Re: Summary of Auburndale Cogen Event on May 14-15, 2009; Undocketed

Dear Ms. Cole:

According to FPSC Rule 25-17.086, "Periods During Which Purchases are Not Required", Progress Energy Florida (PEF) is providing notice to the Florida Public Service Commission that PEF transmission path RECK – FPC was limited to 0MW of ATC for 5/14/2009 through 5/15/2009 during peak period. During this period, Auburndale was not able to deliver non-firm power to PEF.

In order to determine available ACT, contingencies studies were performed on the system on 5/14/2009, which confirmed contingencies seen in previous studies. With multiple planned outages, PEF has calculated 132 MW of firm ATC for the path RECK – FPC. There is an existing transmission service request, reference number 72969898 which is a Yealy Firm Network reservation for 132 MW from 1/1/2009 to 1/1/2014 for RECK- FPC. This pre-existing firm reservation was not affected by the outages during this time period.

Thank you for your assistance in this matter. Should you have any questions, please feel free to call me at (727) 820-5184.

Respectfully,

John T. Burnett (CAS)
