GULF: The Company's proposed conservation cost recovery factors by customer class for the period January 2010 through December 2010 are as follows: (Floyd)

RATE CLASS	CONSERVATION COST RECOVERY FACTORS ¢/kWh

ISSUE 4: What should be the effective date of the new conservation cost recovery factors for billing purposes?

GULF: The new conservation cost recovery factors should be effective beginning with the first billing cycle for January 2010 and thereafter through the last billing cycle for December 2010. The first billing cycle may start before January 1, 2010, and the last cycle may be read after December 31, 2010, so that each customer is billed for twelve months regardless of when the adjustment factor became effective.
