*Please update the name change. They are one and the same. The St. Cloud address is just the plant site, the Houston address is the headquarters.*

Good afternoon Ed, could I have you look at **DN 04525-09** that has been placed in docket **090000-07**. It is a letter from Mr. Krisfalusi, dated 5-2-09 (with a Houston, TX address) notifying the Commission that Reliant Energy, Inc. has changed their name to RRI Energy, Inc. effective 5-2-09. There is an attachment with it listing names that are also effective, but the name that we have on our Gas Safety list, Reliant Energy Osceola, LLC, (with a St. Cloud, FL address) is not included. I didn't know if they are connected to this company or not and I just want to be sure that we are not overlooking anything regarding the name in our files if it does need to be changed. Once you have checked it out, please let me by e-mail what your answer is. Appreciate your help in this matter. Thanks, Nonnye

*Old name:**Reliant Energy Osceola, LLC*
