Toni, please let Alonzo know this is what we are doing. Then the fellow in Miami can get the info to the right people in the company. If they have a problem with it let us know.

Ray, can you look at this application and let us know if it is okay for us to use the Miami contact information instead of the Spain contact information. Even the phone numbers are for Spain. Our system does not allow us to include the Spain information as presented. Thank you for your help in this matter.
