DOCKET NO. 080317-EI

FILED: October 30, 2008

**TAMPA ELECTRIC COMPANY'S PRELIMINARY RESPONSE AND OBJECTIONS
TO CITIZENS' SIXTH REQUEST PRODUCTION OF DOCUMENTS (NOS. 116-121)**

Tampa Electric Company ("Tampa Electric" or the "company") submits the following Preliminary Response and Objections to Citizens' Sixth Requests for the Production of Documents (Nos. 116-121).

I. Introduction

Citizens' Sixth Request for Production of Documents (Nos. 116-121) filed by Office of Public Counsel ("OPC") on October 10, 2008 is part of a series of discovery requests propounded by OPC. Tampa Electric has made an immediate and continuing effort to identify documents responsive to this request. Despite the objections stated below, the company plans to either: (1) produce and make available for inspection at Tampa Electric's headquarters documents responsive to OPC's requests; or (2) copy and provide documents responsive to this request to OPC at its offices depending on the volume of documents that are identified. In some instances it appears that information sought is duplicative of prior requests.

The objections which follow are necessary because of the collectively expansive nature of the multiple requests served by Public Counsel and because the process of assembly and review is incomplete as of the date of this pleading.

Tampa Electric will initiate a dialog with OPC with the objective of producing documents efficiently for both OPC and Tampa Electric. The best approach will become

apparent once the requested documents have been assembled and the volume of documents is known.

II. General Objections.

Tampa Electric asserts the following general objections to Citizens' Sixth Request for Production of Documents (Nos. 116-121):

1. Tampa Electric objects to each and every individual discovery request, to the extent it calls for information protected by the attorney-client privilege, the work product doctrine, the accountant-client privilege, the trade secret privilege, or any other applicable privilege or protection afforded by law, whether such privilege or protection appears at the time response is first made or is later determined to be applicable for any reason. Tampa Electric in no way intends to waive any such privilege or protection. The nature of any such document(s) will be described in a privilege log filed/prepared by Tampa Electric.

2. Tampa Electric objects to each individual request to the extent it requires production of information that is proprietary, confidential business information without provisions in place to protect the confidentiality of the information. Tampa Electric in no way intends to waive claims of confidentiality and will only produce such information subject to protective order and the Commission's rule on confidentiality. Tampa Electric will file a request for a protective order prior to providing copies of confidential documents to OPC and will also provide non-disclosure agreements for any of OPC's outside consultants. Documents that are confidential will be identified and separated for review. In some instances where responsive documents are identified and such documents are sufficiently limited in volume, the company will make such documents available for review in the offices of Ausley & McMullen at a date and time mutually agreeable to OPC and Tampa Electric.

3. Tampa Electric objects to any definitions or instructions accompanying the discovery request to the extent that they are inconsistent with and expand the scope of discovery specified in the Florida Rules of Civil Procedure that are incorporated into the Model Rules of Procedure or the Commission's rules on discovery. If some question arises as to Tampa Electric's discovery obligations, Tampa Electric will comply with applicable rules and not with any of the definitions or instructions accompanying the discovery requests that are inconsistent with or exceed the requirements of those rules. Furthermore, Tampa Electric objects to any discovery request that calls for Tampa Electric to create data or information that it otherwise does not have because there is no such requirement under the applicable rules and law.

4. Tampa Electric objects to any definition or instruction in any discovery request that seeks production of documents from persons or entities who are not parties to this proceeding or that are not subject to discovery under applicable rules.

5. Tampa Electric is a large corporation with employees located in many different locations. In the course of its business, Tampa Electric creates numerous documents that are not subject to the Florida Public Service Commission or other governmental record retention requirements. These documents are kept in numerous locations and frequently are moved from site to site as employees change jobs or as business is reorganized. Therefore, it is possible that not every relevant document may have been reviewed or considered in developing Tampa Electric's responses to the discovery requests. Rather, Tampa Electric will provide all the information that Tampa Electric obtained after a good faith, reasonable and diligent search conducted in connection with these discovery requests. To the extent that the discovery requests propose to require more, Tampa Electric objects to the requests individually and collectively on the grounds that compliance would impose an undue burden or expense on Tampa Electric.

6. Tampa Electric objects to each discovery request to the extent that it seeks information that is not relevant to the subject matter of this docket and is not reasonably calculated to lead to the discovery of admissible evidence.

7. Tampa Electric objects to each and every discovery request to the extent it is vague, ambiguous, overly broad, burdensome, imprecise, or utilizes terms that are subject to multiple interpretations but are not properly defined or explained for purposes of such discovery requests.

8. Tampa Electric objects on grounds of relevancy to each discovery request seeking information relating to transactions or other business activity of Tampa Electric's non-regulated sister companies where Tampa Electric was not a party to the transaction or a participant in the business activity.

9. Tampa Electric expressly reserves and does not waive any objections it may have to the admissibility, authenticity or relevancy of the information provided in its responses to the subject discovery requests.

10. Tampa Electric objects to any attempt by the party seeking discovery to evade any numerical limitations set on interrogatories or requests for production of documents by asking multiple independent discovery requests within single individual discovery requests and subparts thereof. By making these general objections at this time, Tampa Electric does not waive or relinquish its right to assert additional general and specific objections to the subject discovery at the time Tampa Electric's response is due.

11. Tampa Electric objects to the time and place designated for production on grounds that producing documents that may be responsive to the requests at the specified time and place would require the company to copy and ship voluminous documents, which would be

burdensome not only on Tampa Electric, but also on OPC as well. In general, and subject to the specific objections presented below, the company will produce documents that may be responsive to the requests in one of three ways: (1) by delivering at the date and place specified a CD with pdf images of documents requested by and produced to other parties, (2) by delivering at the date and place specified paper copies and electronic files of certain non-confidential and confidential documents or (3) making certain sensitive confidential documents available for review at the offices of Ausley & McMullen Law Firm in Tallahassee, Florida at a mutually agreeable date and time. With respect to paper copies, the company will copy and ship specific documents identified by OPC upon payment of reasonable copying and shipping charges. The company will initiate a dialog on the appropriate amount of charges for copying and shipping.

12. To the extent these requests seek documents produced by Tampa Electric in response to prior OPC requests, the company objects to the duplicative production of this information.

III. Specific Objections.

In addition to the general objections set forth above, which are incorporated herein by reference, Tampa Electric asserts the following specific objections.

121. Please provide a copy of all revenue filings, private letter rulings, tax regulations, court decisions, and/or IRS correspondence that discuss consolidated income tax adjustments methodologies and implementation for TECO Energy and/or Tampa Electric.

Objections and Response: In addition to its general objections, which are incorporated herein by reference, the Company objects to this request on grounds that it cannot respond to the request without disclosing materials prepared in anticipation of litigation

and the mental impressions and trial strategies of its attorneys, all of which are privileged and beyond the scope of discovery.

DATED this 30th day of October, 2008.

Respectfully submitted,
