Re: Docket No. 090253-WS – Application for increase in water/wastewater rates in Pasco County by Lindrick Service Corporation.

Dear Mr. May:

The Florida Public Service Commission received your April 29, 2009 letter regarding a proposed rate case by Lindrick Service Corporation (Lindrick or Utility). In that letter, Lindrick requested to use a projected test year ended December 31, 2010, for establishing final rates. We also received your letter dated May 8, 2009, providing the Utility's general statement of known estimated costs for capital improvements to be made during the requested test year, in compliance with Rule 25-30.430(2)(c), Florida Administrative Code (F.A.C.). You state the Utility will file its application using the Proposed Agency Action provision in Section 367.081(8), Florida Statutes (F.S.). Pursuant to Rule 25-30.430, F.A.C., Lindrick's test year request as outlined above is hereby approved for purposes of filing its Minimum Filing Requirements (MFRs).

Docket No. 090253-WS has been assigned to the forthcoming case. Your petition will be deemed filed on the date the Office of Commission Clerk receives the complete petition, the MFRs, and the filing fee. To process this case expeditiously, we request that you file the above no later than August 31, 2009.

Pursuant to Section 367.083, F.S., the official filing date will be the date that complete corrections to any deficiencies, if any, are filed. Please note that many schedules included in the MFRs are designed with a column titled "Balance Per Books." This column must reflect the balances on the general ledger and be reconciled with the balances reported in the Utility's Annual Report on file with the Commission. This requirement is applicable to all primary account balances as required by the NARUC Uniform System of Accounts. Pursuant to Rule 25-30.110(2), F.A.C., all data the Commission requests and requires to be submitted in determining a utility's rates "shall be consistent with and reconcilable with the utility's annual report to the Commission."

In addition, Lindrick should satisfactorily document that it has recorded all adjustments to the Utility's general ledger and accounts that have been ordered by the Commission in any prior proceeding relating to this system. If adjustments were ordered for prior periods that have any impact on subsequent years, the related adjustments shall also be made to reflect the impact for the appropriate period up to and including the approved test year. Further, Lindrick should be prepared to justify its requested test year operation and maintenance expenses, particularly those which have

increased above the level of customer growth and inflation for the year ended five years prior to the test year.

The Utility is instructed to file all information it wishes the Commission to consider when arriving at a decision on its rate case application with its original filing. Because of the time limitations contained in Section 367.081, F.S., and the lengthy auditing and investigation required, the Commission may disregard any information not filed with the original application. If you have any questions, please contact Bart Fletcher at (850)413-7017 or bart.fletcher@psc.state.fl.us.
