# AQUA UTILITIES FLORIDA, INC.'S SUPPLEMENTAL RESPONSE TO STAFF AUDIT REPORT

(Findings 1, 2 and 3)

Aqua Utilities Florida, Inc. ("AUF"), files its Supplemental Response to Findings 1 through 3 of Staff's Audit Report dated September 18, 2008.

## **RESPONSE**

#### **Audit Finding No. 1**

Response:

## LAKE SUZY - WATER

AUF acquired the Lake Suzy system in 2003, and does not possess detailed supporting documentation of investments for periods prior to its ownership, which includes years 1997 and 1998. Lake Suzy was regulated by Desoto County during 1997 and 1998, and there were no annual report filing requirements during that period. Annual Reports would have shown details of rate base activity during 1997 and 1998.

AUF disagrees with the wholesale exclusion of investments made in 1997 and 1998, and furthermore disagrees with the adjustment amounts proposed in this finding for the following reasons:

The proposed reduction to UPIS in the amount of \$534,219 is incorrect because it represents UPIS balances since the last established rate base (June 30, 1999) plus additions through the acquisition in 2003, not just from years 1997 and 1998. Although AUF believes that it previously provided the auditors with all documents responsive to their specific requests, AUF is now supplying the auditors with additional information for all relevant periods. The actual UPIS additions for years 1997 and 1998 were \$190,351. Therefore, AUF believes the maximum UPIS reduction that should appear in this finding is \$190,351.

DOCUMENT NUMBER-DATE
09900 OCT 178

FPSC-COMMISSION CLERK

<sup>&</sup>lt;sup>1</sup> AUF filed its Response to Findings 4 – 19 on October 14, 2008.

The proposed reduction to Accumulated Depreciation in the amount of \$108,901 is incorrect because it also represents Accumulated Depreciation balances since the last established rate base (June 30, 1999) plus additions through the acquisition in 2003, not just from years 1997 and 1998. The actual Accumulated Depreciation reduction for years 1997 and 1998 was \$36,122. Therefore, AUF believes the maximum Accumulated Depreciation reduction in this finding should be \$36,122.

The Depreciation Expense reduction in the finding is also incorrectly stated as \$10,229, since it is based upon the incorrect reduction to UPIS balances. Depreciation expense needs to be adjusted downward to reflect the revised UPIS reduction. Based on the Company's response to the proposed reduction in UPIS, the Depreciation Expense reduction should be approximately \$3,650.

The proposed reduction to CIAC in the amount of \$137,077 is incorrect because it represents CIAC balances since the last established rate base (June 30, 1999) plus additions through the acquisition in 2003, not just from years 1997 and 1998. The actual CIAC reduction for years 1997 and 1998 was \$189,596. Therefore, AUF believes the maximum CIAC reduction in this finding should be \$189,596.

The proposed reduction to Accumulated Amortization of CIAC in the amount of \$8,891 is incorrect because it also represents Accumulated Amortization of CIAC balances since the last established rate base (June 30, 1999) plus additions through the acquisition in 2003, not just from years 1997 and 1998. The actual Accumulated Amortization of CIAC reduction for years 1997 and 1998 was \$14,595. Therefore, AUF believes the maximum Accumulated Amortization of CIAC reduction in this finding should be \$14,595.

**EFFECT ON THE GENERAL LEDGER IF THE FINDING IS ACCEPTED:** While AUF disagrees with the proposed adjustments, based on the revised data presented above, the following journal entries would be needed to adjust the utility general ledger balances as of December 31, 2007.

NARUC Acct. No	Account Description	Debit	Credit
108	Accumulated Depreciation	\$ 36,122	
271	CIAC	\$189,596	
439	Adjustments to Retained Earnin	gs	\$ 20,772
272	Accumulated Amortization of C		\$ 14,595
101	UPIS		\$190,351

EFFECT ON THE FILING IF THE FINDING IS ACCEPTED: The Account 101 Plant in Service year end balance would be reduced by \$190,351, Account 108 Accumulated Depreciation year end balance would be reduced by \$36,122, Account 271 Contributions in Aid of Construction year end balance would be reduced by \$189,596, Account 272 Accumulated Amortization of CIAC year end balance would be reduced by \$14,595. A related adjustment would also be made to the 13-month averages.

080121-WS

#### Audit Finding No. 2

#### Response:

#### LAKE SUZY - WASTEWATER

AUF acquired the Lake Suzy system in 2003, and does not possess detailed supporting documentation of investments for periods prior to its ownership, which includes years 1997 and 1998. Lake Suzy was regulated by Desoto County during 1997 and 1998, and there were no annual report filing requirements during that period. Annual reports would have shown details of rate base activity during 1997 and 1998.

AUF disagrees with the wholesale exclusion of investments made in 1997 and 1998, and furthermore disagrees with the adjustment amounts proposed in this finding for the following reasons:

The proposed reduction to UPIS in the amount of \$1,119,520 is incorrect because it represents UPIS balances since the last established rate base (June 30, 1999) plus additions through the acquisition in 2003, not just from years 1997 and 1998. The actual UPIS additions for years 1997 and 1998 were \$504,909. Therefore, AUF believes the maximum UPIS reduction that should appear in this finding is \$504,909.

The proposed reduction to Accumulated Depreciation in the amount of \$359,506 is incorrect because it also represents Accumulated Depreciation balances since the last established rate base (June 30, 1999) plus additions through the acquisition in 2003, not just from years 1997 and 1998. Although AUF believes that it previously provided the auditors with all documents responsive to their specific requests, AUF is now supplying the auditors with additional information for all relevant periods. The actual Accumulated Depreciation reduction for years 1997 and 1998 was \$46,122. Therefore, AUF believes the maximum Accumulated Depreciation reduction in this finding should be \$46,122.

The Depreciation Expense reduction in the finding is also incorrectly stated as \$36,147, since it is based upon the incorrect reduction to UPIS balances. Depreciation Expense needs to be adjusted downward to reflect the revised UPIS reduction. Based on the Company's response to the proposed reduction in UPIS, the Depreciation Expense reduction should be approximately \$16,300.

The finding did not include a proposed reduction to CIAC. A significant portion of the proposed reduction in plant additions resulted from contributed property. Therefore, any adjustment to plant additions must be accompanied by an adjustment to CIAC. For the reasons stated above, AUF does not possess supporting documentation for CIAC activity in years 1997 and 1998. The actual increase in CIAC for years 1997 and 1998 was \$733,536. Therefore, AUF believes the maximum CIAC reduction in this finding should be \$733,536.

The finding did not include a proposed reduction to Accumulated Amortization of CIAC. For the reasons stated above, AUF does not possess supporting documentation for CIAC activity in years 1997 and 1998. The actual reduction in Accumulated Amortization of CIAC for years 1997 and 1998 was \$52,113. Therefore, AUF believes the maximum Accumulated Amortization of CIAC reduction in this finding should be \$52,113.

#### EFFECT ON THE GENERAL LEDGER IF THE FINDING IS ACCEPTED:

While AUF disagrees with the proposed adjustments, based on the revised data presented above, the following journal entries would be needed to adjust the utility general ledger balances as of December 31, 2007.

NARUC Acct. No	Account Description	Debit	Credit
108	Accumulated Depreciation	\$ 46,122	
271	CIAC	\$733,536	
272	Accumulated Amortization of C	IAC	\$ 52,113
439	Adjustments to Retained Earning	gs	\$222,636
101	UPIS		\$504,909

EFFECT ON THE FILING IF THE FINDING IS ACCEPTED: The account 101 Plant in Service year end balance would be reduced by \$504,909, Account 108 Accumulated Depreciation year end balance would be reduced by \$46,122, Account 271 CIAC would be reduced by \$733,536 and Account 272 Accumulated Amortization of CIAC would be reduced by \$52,113. A related adjustment would also be made to the 13-month averages.

# Audit Finding No. 3 - ROSALIE OAKS – WATER/WASTEWATER & VILLAGE WATER – WATER/WASTEWATER

#### Response:

### **Summary**

The Company acknowledges filing Original Cost Studies for the Rosalie Oaks Water and Wastewater and Village Water- Water and Wastewater systems. The Original Cost Studies were requested by the Florida Public Service Commission Auditors during 2006, at the time of the previous rate case. The four Original Cost Studies were filed with the Auditors in 2006 as a reply to the Audit report and also in 2008 as a reply to discovery questions in the present rate case. In both cases, the Company clearly communicated that variances between the Original Cost Study balances and AUF general ledger balances for these systems were not recorded by AUF on the books and records of the Company. Instead, AUF maintained the "as booked" general ledger amounts, which in all cases were lower than the balances included in the Original Cost Studies (Studies).

The schedule included in the audit report compares the 12/31/07 as booked UPIS balances (excluding allocations) to the 12/31/04 (Rosalie Oaks) and 12/31/05 (Village Water) Original Cost Study balances. It appears the audit assumed that the higher balances from the Studies were recorded on the books and records of the Company. Since the higher balances from the Original Cost Studies were not recorded, the audit finding schedule is based on an incorrect starting balance for UPIS, and compares year end balances at two different points in time, both of which are invalid for purposes of evaluating the Company's filing.

#### Rosalie Oaks - Water & Wastewater

See Attachment 1 for supporting documentation for the Rosalie Oaks – Water and Wastewater Original Cost Studies. Note again that AUF did not record these balances in the AUF general ledgers. (AUF also notes that there is a difference between the "Booked Cost" amounts as of December 31, 2005 on page 1 of Attachment 2 for Water (\$79,987) and Wastewater (\$52, 360), and the 12/31/05 balances for Water (\$78,904) and Wastewater (\$51,278) on page A-4, 2 of 2 in the MFR (Attachment 2, page 5). The differences represent allocated plant balances of \$1,083 and \$1,082, respectively, that are included in the original cost study amount but are not included in the MFR; and are therefore not pertinent to the evaluation of the Company's filing

#### Village Water - Water

Attachment 2, Pages 1, 3 and 4 of 5 are provided as a response to the statement in this finding that, "there was no available source documentation". (AUF also notes that there is a \$758 difference between the "As booked" amount of \$101,628 as of December 2004 on page 1 of Attachment 2 and the 12/31/04 balance of \$102,386 on page A-4, 2 of 2 in the MFR (Attachment 2, page 5), representing the amount of land included in the MFR and excluded in the Study.)

### Village Water - Wastewater

Attachment 2, pages 2, 3, and 4 of 5 are provided as a response to the statement in this finding that, "there was no available source documentation." (AUF also notes that the "As booked" amount as of December 2004 on Attachment 2 page 2 agree within \$1 rounding to the 12/31/04 balance on page A-4, 2 of 2 in the MFR (Attachment 2 page 5.)

**EFFECT ON THE GENERAL LEDGER IF THE FINDING IS ACCEPTED:** This finding is inaccurate. As previously stated, AUF did not record the higher plant values from the Original Cost Studies. The "Booked Cost" and "As booked" values as of December 31, 2004 shown on Attachment 1, page 1 and Attachment 2, pages 1 and 2, agree to the applicable MFR schedules for these systems, with minor exceptions as noted above.

**EFFECT ON THE FILING IF THE FINDING IS ACCEPTED:** This finding is not applicable to the AUF filing, and should not affect the "as filed" values presented by AUF. Respectfully submitted this 17th day of October, 2008.
