Attention Chief Counsel

April 12, 2010

RE: Docket No. 090093-WS

Ref: Visit by Attorney Steve Reilly to Heather Hills Estates, Bradenton Florida on April 4th, 2010

On Monday, April 4th, Mr. Reilly addressed a gathering of several property owners of the Heather Hills Sub-Division. The purpose of the meeting was to consider our application to the Public Service Commission (PSC) for transfer of ownership from the current owner through consultation with the property owners. This action was deemed necessary because of a written complaint by an individual property owner objecting to the proposed transfer. Although we ourselves are property owners in the subject subdivision and not yet owners, we were excluded from attendance at the meeting by Mr. Reilly on the grounds of also being the applicant. We understand that your Office of Public Counsel is intended to represent the interests of the consumers in utility ownership transfer matters. Since the Commission received a complaint from an individual property owner, they referred the matter to your Office for possible resolution as distinct from a formal hearing.

It has been reported to us that instead of discussing the specific complaint, Mr. Reilly devoted his time to effectively promoting a "not for profit" co-op as an alternative to the privately owned utility that currently exists. Although he prefaced his remarks with the comment that "should the application for transfer be turned down", here is an alternative. The economic benefits of a "not for profit co-op were argued by Mr. Reilly as the main discussion item at the meeting. We had assumed that the purpose of the meeting was to consider the complaint and that Mr. Reilly would arbitrate some resolution of the matter between those supporting the application and those filing the complaint.

He admitted that he had assisted those proposing the co-op arrangement prior to the meeting and arranged for an engineering firm that he knew to provide estimates for

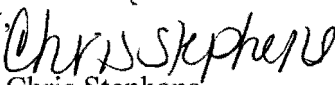

renovating the utilities for possible acceptance by Manatee County at some future time. He intimated that the privately owned utility would be short-lived over the course of time and that community ownership as a co-op was much preferred and virtually inevitable.

Since the community comprises a majority of property owners, who support our application (192 signatures), his prior contact solely with the complainant et al (a distinct minority) are at odds with democratic principles in the community at large. It has been reported to us that by promoting the "not for profit" co-op as the economic choice, he was encouraging the property owners to find fault with the application as a necessary step in achieving that objective. After the meeting, two property owners insisted that their signatures be removed from our petition, remarking that "Mr. Reilly knows what is best for us". They withdrew their support to make the co-op a relevant choice absent any specific complaint against us. The purpose of the meeting should have been to resolve differences but actually resulted in further divisiveness.

Despite several requests from the floor to identify specific complaints for open discussion, the meeting continued to focus on the alternative of a "not for profit" co-op.

Additionally, Mr. Reilly offered unsolicited comment on the rights of Chapter 723 associations to assert rights of pre-emptive purchase. Rather than determining the will of the property owners with respect to resolving the single complaint, it was completely ignored and effectively denied discussion and possible resolution. We understand that the Office of Public Counsel is set up to help the community as a whole (democratically) and not to favor to some minority part of the community.

In summary, we contend that based upon the reports we have received, our application for transfer is being prejudiced by the very process, which requires an independent and objective evaluation. We are not questioning Mr. Reilly's motives in conducting the meeting in the manner reported to us, but we are concerned about the prejudicial effect, intended or not.

Sincerely,

Rick and Chris Stephens

Dear Director:

By this second letter may I further clarify my first letter sent to the Commission this same day. The first letter is attached and made a part of this second letter. (Attachment "A") Please accept the first letter and this second letter as my formal objection to the proposed transfers of the subject water and wastewater certificates to Heather Hills Estates Utilities, LLC ("Proposed Transferee"), and my request for the Commission to conduct a formal evidentiary hearing to determine if the proposed transfers are in the public interest.

I do not believe the transfer of the two certificates are in the public interest for all of the reasons stated in my earlier letter e-mailed to you today, as well as for the following additional reasons:

1. The Proposed Transferee does not have adequate experience in water and wastewater utility operations.
2. The Proposed Transferee does not have the financial ability to provide service.
3. Given the information supplied in the application I do not believe the Transferee will be able to fulfill the commitments, obligations and representations of Seller with regard to utility matters.
4. The Proposed Transferee has failed to conduct a reasonable investigation of the current conditions of the water and wastewater systems proposed to be acquired.
5. The Proposed Transferee has failed to adequately inform the customers and the Commission of the list of improvements and repairs that need to be made to the water and wastewater systems and the approximate cost of these needed repairs and improvements.
6. The proposed transfers of these two certificates are substantially inferior to other alternatives available for the future operation of the water distribution and wastewater collection systems currently serving Heather Hills Estates.

Respectfully submitted,

5/22/2009

Kim,

What do I need from Mr. Morelli so he can be added as an "interested party" to this docket?

Docket 090093 -- Application for approval of transfer of Keith & Clara Starkey d/b/a Heather Hills Estates' water and wastewater utility, holder of Certificates 577-W and 498-S, to Heather Hills Utilities, LLC, in Manatee County.

He has expressed interest in being added and his information is below. Thanks.

Erik

From: JOHN MORELLI [mailto:fujimocar@msn.com]
Sent: Monday, March 09, 2009 2:31 PM
To: Erik Sayler
Cc: Pat Brady; Patti Daniel
Subject: Heather Hills Estates Utility

Hi Erik,

Thank you for your quick return on this transaction. **YES!!!** I do want to be added as an interested party, to say the least. This is of great concern to us. Again they have not been up front and honest with us. This is not the way to get support.

John J. Morelli, Sr.

110 50th Ave. West

Bradenton. Fl 34207

phone/fax 941=756-5627

E-mail: FUJIMOCAR@msn.com

The above confirms the fact that I was down as a "**concerned party**" on this docket but at least four (4) more additions were made to this docket and I **was not** made aware of them. Deadlines have come and gone for the applicants without their complying with them and **nothing** has been done about this **BUT we**, the consumers, have had to stick by these deadlines. There were, and still are, many shortcomings made in the application submitted by Mr. Smallridge that will interfere with our giving a complete and accurate review of this proposed sale/transfer. You (the FPSC) have asked us to work with these entities but this will only be accomplished with their support and input. When the Stephens have been asked questions lately they give us the business card of their lawyer and tell us that we will have to pay their lawyers for any info. We are still at the point where the applicants think that they are above the law and can do as they please. For the FPSC to condone such blatant acts is a travesty of justice and our (the consumers) rights.

Following will be some of the points that I want to bring to your attention at this time but you must take into consideration that I/we are working with an incomplete application that is riddled with unknown facts and incomplete information. After the two (2) parties complete and up-date their request for certificate transfers I/ we would request ample time to review these documents and to see if our questions/doubts are answered or if we have more concerns.

(1) Last year when NI Fl tried to purchase this utility for \$276,000.00 the book value was only \$902.00. (NOTE!!! This transfer (080428) consisted of 264 pages in just the initial docket and was quite complete with more additions, not like the present 45 page docket). Now the present owners (STARKEY) is trying to sell to Stephens for over \$123,000.00. This is still way too much for this over 40 year old dilapidated rundown utility.

(2) The Stephens just bought (on credit) the clubhouse and amenities from STARKEY for \$1.333 million dollars in January of 2008. They will be paying on this note for way over 10 more years. Just the payments on these 2 notes are bad enough but the Stephens have many more debts including their main home, rental properties, vehicles, etc. To get a clearer picture of their financial standing to see if they can afford to run the utility the FPSC should request an accounting of all their outstanding financial obligations.

(3) Mr.Smallridge said (in our meeting) that all that the Stephens know about running and operating a utility was learned from the STARKEYS. If this is true then all I have to say is **"GOD help us!!!!"**. Maybe reading and taking a test on chapter 367 should be a prerequisite to owning a utility.

(4) Both Mr. And Mrs. Stephens hold down several jobs requiring a great deal of their time besides raising a small child. We believe that this will jeopardize running a utility promptly and efficiently. They spend very little time here as it now stands. But they do operate a full time realty office from the clubhouse, even on Sunday. Of course this is manned by another realtor most of the time.

(5) Another main point is their reported income. They are showing an income from Heather Hills Estates of over \$206,000.00 a year from our "assessment". We have talked with many lawyers including some in government positions in Tallahassee. Everyone that we have spoken with has said that we are operating under antiquated laws from the 60s that have been revised, rewritten or literally voided by changes in State, Local and Federal Laws. We have hired an attorney from Tampa to bring this to trial and when we win we will be asking that this assessment be voided and that we want reimbursed for all monies collected illegally. When this happens how will they survive as a Utility or any other entity?

I and many others are against this transaction. I/we would appreciate you (the FPSC) taking a closer look at this transaction and giving us (the consumers) a chance to view and act upon a fully completed docket, not the one that is presently before us. My other concerns will come at a later date.

Sincerely,

S/John J. Morelli, Sr.
