**Subject:** Proposed oral modification to staff recommendation in Docket No 080407-080413-EG, Commission review of numeric conservation goals

After the recommendation was filed, it has come to my attention that a couple of minor clerical errors were submitted. First, the Issue statement for Issue 4 should be corrected to add the word "contributions" as shown below:

**Issue 4:** Do the Company's proposed goals adequately reflect the costs and benefits to the general body of ratepayers as a whole, including utility incentives and participant contributions pursuant to Section 366.82(3)(b), F.S.?

Second, the Attachment to the recommendation was provided for background information. Staff has identified a couple of numerical errors which are shown as highlighted areas in the attached spreadsheet. **The correct values were used for the recommendation and therefore these corrections do not alter the staff recommendation.**

Therefore, I am requesting that staff provide the Commissioners an errata sheet with the corrections described above which would include a correct Issue statement in type/strike format and a corrected Attachment 1 with corrections highlighted.

Please let me know if you approve so we can distribute the corrections promptly.
