Monday, November 3, 2008 at 9:30 a.m.
Room 148, Betty Easley Conference Center
4075 Esplanade Way
Tallahassee, FL 32399-0862.

PURPOSE

The purpose of this workshop is to discuss the development of demand-side and supply-side conservation and efficiency measures, including demand-side renewable systems, for Florida's electric utilities pursuant to sections 366.80 through 366.82, Florida Statutes. Subject matter to be discussed shall include, but not be limited to:

1. The results of the KEMA/ITRON Technical Potential Study including baseline consumption data; identification of potential demand-side and supply-side conservation, energy efficiency measures, and demand-side renewable energy systems; quantifying corresponding demand and energy savings for each measure; and estimating the total technical potential savings if all measures were adopted;
2. Utility plans, procedures, and methodologies employed or to be employed to determine the full technical, economic, and achievable potential for supply-side generation, transmission, and distribution efficiency improvements;
3. Utility plans, procedures, and methodologies employed or to be employed to screen the measures identified in the KEMA/ITRON Technical Potential Study to determine the economic and achievable potential of each measure;
4. Utility plans, procedures, and methodologies employed or to be employed to determine the costs and benefits to consumers participating in each measure;
5. Utility plans, procedures, and methodologies employed or to be employed to determine the costs and benefits to the general body of ratepayers as a whole, including utility incentives and participant contributions;
6. The need for incentives to promote both customer-owned and utility-owned energy efficiency and demand-side renewable energy systems; and
7. Utility plans, procedures, and methodologies employed or to be employed to determine the costs imposed by state and federal regulations on the emission of greenhouse gases.

JURISDICTION

Jurisdiction is vested in this Commission pursuant to Chapter 366, Florida Statutes. The workshop will be governed by the provisions of that Chapter and Chapters 25-6, 25-17, 25-22 and 28-106, Florida Administrative Code.

A copy of the agenda for this workshop is attached. Any person with questions concerning this workshop should contact Katherine Fleming at (850) 413-6218.

Pursuant to the provisions of the Americans with Disabilities Act, any person requiring some accommodation at this hearing because of a physical impairment should call the Office of Commission Clerk at (850) 413-6770, at least 48 hours prior to the hearing. Any person who is hearing or speech impaired should contact the Florida Public Service Commission by using the Florida Relay Service, which can be reached at 1-800-955-8771 (TDD).

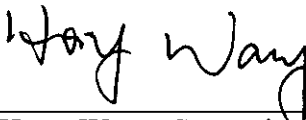

EMERGENCY CANCELLATION OF WORKSHOP

If a named storm or other disaster requires cancellation of the workshop, Commission staff will attempt to give timely direct notice to all interested persons. Notice of cancellation of the workshop will also be provided on the Commission's website (<http://www.psc.state.fl.us/>) under the Hot Topics link found on the home page. Cancellation can also be confirmed by call the Office of the General Counsel at (850) 413-6199.

By DIRECTION of the Florida Public Service Commission this 8th day of October,
2008.

ANN COLE
Commission Clerk

Workshop on Commission Review of Numeric Conservation Goals

Monday, November 3, 2008 - 9:30 a.m.

Florida Public Service Commission
Betty Easley Conference Center
Joseph P. Cresse Hearing Room 148
4075 Esplanade Way
Tallahassee, Florida

The purpose of this workshop is to provide Commissioners and interested persons with an opportunity to discuss the development of demand-side and supply-side conservation and efficiency goals, including demand-side renewable systems, for Florida's electric utilities subject to Florida Energy Efficiency and Conservation Act (FEECA). The results of the Technical Potential Study identifying all available demand-side conservation measures being conducted by the electric utilities will be presented and discussed. In addition, other statutory requirements of sections 366.80 through 366.82, Florida Statutes, will be discussed.

AGENDA

- A. Welcome and General Overview**
Chairman Matthew M. Carter II

- B. Presentation and Discussion of Technical Potential Study Results by KEMA/ITRON**

(Presentation to be filed by October 27, 2008)

- C. Discussion of Other Statutory Requirements**
 - 1. Utility plans, procedures, and methodologies being employed, or to be employed, to determine the full technical, economic, and achievable potential for supply-side generation, transmission, and distribution efficiency improvements.

NOTICE OF COMMISSION WORKSHOP

DOCKET NOS. 080407-EG, 080408-EG, 080409-EG, 080410-EG, 080411-EG, 080412-EG,
080413-EG

2. Utility plans, procedures, and methodologies being employed, or to be employed, to screen the measures identified in the KEMA/ITRON Technical Potential Study to determine the economic and achievable potential of each measure.
3. Utility plans, procedures, and methodologies being employed, or to be employed, to determine the costs and benefits to consumers participating in each measure.
4. Utility plans, procedures, and methodologies being employed, or to be employed, to determine the costs and benefits to the general body of ratepayers as a whole, including utility incentives and participant contributions.
5. Utility plans, procedures, and methodologies being employed, or to be employed, to determine the costs imposed by state and federal regulations on the emission of greenhouse gases.
6. Utility plans, procedures, and methodologies being employed, or to be employed, to determine the need for incentives to promote both customer-owned and utility-owned energy efficiency and demand-side renewable energy systems.

D. Scheduling, Post Workshop Comments, and Procedural Matters

E. Chairman's Closing Remarks
