Docket No. 090079-EI

**AFFIDAVIT OF THOMAS R. SULLIVAN IN SUPPORT OF PROGRESS ENERGY  
FLORIDA'S FIRST REQUEST FOR CONFIDENTIAL CLASSIFICATION**

STATE OF FLORIDA

COUNTY OF CITRUS

BEFORE ME, the undersigned authority duly authorized to administer oaths, personally appeared Thomas R. Sullivan, who being first duly sworn, on oath deposes and says that:

1. My name is Thomas R. Sullivan. I am over the age of 18 years old and I have been authorized by Progress Energy Florida (hereinafter "PEF" or the "Company") to give this affidavit in the above-styled proceeding on PEF's behalf and in support of PEF's First Request for Confidential Classification ("the Request"). The facts attested to in my affidavit are based upon my personal knowledge.

2. I am the Treasurer at PEF. I am also Vice President and Treasurer of Progress Energy Service Company. As Treasurer, I am responsible for Financial Operations, Corporate Insurance, Financial Analysis, Investment Management, and Enterprise Risk Management. As Treasurer, I help prepare, use, and am familiar with Progress Energy's projected figures for short term and long term debt, off balance sheet obligations, preferred stock and common equity.

3. In its First Request for Confidential Classification, PEF is seeking confidential classification for certain schedules to PEF's Minimum Filing Requirements ("MFRs") attached to PEF's Petition for Rate Increase. An unredacted version of the Schedule at issue is contained in confidential Appendix A to PEF's Request and the confidential portions thereof are outlined in

PEF's Justification Matrix attached to the Request as Appendix C. PEF is requesting confidential classification of portions of this Schedule because it contains proprietary confidential business information, the disclosure of which would compromise PEF's competitive business interests.

4. Certain portions of the schedules to the MFRs at issue contain projected and estimated figures for short and long term debt, off balance sheet obligations, preferred stock, and common equity for Progress Energy, Inc., Progress Energy Carolinas, and Progress Energy's non-regulated companies, along with other sensitive business information that PEF does not make publicly available. The information at issue is proprietary confidential business information that would impair Progress Energy's competitive business interests if it were disclosed to the public, Progress Energy's suppliers, or Progress Energy's competitors. Specifically, if Progress Energy's suppliers, investors, or competitors were made aware of Progress Energy's estimated figures for short and long term debt, off balance sheet obligations, preferred stock, and common equity, they may adjust their behavior in the market place with respect to activities such as pricing and the acquisition and provision of goods, materials and services. Disclosure of this information could negatively impact the debt and equity issuances by Progress Energy, thus changing the position of the Company in the financial markets. This information could also influence investors to change their behavior in the marketplace, perhaps causing them to invest their dollars in another utility company. Public disclosure of the information in D-2 could also negatively affect the price of the Progress Energy stock. In sum, the Company would be at a competitive disadvantage with respect to the other utilities with which it competes for investor dollars.

5. With respect to the confidential information at issue, strict procedures are established and followed to maintain the confidentiality of that information; such procedures include, but are not limited to, restricting access to the information to only those persons who

require it to assist the Company. PEF has treated and continues to treat the information contained in the schedules as confidential

6. This concludes my affidavit.

Dated this 15 day of April, 2009.
