company for further information.

Continued to Sheet No. 5.500

ISSUED BY: C. R. Black, President

DATE EFFECTIVE:

SEVENTH REVISED SHEET NO. 5.550
CANCELS SIXTH REVISED SHEET NO. 5.550

Continued from Sheet No. 5.540

Instrument transformer enclosures and conduits for instrument transformer secondary wiring shall be furnished and installed by the customer. The maximum distance allowed between instrument transformers and the meter shall be 50 feet. All conduit runs shall be made with 1¼" or larger conduit. Only continuous rigid metallic or Schedule 80 PVC conduit will be permitted.

The Company will install and connect the meter and the instrument transformer secondary conductors in the conduit between the instrument transformers and meter on all installations. No other conductors will be allowed in the metering conduit.

All instrument transformers furnished by the Company are for the exclusive use of the Company. Current transformers shall be, in all cases, installed ahead of all switches, giving a service-meter-switch sequence, unless specifically waived in writing by the Company Meter Supervisory personnel.

4.4 PROVISIONS FOR ENERGY PULSE DATA

The Company will provide energy pulses transmitted from the Company's metering equipment to provide data to energy management systems. Time pulses will not be furnished.

All access to Company metering equipment shall be for Company personnel only. The pulses will normally be provided from a separate junction box with a terminal block for customer access. Where the installation requires output from the Company of more than one pulse source, it shall be the responsibility of the customer to provide any required totalization of pulse data for his use.

Any replacement of material or equipment solely used to supply pulses to the customer shall be made by the Company at the owner's expense. Equipment replacement can be due to damage or customer requested modification.

All billing of demand and/or energy will be based upon the Company's meter readings or Company pulse data. The Company will not guarantee a certain pulse rate and the customer will be responsible for installing equipment necessary to change the pulse rate.

Data pulses will be provided through "dry" contacts only and will be limited to a customer imposed maximum of 14VA AC RMS or 20 VA DC.

4.4.1 Contribution by Applicant

The customer will contribute the full cost for the equipment and its maintenance. Maintenance of the equipment shall only be performed by the Company.

Continued to Sheet No. 5.560

NINTH REVISED SHEET NO. 5.560
 CANCELS EIGHTH REVISED SHEET NO. 5.560

4.4.2 Contract for Installation

An agreement or contract must be executed and the customer must make satisfactory arrangements for payment before installation can begin.

4.5 SELF CONTAINED METER SOCKET USES

4.5.1 General

The customer will provide and install meter sockets for metering purposes under the following guidelines:

4.5.2 Commercial - Residential - Single Phase

100 ampere maximum wire size, #1 Al @ 75°C * (For loads 0-85 amps).
 200 ampere maximum wire size, 250 kcmil Al @ 75°C * (For loads 85-200 amps)
 320 ampere maximum wire size (For loads 200-300 amps)

Single - 500 kcmil Al @ 75°C ⁽¹⁾
 Parallel - 350 kcmil Al @ 75°C ⁽¹⁾

600 ampere k-base maximum wire size (For loads 300-600 amps) ⁽²⁾
 Parallel 500 kcmil Cu or Al @ 75°C ⁽¹⁾

It is required that CT's be used for commercial loads in excess of 600 amps.

In situations where the customer's service entrance cable exceeds parallel 500 kcmil Al and the load current is less than 600 Amps, the Company will install CT metering and charge the customer accordingly, at its discretion.

⁽¹⁾ Maximum operating temperature

⁽²⁾ Single phase k-base meter socket shall be used on 120/240 volt services only.

4.5.3 Commercial - Residential - Three Phase

100 ampere maximum wire size, #1 Al @ 75°C ⁽¹⁾ (For loads 0-85 amps.)
 200 ampere maximum wire size, 250 kcmil Al @ 75°C ⁽¹⁾ (For loads 85- 200 amps.)
 320 ampere maximum wire size (For loads 200-300 amps.)

RESIDENTIAL SERVICE**SCHEDULE:** RS**RATE CODE:** 110, 111, 120, 121, 130, 131, 170, 171, 180, 181, 910.**AVAILABLE:** Entire service area.

APPLICABLE: To residential consumers in individually metered private residences, apartment units, and duplex units. All energy must be for domestic purposes and should not be shared with or sold to others. In addition, energy used in commonly-owned facilities in condominium and cooperative apartment buildings will qualify for this rate schedule, subject to the following criteria:

1. 100% of the energy is used exclusively for the co-owners' benefit.
2. None of the energy is used in any endeavor which sells or rents a commodity or provides service for a fee.
3. Each point of delivery will be separately metered and billed.
4. A responsible legal entity is established as the customer to whom the Company can render its bills for said service.

Resale not permitted.

LIMITATION OF SERVICE: This schedule includes service to single phase motors rated up to 7.5 HP. Three phase service may be provided where available for motors rated 7.5 HP and over.

MONTHLY RATE:**Customer Facilities Charge:**

\$10.50

Energy and Demand Charge:

First 1,000 kWh 5.079¢ per kWh

All additional kWh 6.079¢ per kWh

MINIMUM CHARGE: The Customer Facilities Charge.**FUEL CHARGE:** See Sheet Nos. 6.020 and 6.021.

ISSUED BY: C. R. Black, President**DATE EFFECTIVE:**

TAMPA ELECTRIC

SEVENTEENTH REVISED SHEET NO. 6.050
 CANCELS SIXTEENTH REVISED SHEET NO. 6.050

GENERAL SERVICE - NON DEMAND**SCHEDULE:** GS**RATE CODE:** 200, 920.**AVAILABLE:** Entire service area.

APPLICABLE: For lighting and power in establishments not classified as residential whose energy consumption has not exceeded 9,000 kWh in any one of the prior twelve (12) consecutive billing periods ending with the current billing period. For any billing period that exceeds 35 days, the energy consumption shall be prorated to that of a 30-day amount for purposes of administering this requirement. Resale not permitted.

CHARACTER OF SERVICE: Single or 3 phase, 60 cycles and approximately 120 volts or higher, at Company's option.

LIMITATION OF SERVICE: All service under this rate shall be furnished through one meter. Standby service permitted on Schedule GST only.

MONTHLY RATE:**Customer Facilities Charge:**

Metered accounts	\$10.50
Un-metered accounts	\$ 9.00

Energy and Demand Charge:

5.429¢ per kWh

MINIMUM CHARGE: The Customer Facilities Charge.

EMERGENCY RELAY POWER SUPPLY CHARGE: The monthly charge for emergency relay power supply service shall be 0.165¢ per kWh of billing energy. This charge is in addition to the compensation the customer must make to the Company as a contribution-in-aid of construction.

ISSUED BY: C. R. Black, President

DATE EFFECTIVE:

SIXTEENTH REVISED SHEET NO. 6.080
 CANCELS FIFTEENTH REVISED SHEET NO. 6.080

GENERAL SERVICE - DEMAND

SCHEDULE: GSD

RATE CODE: 360, 364, 365.

AVAILABLE: Entire service area.

APPLICABLE: To any customer whose energy consumption has exceeded 9,000 kWh in any one of the prior twelve (12) consecutive billing periods ending with the current billing period. Also available to customers with energy consumption at any level below 9,000 kWh per billing period who agree to remain on this rate for at least twelve (12) months. For any billing period that exceeds 35 days, the energy consumption shall be prorated to that of a 30-day amount for purposes of administering this requirement. Resale not permitted.

CHARACTER OF SERVICE: A-C; 60 cycles; 3 phase; at any standard Company voltage.

LIMITATION OF SERVICE: Standby service is permitted only for customers who generate less than 20% of their on-site load requirements or whose generating equipment is used for emergency purposes.

MONTHLY RATE:

STANDARD

OPTIONAL

Customer Facilities Charge:

Secondary Metering Voltage \$ 57.00
 Primary Metering Voltage \$130.00
 Subtransmission Metering Voltage \$930.00

Customer Facilities Charge:

Secondary Metering Voltage \$ 57.00
 Primary Metering Voltage \$130.00
 Subtransmission Metering Voltage \$930.00

Demand Charge:

\$9.35 per kW of billing demand

Demand Charge:

\$0.00 per kW of billing demand

Energy Charge:

1.764¢ per kWh

Energy Charge:

6.515¢ per kWh

The customer may select either standard or optional. Once an option is selected, the customer must remain on that option for twelve (12) consecutive months.

Continued to Sheet No. 6.081

ISSUED BY: C. R. Black, President

DATE EFFECTIVE:

THIRTEENTH REVISED SHEET NO. 6.081
 CANCELS TWELFTH REVISED SHEET NO. 6.081

Continued from Sheet No. 6.080

BILLING DEMAND: The highest measured 30-minute interval kW demand during the billing period.

MINIMUM CHARGE: The Customer Facilities Charge and any Minimum Charge associated with optional riders.

TEMPORARY DISCONTINUANCE OF SERVICE: Where the use of energy is seasonal or intermittent, no adjustments will be made for a temporary discontinuance of service. Any customer prior to resuming service within 12 months after such service was discontinued will be required to pay all charges which would have been billed if service had not been discontinued.

POWER FACTOR

Power factor will be calculated for customers with measured demands of 1,000 kW or more in any one billing period out of twelve (12) consecutive billing periods ending with the current billing period. When the average power factor during the month is less than 85%, the monthly bill will be increased \$0.002 for each kVARh by which the reactive energy numerically exceeds 0.619744 times the billing energy. When the average power factor during the month is greater than 90%, the monthly bill will be decreased \$0.001 for each kVARh by which the reactive energy is numerically less than 0.484322 times the billing energy.

METERING LEVEL DISCOUNT: When the customer takes energy metered at primary voltage, a discount of 1% will apply to the Demand Charge, Energy Charge, Transformer Ownership Discount, Power Factor billing, Emergency Relay Power Supply Charge, and any credits from optional riders.

When the customer takes energy metered at subtransmission or higher voltage, a discount of 2% will apply to the Demand Charge, Energy Charge, Transformer Ownership Discount, Power Factor billing, Emergency Relay Power Supply Charge, and any credits from optional riders.

TRANSFORMER OWNERSHIP DISCOUNT: When a customer under the standard rate takes service at primary voltage, a discount of 80¢ per kW of billing demand will apply. A discount of \$1.26 per kW of billing demand will apply when a customer under the standard rate takes service at subtransmission or higher voltage.

Continued from Sheet No. 6.082

ISSUED BY: C. R. Black, President

DATE EFFECTIVE:

ORIGINAL SHEET NO. 6.082

Continued from Sheet No. 6.080

When a customer under the optional rate takes service at primary voltage, a discount of 0.209¢ per kWh will apply. A discount of 0.328¢ per kWh will apply when a customer under the optional rate takes service at subtransmission or higher voltage.

EMERGENCY RELAY POWER SUPPLY CHARGE: The monthly charge for emergency relay power supply service shall be 65¢ per kW of billing demand for customers taking service under the standard rate and 0.165 ¢/kWh for customer taking service under the optional rate. This charge is in addition to the compensation the customer must make to the Company as a contribution-in-aid of construction.

RATE CODE: 359

AVAILABLE: Entire service area.

APPLICABLE: Required for all self-generating Customers whose generating capacity in kilowatts (exclusive of emergency generation equipment) exceeds 20% of their site load in kilowatts and who take firm service from the utility. Also available to self-generating Customers whose generating capacity in kilowatts does not exceed 20% of their site load in kilowatts, but who agree to all the terms and conditions of this rate schedule. Resale not permitted.

CHARACTER OF SERVICE: A-C; 60 cycles; 3 phase; at any standard company voltage.

LIMITATION OF SERVICE: A customer taking service under this tariff must sign a Tariff Agreement for the Purchase of Firm Standby and Supplemental Service. (See Sheet No. 7.600)

MONTHLY RATE:

Customer Facilities Charge:

Secondary Metering Voltage	\$ 82.00
Primary Metering Voltage	\$155.00
Subtransmission Metering Voltage	\$955.00

CHARGES FOR STANDBY SERVICE:

Demand Charge:

\$2.60 per kW-Month of Standby Demand
(Local Facilities Reservation Charge)

plus the greater of:

\$1.42 per kW-Month of Standby Demand
(Power Supply Reservation Charge) or

\$0.57 per kW-Day of Actual Standby Billing Demand
(Power Supply Demand Charge)

Energy Charge:

1.060¢ per Standby kWh

Continued to Sheet No. 6.601

ISSUED BY: C. R. Black, President

DATE EFFECTIVE:

SEVENTH REVISED SHEET NO. 6.601
CANCELS SIXTH REVISED SHEET NO. 6.601

Continued from Sheet No. 6.600

CHARGES FOR SUPPLEMENTAL SERVICE:

Demand Charge:

\$ 9.35 per kW-Month of Supplemental Billing Demand (Supplemental Billing Demand Charge)

Energy Charge:

1.764¢ per Supplemental kWh

DEFINITIONS OF THE USE PERIODS: All time periods stated in clock time. (Meters are programmed to automatically adjust for changes from standard to daylight saving time and vice-versa.)

	<u>April 1 - October 31</u>	<u>November 1 - March 31</u>
<u>Peak Hours:</u> (Monday-Friday)	12:00 Noon - 9:00 PM	6:00 AM - 10:00 AM and 6:00 PM - 10:00 PM

Off-Peak Hours: All other weekday hours, and all hours on Saturdays, Sundays, New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day shall be off-peak.

BILLING UNITS:

Demand Units: Metered Demand - The highest measured 30-minute interval kW demand served by the company during the month.

Site Load - The highest kW total of Customer generation plus deliveries by the company less deliveries to the Company, occurring in the same 30-minute interval, during the month.

Normal Generation - The generation level equaled or exceeded by the Customer's generation 10% of the metered intervals during the previous twelve months.

Supplemental Billing Demand - The amount, if any, by which the highest Site Load during any 30-minute interval in the month exceeds Normal Generation, but no greater than Metered Demand.

Continued to Sheet No. 6.602

ISSUED BY: C. R. Black, President

DATE EFFECTIVE:

THIRD REVISED SHEET NO. 6.602
 CANCELS SECOND REVISED SHEET NO. 6.602

Continued from Sheet No. 6.601

Contract Standby Demand - As established pursuant to the Tariff Agreement for the Purchase of Firm Standby and Supplemental Service. Anytime a customer registers a Standby Demand that is higher than the existing Contract Standby Demand, that Standby Demand will become the new Contract Standby Demand, beginning with the following period.

Standby Demand - The greater of Contract Standby Demand or the amount by which Metered Demand exceeds Supplemental Billing Demand, but no greater than Normal Generation.

Actual Standby Billing Demand - The summation of the daily amounts by which the highest on-peak measured 30-minute interval kW demands served by the Company exceed the monthly Supplemental Billing Demand.

Energy Units: Energy provided by the Company during each 30-minute period up to the Supplemental Demand level shall be billed as Supplemental kWh. The remaining energy shall be billed as Standby kWh.

MINIMUM CHARGE: The Customer Facilities Charge, Local Facilities Reservation Charge, Power Supply Reservation Charge, and any Minimum Charge associated with optional riders.

TERM OF SERVICE: Any customer receiving service under this schedule will be required to give the Company written notice at least 60 months prior to transferring to a firm non-standby schedule. Such notice shall be irrevocable unless the Company and the customer should mutually agree to void the notice.

TEMPORARY DISCONTINUANCE OF SERVICE: Where the use of energy is seasonal or intermittent, no adjustments will be made for a temporary discontinuance of service. Any customer prior to resuming service within 12 months after such service was discontinued will be required to pay all charges which would have been billed if service had not been discontinued.

POWER FACTOR: When the average power factor during the month is less than 85%, the monthly bill will be increased \$0.002 for each kVARh by which the reactive energy numerically exceeds 0.619744 times the billing energy. When the average power factor during the month is greater than 90%, the monthly bill will be decreased \$0.001 for each kVARh by which the reactive energy is numerically less than 0.484322 times the billing energy.

DATE EFFECTIVE:

EIGHTH REVISED SHEET NO. 6.603
CANCELS SEVENTH REVISED SHEET NO. 6.603

Continued from Sheet No. 6.602

METERING LEVEL DISCOUNT: When the customer takes energy metered at primary voltage, a discount of 1% will apply to the Demand Charge, Energy Charge, Transformer Ownership Discount, Power Factor billing, Emergency Relay Power Supply Charge, and any credits from optional riders.

When the customer takes energy metered at subtransmission or higher voltage, a discount of 2% will apply to the Demand Charge, Energy Charge, Transformer Ownership Discount, Power Factor billing, Emergency Relay Power Supply Charge, and any credits from optional riders.

TRANSFORMER OWNERSHIP DISCOUNT: When the customer takes service at primary voltage, a discount of 80¢ per kW of Supplemental Demand and 65¢ per kW of Standby Demand will apply.

When the customer takes service at subtransmission or higher voltage, a discount of \$1.26 per kW of Supplemental Demand and \$1.29 per kW of Standby Demand will apply.

EMERGENCY RELAY POWER SUPPLY CHARGE: The monthly charge for emergency relay power supply service shall be 65¢ per kW of Supplemental Demand and Standby Demand. This charge is in addition to the compensation the customer must make to the Company as a contribution-in-aid of construction.

FUEL CHARGE: See Sheet Nos. 6.020 and 6.021. Note: Standby fuel charges shall be based on the time of use (i.e., peak and off-peak) fuel rates for Rate Schedule SBF. Supplemental fuel charges shall be based on the standard fuel rate for Rate Schedule SBF.

ENERGY CONSERVATION CHARGE: See Sheet Nos. 6.020 and 6.021.

CAPACITY CHARGE: See Sheet Nos. 6.020 and 6.021.

ENVIRONMENTAL COST RECOVERY CHARGE: See Sheet Nos. 6.020 and 6.021.

FLORIDA GROSS RECEIPTS TAX: See Sheet No. 6.021.

FRANCHISE FEE CHARGE: See Sheet No. 6.021.

PAYMENT OF BILLS: See Sheet No. 6.022.

LIGHTING SERVICE

SCHEDULE: LS-1

AVAILABLE: Entire service area

APPLICABLE:

Lighting Service is applicable to any customer for the sole purpose of lighting roadways or other outdoor areas. Service hereunder is provided for the sole and exclusive benefit of the customer, and nothing herein or in the contract executed hereunder is intended to benefit any third party or to impose any obligation on the Company to any such third party. At the Company's option, a deposit amount of up to a two (2) month's average bill may be required at anytime.

CHARACTER OF SERVICE:

Service is provided during the hours of darkness normally on a dusk-to-dawn basis.

At the Company's option and at the customer's request, the company may permit a timer to control a lighting system provided under this rate schedule that is not used for dedicated street or highway lighting. The Company shall install and maintain the timer at the customer's expense. The Company shall program the timer to the customer's specifications as long as such service does not exceed 2,100 hours each year. Access to the timer is restricted to company personnel.

LIMITATION OF SERVICE:

Installation shall be made only when, in the judgment of the Company, location of the proposed lights are, and will continue to be, feasible and accessible to the company equipment and personnel for both construction and maintenance.

TERM OF SERVICE:

Service under this rate schedule shall be for an initial term of ten (10) years beginning on the date lighting equipment is installed, energized, and ready for use and shall continue thereafter for successive one-year terms until terminated by either party upon providing ninety (90) days prior written notice.

NON-STANDARD FACILITIES AND SERVICES:

The customer shall pay all costs associated with additional company facilities and services that are not considered standard for providing lighting service, including but not limited to, the following:

1. relays;
2. distribution transformers installed solely for lighting service;
3. protective shields;
4. bird deterrent devices;
5. light trespass shields;
6. light rotations;
7. light pole relocations;
8. devices required by local regulations to control the levels or duration of illumination including associated planning and engineering costs;
9. removal and replacement of pavement required to install underground lighting cable; and
10. directional boring.

MINIMUM CHARGE: The monthly charge.

FUEL CHARGE: See Sheet Nos. 6.020 and 6.021.

ENERGY CONSERVATION CHARGE: See Sheet Nos. 6.020 and 6.021.

CAPACITY CHARGE: See Sheet Nos. 6.020 and 6.021

FLORIDA GROSS RECEIPTS TAX: See Sheet No. 6.021

FRANCHISE FEE: See Sheet No. 6.021

PAYMENT OF BILLS: See Sheet No. 6.022

SPECIAL CONDITIONS:

On customer-owned public street and highway lighting systems not subject to other rate schedules, the monthly rate for energy served at primary or secondary voltage, at the company's option, shall be 2.993¢ per kWh of metered usage, plus a customer charge of \$10.50 per month and the applicable additional charges as specified on Sheet Nos. 6.020 and 6.021.

Continued to Sheet No. 6.820

ISSUED BY: C. R. Black, President

DATE EFFECTIVE:

ORIGINAL SHEET NO. 6.820

Continued from Sheet No. 6.815

SPECIAL PROVISIONS:

1. All non-governmental customers shall execute the company's standard lighting agreement for service under this contract.
2. The customer shall be responsible for the cost incurred to repair or replace any company facilities that have been damaged as a result of any cause other than normal wear and tear. The company shall not be required to make such repair or replacement prior to payment by the customer for such damage. At the customer's expense, and at the company's discretion, the company may install a Luminaire protective shield to protect any Equipment repaired or replaced as a result of vandalism.
3. The customer shall arrange for tree trimming by qualified personnel at the customer's sole expense when the installation of, illumination from or maintenance access to the Equipment is obstructed by trees and other vegetation. The company shall not be responsible for tree trimming for lighting installation or illumination obstruction.
4. The company will not be required to install or continue to operate equipment at any location where the service may be or has become objectionable to others. If it is found either during or after installation that the light is objectionable to others, the customer shall be responsible for the costs incurred to relocate, remove, or shield the equipment in addressing the objection unless the customer is otherwise able to fully address and satisfy the third-party objections in question.
5. In the event that the Customer fails to pay the Company for any of the services provided herein, or violates the terms of this agreement, the Company may, at its option and on five (5) days' written notice, terminate this agreement. If such termination occurs prior to the expiration of the current term, the Customer agrees to pay the Company, as liquidated damages, an amount equal to the net present value of the monthly rate for each service taken, less all applicable fuel and other adjustment clause charges, and (where applicable) franchise fees and taxes, for each month of the unexpired current term
6. In no event shall the Customer, or any other Grantor, place upon or attach to the Equipment, except with the Company's prior written consent and as set forth in Tampa Electric's "Guidelines for Attaching Banners to TEC Poles", any sign or device of any nature, or place, install or permit to exist, anything, including trees or shrubbery, which would interfere with the Equipment or tend to create a dangerous condition. The Company is hereby granted the right to remove, without liability, anything placed, installed, or existing in violation of this paragraph.
7. The Customer shall locate and advise the Company, through the provision of an accurate map and other necessary written descriptions, of the exact location of all underground facilities including, but not limited to: sewage pipes, septic tanks, wells, swimming pools, sprinkler systems, conduits, cables, valves, lines, fuel storage tanks, and storm drainage systems ("Underground Facilities") at the Installation Site at least two (2) days prior to the commencement of any work by the Company at the Installation Site.

**TARIFF AGREEMENT FOR THE PURCHASE OF
 INDUSTRIAL LOAD MANAGEMENT RIDER SERVICE**

This agreement is made and entered into this _____ day of _____, _____, by and between _____, (hereinafter called the "Customer") and Tampa Electric Company, a corporation organized in and existing under the laws of the State of Florida, (hereinafter called the "Company").

WITNESSETH:

That for and in consideration of the mutual covenants and agreements expressed herein, the Company and the Customer agree as follows:

1. The Company agrees to furnish and the Customer agrees to take electric service subject to the terms and conditions of an applicable general service rate schedule (i. e., GSD or GSDT) and the Industrial Load Management Rider GSLM-2 (attached as Exhibit "A"), as currently approved by the Florida Public Service Commission (hereinafter referred to as the FPSC) or as said rate schedules or rider may be modified in the future and approved by the FPSC.

2. The Customer agrees to the control of all or part of its electrical service, the description of which is described in Exhibit "B". The Customer understands and agrees that the service description will apply for the full term of this Agreement, unless mutually agreed to be changed by both parties with a revised or substituted Exhibit "B".

3. The Company will notify the Customer as soon as possible before an unscheduled interruption or curtailment occurs. However, there may be conditions when the Company will not be able to provide the customer with advance notice and immediate interruption or curtailment may occur.

Continued to Sheet No. 7.151

ISSUED BY: C. R. Black, President

DATE EFFECTIVE:

SECOND REVISED SHEET NO. 7.152
CANCELS FIRST REVISED SHEET NO. 7.152

Continued from Sheet No. 7.151

8. This Agreement may be terminated if the same is required in order to comply with regulatory rulings.

Contract Credit Value

9. A Contract Credit Value (CCV) of _____ \$/kW/mo. shall apply during the Initial Term of this agreement. The CCV shall be revised subject to paragraph five above or at any time that the Customer requests to re-establish a new 36 month Initial Term. When the credit is reset, it shall be reset at the level then on file at the FPSC.

Third Party Power Purchases

10. The Customer authorizes the Company to purchase third party power on its behalf when such power is available from others during generation deficiency periods. This procedure may minimize unscheduled interruptions. Purchases will be in accordance with the "optional provision section" of GSLM-2 (Exhibit "A").

11. Third party purchased power will be itemized separately and billed at an increased rate. The actual rate will be determined as described in Exhibit "A" and will not be known at the time of the purchase.

Other Provisions

12. The Customer agrees to provide space for the installation of the Company's communication equipment. The location shall be easily accessible for monitoring messages sent by the Company and must be free of contamination harmful to office equipment. Even though the Company is under no obligation, when possible, the Company will use its equipment to advise the customer of third party purchases and generating deficiencies. The Customer agrees to furnish the Company a telephone number and name/names of authorized persons to receive calls notifying the Customer of interruptions and third party purchases.

DATE EFFECTIVE:

TAMPA ELECTRIC

FIFTH REVISED SHEET NO. 7.201
 CANCELS FOURTH REVISED SHEET NO. 7.201

Continued from Sheet No. 7.200

5. Customer Information and Preparation

The Customer shall locate and advise the Company, through the provision of an accurate map and other necessary written descriptions, of the exact location of all underground facilities including, but not limited to: sewage pipes, septic tanks, wells, swimming pools, sprinkler systems, conduits, cables, valves, lines, fuel storage tanks, and storm drainage systems ("Underground Facilities") at the Installation Site at least two (2) days prior to the commencement of any work by the Company at the Installation Site. Any and all cost or liability for damage to Underground Facilities by the Company that were not properly identified by the Customer, as described under this Paragraph, shall be paid by the Customer. Except for those claims, losses and damages arising out of Company's sole negligence, the Customer agrees to defend, at its own expense, and indemnify the Company for any and all claims, losses and damages, including attorney's fees and costs, which arise or are alleged to have arisen out of furnishing, design, installation, operation, maintenance or removal of the Equipment. The phrase "property damage" includes, but is not limited to, damage to the property of the Customer, the Company, or any third parties. For purposes of this indemnification, and the exculpation of liability provided in Paragraph 10 of this Agreement, the "Company" shall be defined as Tampa Electric Company, its parent, TECO Energy, Inc., and all subsidiaries and affiliates thereof, and each of their respective officers, directors, affiliates, insurers, representatives, agents, servants, employees, contractors, or parent, sister, or successor corporations.

6. Location of Equipment – Staking

The Customer shall stake the locations of Equipment on roadways and commercial property prior to the installation of the Equipment by the Company. To assist the Customer with the staking process, the Company shall provide the Customer with a final design sketch that reflects the Equipment locations approved by the Customer.

7. Non-Standard Service Charges

The Customer shall pay all costs associated with any additional Company facilities and services that are not considered standard for providing lighting service including, but not limited to: installation of distribution transformers, relays, protective shields, bird deterrent devices, light trespass shields, and any devices required by local regulations to control the level or duration of illumination including any associated planning and engineering costs. Charges will also be assessed for light rotations and light pole relocations. The Company will bill the Customer the actual cost of such non-standard facilities and services as incurred.

8. Customer Contribution in Aid of Construction

The Company shall pay for all normal Equipment installation costs, with the exception of the following: \$ _____ for _____.

DATE EFFECTIVE:

TAMPA ELECTRIC

FIFTH REVISED SHEET NO. 7.202
 CANCELS FOURTH REVISED SHEET NO. 7.202

Continued from Sheet No. 7.201

9. Monthly Payment

During the term of this Agreement, the Customer shall pay the Company monthly for the lighting services provided pursuant to Rate Schedule LS-1 as the rate schedule, which is on file with the Florida Public Service Commission, may be amended from time to time. All bills shall be due when rendered.

The current monthly base charges for facilities installed under this agreement are _____. Fuel and other adjustment clause charges and (where applicable) franchise fees and taxes per month under current tax rates pursuant to the Rate Schedule shall be _____. The total monthly charge of shall be _____ per month.

Customer agrees to deposit with the Company, the additional cash sum of _____, which is equivalent to approximately two (2) months service under this Agreement, or upon acceptance if the Company so agrees, provide a surety bond or an irrevocable letter of credit from a bank, in favor of the Company in the same amount. The Company will annually credit the Customer's bill with an interest amount, at the rate currently approved by the Florida Public Service Commission, for cash deposits received. The currently authorized interest rate is ___%.

The monthly charges specified in this agreement are tied to the tariff charges currently on file with the Florida Public Service Commission and may change during the term of this Agreement in accordance with filed changes to the relevant tariffs.

10. Term

This Agreement shall be effective on the later of the dates indicated on the signature block ("Effective Date") and shall remain in force for a primary term of ten (10) year(s) (the "Primary Term") beginning on the date the Equipment is installed and all lights are energized and ready for use and shall continue thereafter for successive one year terms (each, a "Renewal Term") until terminated by either party upon providing the other party with ninety (90) days prior written notice of termination.

11. Limitation on Damages

The Company will furnish electricity to operate the Equipment approximately 4200 hours or less, depending on the controlling device, each calendar year. The Company will use reasonable diligence at all times to provide continuous service and maintain the Equipment in operating order. But the Company shall not be liable to the Customer for any damages arising from causes beyond its control or from the negligence of the Company including, but not limited to, complete or partial failure or interruption of service, shut down for repairs or adjustments, delay in providing or restoring service, or for failure to warn of any interruption of service or lighting.

ISSUED BY: C. R. Black, President

DATE EFFECTIVE:

FOURTH REVISED SHEET NO. 7.203
CANCELS THIRD REVISED SHEET NO. 7.203

Continued from Sheet No. 7.202

12. Outage Notification

The Customer shall be responsible for monitoring the function of the Equipment and for notifying the Company of all Equipment outages.

13. Vandalism

The Customer shall be responsible for the cost incurred to repair or replace any Equipment that has been damaged as a result of any cause other than normal wear and tear. The Company shall not be required to make such repair or replacement prior to payment by the Customer for such damage. At the Customer's expense, and at the Company's discretion, the Company may install a luminaire protective shield to protect any Equipment repaired or replaced as a result of vandalism.

14. Tree Trimming

The Customer shall arrange for tree trimming by qualified personnel at Customer's sole expense when the installation of, illumination from or maintenance access to the Equipment is obstructed by trees and other vegetation. The Company will not be responsible for trimming trees for lighting installation or illumination obstruction. Failure to maintain adequate clearance around the luminaire and pole may cause a delay in requested repairs or required maintenance.

15. Termination, Removal

The Customer shall have the right to terminate this Agreement without any liability or obligation to the Company during the three (3) business day period following the Effective Date ("Initial Termination Period"), provided that written notice of such termination is received by the Company no later than the close of business on the third business day following the Effective date. In addition, the Customer may terminate this Agreement during the period that commences at the close of the Initial Termination Period and ends at 5:00 p.m. on the date immediately preceding the date on which installation of the Equipment at the Installation Site is scheduled to commence ("Final Termination Period"), provided that written notice of such termination is received by the Company no later than 5:00 p.m. on the day immediately preceding the date on which installation of the Equipment commences and, provided further, that the Customer reimburses the Company for any costs incurred by the Company up to the time of the termination by the Customer. These costs include, but are not limited to, shipping and storeroom handling cost for items purchased pursuant to or in contemplation of the Agreement, restocking fees on returned purchases, the cost of purchased Equipment that cannot be returned, or in the Company's sole judgment, reasonably absorbed in current inventory, and engineering time. The Customer may not terminate this Agreement once installation of the Equipment has commenced.

Continued to Sheet No. 7.204

ISSUED BY: C. R. Black, President

DATE EFFECTIVE:

TAMPA ELECTRIC

**THIRD REVISED SHEET NO. 7.204
CANCELS SECOND REVISED SHEET NO. 7.204**

Continued from Sheet No. 7.203

In the event that the Customer fails to pay the Company for any of the services provided herein, or violates the terms of this agreement, the Company may, at its option and on five (5) days' written notice, terminate this agreement. If such termination occurs prior to the expiration of the current term, the Customer agrees to pay the Company, as liquidated damages, an amount equal to the net present value of the monthly rate for each service taken, less all applicable fuel and other adjustment clause charges, and (where applicable) franchise fees and taxes, for each month of the unexpired current term.

15. Easements

The customer covenants that it owns or controls the Installation Site or has binding arrangements with the owner to the extent necessary to grant the Company an easement to permit performance of the Agreement. If a tenant of the Installation Site, Customer represents that Customer's lease is for a term of at least the Primary Term. The Customer and the owner or landlord of the Installation Site, if other than the Customer (individually, the "Grantor" collectively, the "Grantors"), hereby grant the Company a **Non-exclusive Easement** for ingress and egress over and under the Installation Site and for installation, inspection, operation, maintenance, repair, replacement, and removal of the Equipment. The easement shall terminate upon the Company's removal of the Equipment. The Equipment shall remain the Company's personal property, notwithstanding the manner or mode of its attachment to the Installation Site and shall not be deemed fixtures. Any claim(s) that the Company has or may hereafter have with respect to the Equipment shall be superior to any lien, right or claim of any nature that any Grantor or anyone claiming through Grantor now has or may hereafter have with respect to the Equipment by law, agreement or otherwise.

In the event that this agreement is terminated pursuant to Paragraph 14 or expires pursuant to Paragraph 9, each of the Grantors expressly grants the Company or its assigns or agents the continued right of entry at any reasonable time to remove the Equipment, or any part hereof, from the Installation Site. The Grantors, individually or collectively, shall make no claim whatsoever to the Equipment or any interest or right therein.

16. Attachments

In no event shall the Customer, or any other Grantor, place upon or attach to the Equipment, except with the Company's prior written consent and as set forth in Tampa Electric's "Guidelines for Attaching Banners to TEC Poles," any sign or device of any nature, or place, install or permit to exist, anything, including trees or shrubbery, which would interfere with the Equipment or tend to create a dangerous condition. The Company is hereby granted the right to remove, without liability, anything placed, installed, or existing in violation of this paragraph.

17. Insurance

Customer, at his sole cost and expense, shall maintain insurance, in amounts and under policy forms satisfactory to Company at all times during the life of this Agreement. Failure to provide insurance in accordance with this Section shall constitute a material breach of this Agreement.

18. Amendments

During the term of this Agreement, Company and Customer may amend or enter into additional addenda to the Agreement ("Addenda") upon the mutual written agreement of both parties in the form of Addendum "A" hereto.

TARIFF AGREEMENT FOR THE PROVISION OF LOAD MANAGEMENT SERVICE

This Agreement is made and entered this _____ day of _____, _____, by and between _____ (hereinafter called the "Customer") and TAMPA ELECTRIC COMPANY (hereinafter called the "Company"), a corporation organized and existing under the laws of the State of Florida.

WITNESSETH:

That for and in consideration of the mutual covenants and agreements expressed herein, the Company and the Customer agree as follows:

1. The Company agrees to furnish and the Customer agrees to take electric service subject to the terms and conditions of a general service rate schedule (i.e., GS or GSD,) and the General Service Load Management Rider (GSLM-1) as currently approved by the Florida Public Service Commission. A copy of the Company's presently approved schedule GSLM-1 is attached hereto as Exhibit "A" and hereby made an integral part of this Agreement.

2. The Customer agrees to the control of its electrical service under Load Control Option _____, the conditions of which are described in Exhibit "A". The Customer understands and agrees that the selected option will apply for the full term of this Agreement.

3. The Customer agrees that, promptly after this agreement is executed but in no event more than three months thereafter, the Company will engineer, provide, install, and activate equipment as necessary to comply with requirements described in the Commercial/Industrial Load Management Customer Contact Record which is attached hereto as Exhibit "B".

4. Upon completion of the installation of the load control equipment, a test of the system will be conducted at a time and date mutually agreeable to the Company and the Customer, but not more than three (3) months from the execution of the Agreement. The test will consist of a load reduction of not less than one hour and not longer than the Load Control Period specified in the Load Control Option chosen by the Customer. Effective upon the completion of the testing of the load control equipment (the "Test Date"), the Customer will begin receiving monthly incentive credits indicative of the amount of controlled load and the applicable Load Control Option.

**TARIFF AGREEMENT FOR THE PROVISION OF
STANDBY GENERATOR TRANSFER SERVICE**

This Agreement is made and entered into this _____ day of _____, -
_____, by and between _____
(hereinafter called the "Customer") and TAMPA ELECTRIC COMPANY (hereinafter called the
"Company"), a corporation organized and existing under the laws of the State of Florida.

WITNESSETH:

That for and in consideration of the mutual covenants and agreements expressed herein,
the Company and the Customer agree as follows:

1. The Company agrees to furnish and the Customer agrees to take electric service
subject to the terms and conditions of a general service rate schedule (i.e. GSD, GSDT, SBF,
or SBFT) and the Standby Generator Rider (GSSG-1). Company's presently approved
Schedule GSSG-1 is attached hereto as Exhibit "A".

2. The Customer agrees that, promptly after this agreement is executed, but in no
event more than three months thereafter, the Company will engineer, provide, install, and
activate equipment as described in the Standby Generator Contact Record which is attached
hereto as Exhibit "B".

3. The Customer shall be obligated to promptly notify the Company, in writing,
concerning any planned or anticipated change (either an increase or a decrease) in the
Customer's load, load factor or generation capacity which might result in a change in the
Customer's load transfer capability.

4. Prior to the Customer's receiving service under Schedule GSSG-1, the Customer
must provide the Company reasonable access to inspect any and all of the Customer's load to
be transferred. The Customer shall be responsible for meeting any applicable code standards
and legal requirements pertaining to the installation and operation of the equipment. The
Customer shall be solely responsible for maintaining Customer-owned equipment in proper
working order, and shall provide the Company access at all reasonable times to inspect the
Company's equipment to determine its condition.

Continued to Sheet No. 7.551

ISSUED BY: C. R. Black, President

DATE EFFECTIVE:

SECOND REVISED SHEET NO. 7.627
CANCELS FIRST REVISED SHEET NO. 7.627

Continued from Sheet No. 7.626

The Customer acknowledges the Company's need for generation planning lead time and that the Company has depended upon the Customer to provide written notice in advance of the termination of the Customer's obligation to remain a load management program participant.

7. The Company may terminate this Agreement at any time for the Customer's failure to comply with the terms and conditions of GSLM-3 or this Agreement. Such termination will only affect the application of the GSLM-3 rider. Prior to any such termination, the Company shall notify the Customer at least 30 days in advance and describe the Customer's failure to comply. The Company may then terminate this Agreement at the end of the 30 day notice period unless the Customer takes measures necessary to eliminate, to the Company's satisfaction, the compliance deficiencies described by the Company. Notwithstanding the foregoing, if, at any time during the 30 day period, the Customer either refuses or fails to initiate and pursue corrective action, the Company shall be entitled to suspend forthwith the monthly billing credits specified in Schedule GSLM-3.

8. This Agreement may be terminated if the same is required in order to comply with regulatory rulings.

Contract Credit Value

9. A Contracted Credit Value (CCV) of _____ \$/kW/mo. shall apply during the initial term of this agreement. The CCV shall be revised subject to paragraph five above or at any time that the Customer requests to re-establish a new 36 month Initial Term. When the CCV is reset, it shall be reset at the level then on file at the FPSC.

Third Party Power Purchases

10. The Customer authorizes the Company to purchase third party power on its behalf when such power is available from others during generation deficiency periods. This procedure may minimize unscheduled interruptions. Purchases will be in accordance with the "optional provision section" of GSLM-3 (Exhibit "B").

CHARGES/CREDITS TO QUALIFYING FACILITY

A. Customer Charges

A monthly Customer Charge will be rendered for maintaining an account for a Qualifying Facility engaged in either an As-Available Energy or Firm Capacity and Energy transaction and for other applicable administrative costs. Actual charges will depend on how the QF is interconnected to the Company.

QFs not directly interconnected to the Company, will be billed \$930 monthly as a Customer Charge.

Monthly customer charges, applicable to QFs directly interconnected to the Company, by Rate Schedule are:

<u>Rate Schedule</u>	<u>Customer Charge (\$)</u>	<u>Rate Schedule</u>	<u>Customer Charge (\$)</u>
RS	10.50	GST	12.00
GS	10.50	GSDT(secondary)	57.00
GSD (secondary)	57.00	GSDT(primary)	130.00
GSD (primary)	130.00	GSDT (subtrans.)	930.00
GSD (subtrans.)	930.00	SBFT secondary	82.00
SBF (secondary)	82.00	SBFT (primary)	155.00
SBF (primary)	155.00	SBFT (subtrans.)	955.00
SBF (subtrans.)	955.00		

When appropriate, the Customer Charge will be deducted from the Qualifying Facility's monthly payment. A statement of the charges or payments due the Qualifying Facility will be rendered monthly. Payment normally will be made by the twentieth business day following the end of the billing period.
