Re: Docket No. 070293-SU – Application for increase in wastewater rates in Monroe County by K W Resort Utilities Corp.

Dear Mr. Johnson:

As a result of the Commission's approval at the January 6, 2009 agenda conference of staff's recommendation concerning the above referenced rate case, KWRU is required to provide monthly reports. These reports are to discuss the connection status of the remaining 350 ERUs left to be connected to the utility. The reports should include a description of Monroe County's enforcement activities towards those who refuse to connect to the utility, status of what is remaining to be done to connect the four customers who do not have service available, and a complete accounting of paid connection charges for those who are not connected. These reports should continue until such time as all of the 350 EDUs are connected and the conditions of the KWRU's 2002 contract with Monroe County have been fully satisfied.

Please file the first of these reports with the Commission Clerk and Administrative Services office by February 1, 2009, with following reports submitted by the first of each month there after. If you have any questions, please call me at (850) 413-6970.

Sincerely,
