FPSC - COMMISSION CLERK

this matter:

- (1) GTL will make a payment to the State of Florida in the amount of \$1,250,000.00 within thirty (30) days of the Commission's Order accepting the Revised Settlement Offer becoming final and nonappealable.
- (2) The Commission will issue a Final Order with the following specific terms and conditions:
 - Accepting the \$1,250,000.00 payment.
 - Not finding any guilt or liability on the part of TCG or GTL or any of their present and past corporate parents, subsidiaries, affiliates, predecessors or successors with respect to the allegations in the Recommendation and specifically with regard to the inmate phone system or three-way call detection hardware and software operations for the period January 1, 2000 through the date of the Commission's Final Order accepting this settlement. However, the Company shall be responsible for addressing any specific individual consumer complaints that may be pending at the time of the Final Order accepting this revised settlement or which pertain to billing issues that arose on or after April 1, 2008.
 - Recognizing that in early 2008 the Company completed the institution of a new hardware and software inmate phone system for the Miami-Dade Correctional Department. These changes were routine upgrades in the normal course of business and independent of this docket, the Recommendation, or any request by this Commission. GTL has provided the Commission with information regarding the new GTL-proprietary inmate phone system, and based upon that information the Commission is satisfied that it can close this docket without further action.
 - Acknowledging GTL's commitment to work cooperatively with consumers and the Commission to address any fraudulent calling or other consumer service problems that may occur in the future. GTL shall timely respond to consumer complaints made directly to the company, the Commission, the Department, or any other governmental entity.
 - Finding that, although in the Commission's view the former three-way call detection hardware and software that was replaced in March 2008 may have been defective or improperly maintained, the Company was not at fault for implementing or utilizing such systems.
 - Accepting the additional settlement terms provided by the Company in the Confidential Addendum that is a part of this revised settlement and which is incorporated by reference and
