**JUSTIFICATION FOR CONFIDENTIAL TREATMENT OF  
HIGHLIGHTED PORTIONS OF TAMPA ELECTRIC'S RESPONSES TO  
STAFF'S SECOND SET OF INTERROGATORIES (FILED SEPTEMBER 8, 2009)**

<b><u>Interrogatory No.</u></b>	<b><u>Bates Page Nos.</u></b>	<b><u>Detailed Description</u></b>	<b><u>Rationale</u></b>
10	2-9	The Highlighted Information	(1)

- 
- (1) The information contained on the listed pages contains specific fuel hedging pricing. This type of information on a commodity has been recognized by the Commission on numerous occasions to constitute proprietary confidential business information. Knowledge of this information would allow the opportunity for market manipulation through transactions made in anticipation of the company's entry into the market. Market manipulations based on knowledge of the highlighted information would increase the price of fuel paid by Tampa Electric's customers as well as the price paid by the company to hedge the customers' price of fuel. This is the specific type of information described in Section 366.093(3)(d) and (e) as being entitled to confidential protection and exemption from the Public Records Law.

**PUBLIC VERSION(S) OF THE DOCUMENT(S)**

Attached hereto (unless previously filed as may be noted below) are two public versions of the Document(s) with the Confidential Information redacted.

transaction date of the swap. If you will do so, please provide your responses in a schedule format.

- E. For realized (actual) hedging gains or losses for the twelve months August 1, 2008 and ending July 31, 2009 associated with options for fuel oil prices, please provide the following information: (1) the transaction date (the date the swap was entered into) for the swap; (2) the fixed price for the swap; (3) the month or period in the future the swap is covering; (4) and the corresponding NYMEX futures price for the future month or period for natural gas on the transaction date of the swap. In responding to this interrogatory, to the extent necessary, please distinguish between residual fuel oil and distillate fuel oil. If you will do so, please provide your responses in a schedule format.
- F. For interrogatories 1D through 1E above, please explain any difference between the option price and the corresponding futures price, forward price, or comparable market price for the future period (the period being hedged) that is greater than 5 percent of the option price.
