CONSUMER COMMENTS

One thing that needs attention is the monthly billing statement.
The bill has several items included in the Energy Charge which are not itemized.

Energy Conservation Cost Recovery Factor,
Capacity Cost Recovery Factor
New nuclear costs. should be separate item
The cost of purchasing electricity from sources other than
Progress Energy Florida should be separate item.

The charges for each of these items should be shown separately and not combined with any other item.

How much am I actually paying for
Energy Conservation
New Nuclear plants
Purchasing electricity from other sources

I want to know exactly what I am paying to build a Nuclear Power Plant.
Will the stock holders be paying for any of this?
Will I be issued stock and become a share holder in Progress Energy after making this investment for the next ten years?

The utility companies that the PSC regulates loves to hide some of the detailed information from their customers. The PSC is the only group that can get this kind of information published every month.
