**Re: Docket No. 090034-WS; Application for quick-take amendment of Certificate Nos. 496-W and 465-S to extend service are in Lake County, by Lake Utility Services, Inc.**

Dear Mr. Friedman:

The application filed in this docket is deficient in regard to the map requirement per Rule 25-30.036(3)(i), Florida Administrative Code. The map shows no section, township, and range reference points. In addition, the proposed territory shows no metes and bounds indications nor a point of beginning on the enlarged area.

The overall map that was filed will be sufficient if reference points for section, township, and range can be added, and if metes and bounds can be overlaid on the expanded portion of the map drawing. The point of beginning should be added to the expanded image. Your engineer retained for this drawing, CPH Engineers, is familiar with the formatting that is required by rule.

If you have any questions, please contact me.

Sincerely yours,

A handwritten signature in cursive script that reads "Patti Daniel".

Patti Daniel,  
Public Utilities Supervisor,  
Bureau of Certification, Economics, and Tariffs
