RE: Docket No. 100005-WS – Annual reestablishment of price increase or decrease index of major categories of operating costs incurred by water and wastewater utilities pursuant to Section 367.081(4)(a), F.S.

AGENDA: 01/26/10 – Regular Agenda – Proposed Agency Action – Interested Persons May Participate

COMMISSIONERS ASSIGNED: All Commissioners

PREHEARING OFFICER: Administrative

CRITICAL DATES: March 31, 2010 – Statutory Reestablishment Deadline

SPECIAL INSTRUCTIONS: None

FILE NAME AND LOCATION: S:\PSC\ECR\WP\100005.RCM.DOC

Case Background

Since March 31, 1981, pursuant to the guidelines established by Section 367.081(4)(a), Florida Statutes (F.S.), and Rule 25-30.420, Florida Administrative Code (F.A.C.), the Commission has established a price index increase or decrease for major categories of operating costs on or before March 31 of each year. This process allows water and wastewater utilities to adjust rates based on current specific expenses without applying for a rate case.

Staff has calculated its proposed 2010 price index by comparing the Gross Domestic Product Implicit Price Deflator Index for the fiscal year ending September 30, 2008, to the same index for the fiscal year ending September 30, 2009. This same procedure has been used each

FPSC-COMMISSION CLERK

Docket No. 100005-WS
Date: January 13, 2010

year since 1995 to calculate the price index. The U.S. Department of Commerce, Bureau of Economic Analysis, released its final third quarter figures on December 21, 2008.

Subsequent to March 31, 1981, the Commission has received and processed approximately 3,156 index applications. The Commission has jurisdiction over this matter pursuant to Section 367.081, F.S.

Discussion of Issues

Issue 1: Which index should be used to determine price level adjustments?

Recommendation: The Gross Domestic Product Implicit Price Deflator Index is recommended for use in calculating price level adjustments. Staff recommends calculating the 2010 price index by using a fiscal year, four quarter comparison of the Implicit Price Deflator Index ending with the third quarter 2009. (Fletcher)

Staff Analysis: In 1993, the Gross Domestic Product Implicit Price Deflator Index (GPD) was established as the appropriate method of determining the water and wastewater price index and the four quarter fiscal year comparison was used as the means to accomplish it, and has been used every year since then.¹ The GDP is prepared by the U.S. Department of Commerce. Prior to that time, the Gross National Product Implicit Price Deflator Index (GNP) was used as the indexing factor for water and wastewater utilities. The Department of Commerce switched its emphasis from the GNP to the GDP as the primary measure of U.S. production.

Pursuant to Section 367.081(4)(a), F.S., the Commission, by order, shall establish a price increase or decrease index for major categories of operating costs incurred by utilities subject to its jurisdiction reflecting the percentage of increase or decrease in such costs from the most recent 12-month historical data available. Prior to 1995, the price index was determined by using a four quarter comparison, ending December 31, of the Implicit Price Deflator Index.² In order to meet the statutory deadline, the current price index was determined by comparing the change in the GDP using the four quarter fiscal year comparison ending with September 30. This method has been used consistently since 1995 to determine the price index.

In Order No. PSC-09-0099-PAA-WS, issued February 16, 2009, in Docket No. 090005-WS, the Commission, in keeping with the practice started in 1993, reiterated the alternatives which could be used to calculate the indexing of utility revenues. Past utility concerns, as summarized from utility input in previous hearings, are:

- 1) Inflation should be a major factor in determining the index;
- 2) Nationally published indices should be vital to this determination;
- 3) Major categories of expenses are labor, chemicals, sludge-hauling, materials and supplies, maintenance, transportation, and treatment expense;
- 4) An area wage survey, Dodge Building Cost Index, Consumer Price Index, and the GDP should be considered;

¹ See Order No. PSC-93-0195-FOF-WS, issued February 9, 1993, in Docket No. 930005-WS, In Re: Annual reestablishment of price increase or decrease index of major categories of operating costs incurred by water and wastewater utilities pursuant to Section 367.081(4)(a), F.S.

² Pursuant to Order No. PSC-95-0202-FOF-WS, issued February 10, 1995, in Docket No. 950005-WS, In Re: Annual reestablishment of price increase or decrease index of major categories of operating costs incurred by water and wastewater utilities pursuant to Section 367.081(4)(a), F.S.

- 5) A broad measure index should be used; and
- 6) The index procedure should be easy to administer.

Based upon these concerns, the Commission has previously explored the following alternatives:

- 1) Survey of Regulated Water and Wastewater Utilities;
- 2) Consumer Price Index;
- 3) Florida Price Index;
- 4) Producer's Price Index - previously the Wholesale Price Index; and
- 5) GDP (replacing the GNP).

Over the past years the Commission found that the Survey of Regulated Water and Wastewater Utilities should be rejected because using the results of a survey would allow utilities to pass on to customers all cost increases, thereby reducing the incentives of promoting efficiency and productivity. The Commission has also found that the Consumer Price Index and the Florida Price Level Index should be rejected because of their limited degree of applicability to the water and wastewater industry. Both of these price indices are based upon comparing the advance in prices of a limited number of general goods and, therefore, appear to have limited application to water and wastewater utilities.

The Commission further found that the Producers Price Index (PPI) is a family of indices that measures the average change over time in selling prices received by domestic producers of goods and services. PPI measures price change from the perspective of the seller, not the purchaser, and therefore should be rejected. Because the bases for these indices have not changed, staff believes that the conclusions reached in Order No. PSC-09-0099-PAA-WS, continue to apply in this case. Since 1993, the Commission has found that the GDP has a greater degree of applicability to the water and wastewater industry. Therefore, staff recommends that the Commission continue to use the GDP to calculate water and wastewater price level adjustments.

The following information provides a historical perspective of the annual price index:

**Historical Analysis of the Annual Price Index
for Water and Wastewater Utilities**

<u>YEAR</u>	<u>COMMISSION APPROVED INDEX</u>	<u>YEAR</u>	<u>COMMISSION APPROVED INDEX</u>
1998	2.10%	2004	1.60%
1999	1.21%	2005	2.17%
2000	1.36%	2006	2.74%
2001	2.50%	2007	3.09%
2002	2.33%	2008	2.39%
2003	1.31%	2009	2.55%

The table shown below indicates historical participation in the Index and/or Pass-Through programs:

**Percentage of Jurisdictional Water and Wastewater Utilities
Filing for Indexes and/or Pass-Throughs**

<u>YEAR</u>	<u>PERCENTAGE</u>	<u>YEAR</u>	<u>PERCENTAGE</u>
1998	32%	2004	22%
1999	36%	2005	33%
2000	30%	2006	32%
2001	27%	2007	47%
2002	27%	2008	42%
2003	27%	2009	53%

Docket No. 100005-WS
Date: January 13, 2010

Issue 2: What percentage should be used by water and wastewater utilities for the 2010 Price Index?

Recommendation: The 2010 Price Index for water and wastewater utilities should be 0.56 percent. (Fletcher)

Staff Analysis: The U.S. Department of Commerce, Bureau of Economic Analysis, released the final third quarter 2009 figures on December 22, 2009. The percentage change in the GDP using the fiscal year comparison ending with the third quarter is 0.56 percent. This number was calculated as follows:

GDP Index for the fiscal year ending 9/30/08	109.172
GDP Index for the fiscal year ending 9/30/09	109.783
Difference	0.611
Divided by 9/30/08 GDP Index	109.172
2010 Price Index	<u>0.56%</u>

Issue 3: How should the utilities be informed of the indexing requirements?

Recommendation: Pursuant to Rule 25-30.420(1), F.A.C., the Office of Commission Clerk, after the expiration of the Proposed Agency Action (PAA) protest period, should mail each regulated water and wastewater utility a copy of the PAA order establishing the index containing the information presented in Form PSC/ECR 15 (4/99) and Appendix A (Attachment 1). A cover letter from the Director of the Division of Economic Regulation should be included with the mailing of the order (Attachment 2). If a protest is filed and a hearing is held, the Office of Commission Clerk should mail each regulated water and wastewater utility a copy of the final order establishing the index which should contain the information presented in Form PSC/ECR 15 (4/99) and Appendix A (Attachment 1). A cover letter from the Director of the Division of Economic Regulation should be included with the mailing of the order (Attachment 2). (Fletcher)

Staff Analysis: Staff designed a package (Form PSC/ECR 15 (4/99) and Appendix A), attached hereto as Attachment 1, that should be mailed to every regulated water and wastewater utility after the expiration of the PAA protest period, along with a copy of the PAA order that has become final. This package has significantly reduced the number of questions regarding what the index and pass-through rate adjustments are, how to apply for an adjustment, and what needs to be filed to meet the filing requirements.

Staff recommends that the package presented in Form PSC/ECR 15 (4/99) and Appendix A (Attachment 1) should be mailed to every regulated water and wastewater utility after the expiration of the PAA protest period, along with a copy of the PAA order that has become final. If a protest is filed and a hearing held, the Office of Commission Clerk should mail the package and final order to the utilities at the conclusion of the hearing process.

In an effort to increase the number of water and wastewater utilities taking advantage of the annual price index and pass-through, staff is recommending that the attached cover letter (Attachment 2) from the Director of the Division of Economic Regulation should be included with the mailing of the PAA Order to explain the purpose of the index and pass-through applications and that Commission staff is available to assist them.

Docket No. 100005-WS
Date: January 13, 2010

Issue 4: Should this docket be closed?

Recommendation: Yes, this docket should be closed upon the issuance of the Consummating Order if no substantially affected person files a timely protest within the 14-day protest period after issuance of the PAA Order. Any party filing a protest should be required to prefile testimony with the protest. (Klancke, Fletcher)

Staff Analysis: Uniform Rule 25-22.029(1), F.A.C. contains an exception to the procedural requirements set forth in uniform Rule 28-106.111, F.A.C., uniform Rule 25-22.029(1), F.A.C. provides that “[t]he time for requesting a Section 120.569 or 120.57 hearing shall be 14 days from issuance of the notice for PAA orders establishing a price index pursuant to Section 367.081(4)(a), F.S.” Therefore, staff recommends that the Commission require any protest to the PAA Order in this docket be filed within 14 days of the issuance of the PAA Order, and that any party filing the protest should be required to prefile testimony with the protest. If no timely protest is received within 14 days from the date of the PAA order, no further action will be required and this docket should be closed upon the issuance of the Consummating Order.

PAGE 1 NOTES

- * This amount must match 2009 annual report.
- ** This may include government-mandated disposal fees.
- *** Daily, weekly, or monthly testing required by the Department of Environmental Protection (DEP) not currently included in the utility's rates. Or additional tests required by the DEP during the 12 month period prior to filing by the utility and/or changes to the frequency of existing test(s) required by the DEP during the 12 month period prior to filing by the utility.

- **** This may include an increase in purchased power, purchased water, purchased wastewater treatment, required DEP testing, and ad valorem taxes, providing that those increases have been incurred within the 12 month period prior to the submission of the pass-through application. Pass-through NPDES fees and increases in regulatory assessment fees are eligible as pass-through costs but not subject to the twelve month rule. DEP water and wastewater testing pass-throughs require invoices. See Rule 25-30.425, F.A.C. for more information.

- ***** If rates changed after January 1, 2010, the book revenues must be adjusted to show the changes and an explanation of the calculation should be attached to this form. See Annualized Revenue Worksheet for instructions and a sample format.

ANNUALIZED REVENUE WORKSHEET

Have the rates charged for customer services changed since January 1, 2009?

- () If no, the utility should use actual revenues. This form may be disregarded.
- () If yes, the utility must annualize its revenues. Read the remainder of this form.

Annualizing calculates the revenues the utility would have earned based upon 2009 customer consumption at the most current rates in effect. To complete this calculation, the utility will need consumption data for 2009 to apply to the existing rate schedule. Below is a sample format which may be used.

CALCULATION OF ANNUALIZED REVENUES*
 Consumption Data for 2009

	Number of Bill/Gal. Sold	X	Current Rates	Annualized Revenues
Residential Service:				
Bills: 5/8"x3/4" meters

PRICE INDEX ADJUSTMENTS IN RATES

Section 367.081(4)(a), (c), (d), and (e), Florida Statutes
Rule 25-30.420, Florida Administrative Code
Sample Affirmation Affidavit
Notice to Customers

Sections 367.081(4) (a), (c), (d), (e), and (f), Florida Statutes

(4)(a) On or before March 31 of each year, the commission by order shall establish a price increase or decrease index for major categories of operating costs incurred by utilities subject to its jurisdiction reflecting the percentage of increase or decrease in such costs from the most recent 12-month historical data available. The commission by rule shall establish the procedure to be used in determining such indices and a procedure by which a utility, without further action by the commission, or the commission on its own motion, may implement an increase or decrease in its rates based upon the application of the indices to the amount of the major categories of operating costs incurred by the utility during the immediately preceding calendar year, except to the extent of any disallowances or adjustments for those expenses of that utility in its most recent rate proceeding before the commission. The rules shall provide that, upon a finding of good cause, including inadequate service, the commission may order a utility to refrain from implementing a rate increase hereunder unless implemented under a bond or corporate undertaking in the same manner as interim rates may be implemented under s. 367.082. A utility may not use this procedure between the official filing date of the rate proceeding and 1 year thereafter, unless the case is completed or terminated at an earlier date. A utility may not use this procedure to increase any operating cost for which an adjustment has been or could be made under paragraph (b), or to increase its rates by application of a price index other than the most recent price index authorized by the commission at the time of filing.

(c) Before implementing a change in rates under this subsection, the utility shall file an affirmation under oath as to the accuracy of the figures and calculations upon which the change in rates is based, stating that the change will not cause the utility to exceed the range of its last authorized rate of return on equity. Whoever makes a false statement in the affirmation required hereunder, which statement he or she does not believe to be true in regard to any material matter, is guilty of a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

(d) If, within 15 months after the filing of a utility's annual report required by s. 367.121, the commission finds that the utility exceeded the range of its last authorized rate of return on equity after an adjustment in rates as authorized by this subsection was implemented within the year for which the report was filed or was implemented in the preceding year, the commission may order the utility to refund, with interest, the difference to the ratepayers and adjust rates accordingly. This provision shall not be construed to require a bond or corporate undertaking not otherwise required.

(e) Notwithstanding anything herein to the contrary, a utility may not adjust its rates under this subsection more than two times in any 12-month period. For the purpose of this paragraph, a combined application or simultaneously filed applications that were filed under the provisions of paragraphs (a) and (b) shall be considered one rate adjustment.

(f) The commission may regularly, not less often than once each year, establish by order a leverage formula or formulae that reasonably reflect the range of returns on common equity for an average water or wastewater utility and which, for purposes of this section, shall be used to calculate the last

authorized rate of return on equity for any utility which otherwise would have no established rate of return on equity. In any other proceeding in which an authorized rate of return on equity is to be established, a utility, in lieu of presenting evidence on its rate of return on common equity, may move the commission to adopt the range of rates of return on common equity that has been established under this paragraph.

25-30.420 Establishment of Price Index, Adjustment of Rates; Requirement of Bond; Filings After Adjustment; Notice to Customers.

(1) The Commission shall, on or before March 31 of each year, establish a price increase or decrease index as required by section 367.081(4)(a), F.S. The Division of the Commission Clerk and Administrative Services shall mail each regulated water and wastewater utility a copy of the proposed agency action order establishing the index for the year and a copy of the application. Form PSC/ECR 15 (04/99), entitled "Index Application", is incorporated into this rule by reference and may be obtained from the Commission's Division of Economic Regulation. Applications for the newly established price index will be accepted from April 1 of the year the index is established through March 31 of the following year.

(a) The index shall be applied to all operation and maintenance expenses, except for amortization of rate case expense, costs subject to pass-through adjustments pursuant to section 367.081(4)(b), F.S., and adjustments or disallowances made in a utility's most recent rate proceeding.

(b) In establishing the price index, the Commission will consider cost statistics compiled by government agencies or bodies, cost data supplied by utility companies or other interested parties, and applicable wage and price guidelines.

(2) Any utility seeking to increase or decrease its rates based upon the application of the index established pursuant to subsection (1) and as authorized by section 367.081(4)(a), F.S., shall file an original and five copies of a notice of intention and the materials listed in (a) through (i) below with the Commission's Division of Economic Regulation at least 60 days prior to the effective date of the increase or decrease. The adjustment in rates shall take effect on the date specified in the notice of intention unless the Commission finds that the notice of intention or accompanying materials do not comply with the law, or the rules or orders of the Commission. The notice shall be accompanied by:

(a) Revised tariff sheets;

(b) A computation schedule showing the increase or decrease in annual revenue that will result when the index is applied;

(c) The affirmation required by section 367.081(4)(c), F.S.;

(d) A copy of the notice to customers required by subsection (6);

(e) The rate of return on equity that the utility is affirming it will not exceed pursuant to section 367.081(4)(c), F.S.;

(f) An annualized revenue figure for the test year used in the index calculation reflecting the rate change, along with an explanation of the calculation, if there has been any change in the utility's rates during or subsequent to the test year;

(g) The utility's Department of Environmental Protection Public Water System identification number and Wastewater Treatment Plant Operating Permit number.

(h) A statement that the utility does not have any active written complaints, corrective orders, consent orders, or outstanding citations with the Department of Environmental Protection (DEP) or the County Health Department(s) or that the utility does have active written complaints, corrective orders, consent orders, or outstanding citations with the DEP or the County Health Department(s).

(i) A copy of any active written complaints, corrective orders, consent orders, or outstanding citations with the Department of Environmental Protection (DEP) or the County Health Department(s).

(3) If the Commission, upon its own motion, implements an increase or decrease in the rates of a utility based upon the application of the index established pursuant to subsection (1) and as authorized by section 367.081(4)(a), F.S., the Commission will require a utility to file the information required in subsection (2).

(4) Upon a finding of good cause, the Commission may require that a rate increase pursuant to section 367.081(4)(a), F.S., be implemented under a bond or corporate undertaking in the same manner as interim rates. For purposes of this subsection, "good cause" shall include:

(a) Inadequate service by the utility;

(b) Inadequate record-keeping by the utility such that the Commission is unable to determine whether the utility is entitled to implement the rate increase or decrease under this rule.

(5) Prior to the time a customer begins consumption at the rates established by application of the index, the utility shall notify each customer of the increase or decrease authorized and explain the reasons therefore.

(6) No utility shall file a notice of intention pursuant to this rule unless the utility has on file with the Commission an annual report as required by Rule 25-30.110(3), F.A.C., for the test year specified in the order establishing the index for the year.

(7) No utility shall implement a rate increase pursuant to this rule within one year of the official date that it filed a rate proceeding, unless the rate proceeding has been completed or terminated.

NOTICE TO CUSTOMERS

Pursuant to Section 367.081(4)(a), Florida Statutes, water and wastewater utilities are permitted to adjust, the rates and charges to its customers without those customers bearing the additional expense of a public hearing. These adjustments in rates would depend on increases or decreases in noncontrollable expenses subject to inflationary pressures such as chemicals, and other general operation and maintenance costs.

On _____, _____
(date) (name of company)

filed its notice of intention with the Florida Public Service Commission to increase water and wastewater rates in County pursuant to this Statute. The filing is subject to review by the Commission Staff for accuracy and completeness. Water rates will increase by approximately _____% and wastewater rates by _____%. These rates should be reflected for service rendered on or after _____.(date)

PASS-THROUGH RATE ADJUSTMENTS

Section 367.081(4)(b), Florida Statutes
Rule 25-30.425, Florida Administrative Code
Waiver Form
Sample Affirmation Affidavit
Notice to Customers

Section 367.081(4)(b), Florida Statutes

(b) The approved rates of any utility which receives all or any portion of its utility service from a governmental authority or from a water or wastewater utility regulated by the commission and which redistributes that service to its utility customers shall be automatically increased or decreased without hearing, upon verified notice to the commission 45 days prior to its implementation of the increase or decrease that the rates charged by the governmental authority or other utility have changed. The approved rates of any utility which is subject to an increase or decrease in the rates or fees that it is charged for electric power, the amount of ad valorem taxes assessed against its used and useful property, the fees charged by the Department of Environmental Protection in connection with the National Pollutant Discharge Elimination System Program, or the regulatory assessment fees imposed upon it by the commission shall be increased or decreased by the utility, without action by the commission, upon verified notice to the commission 45 days prior to its implementation of the increase or decrease that the rates charged by the supplier of the electric power or the taxes imposed by the governmental authority, or the regulatory assessment fees imposed upon it by the commission have changed. The new rates authorized shall reflect the amount of the change of the ad valorem taxes or rates imposed upon the utility by the governmental authority, other utility, or supplier of electric power, or the regulatory assessment fees imposed upon it by the commission. The approved rates of any utility shall be automatically increased, without hearing, upon verified notice to the commission 45 days prior to implementation of the increase that costs have been incurred for water quality or wastewater quality testing required by the Department of Environmental Protection. The new rates authorized shall reflect, on an amortized basis, the cost of, or the amount of change in the cost of, required water quality or wastewater quality testing performed by laboratories approved by the Department of Environmental Protection for that purpose. The new rates, however, shall not reflect the costs of any required water quality or wastewater quality testing already included in a utility's rates. A utility may not use this procedure to increase its rates as a result of water quality or wastewater quality testing or an increase in the cost of purchased water services, sewer services, or electric power or in assessed ad valorem taxes, which increase was initiated more than 12 months before the filing by the utility. The provisions of this subsection do not prevent a utility from seeking a change in rates pursuant to the provisions of subsection (2).

Supp. No. 199 WATER AND WASTEWATER CHAPTER 25-30

25-30.425 Pass Through Rate Adjustment.

The verified notice to the Commission of an adjustment of rates under the provisions of Section 367.081(4)(b), F.S., shall be made in the following manner:

(1) Prior to an adjustment in rates because of an increase or decrease in purchased utility service, the utility shall file:

(a) A certified copy of the order, ordinance or other evidence whereby the rates for utility service are increased or decreased by the governmental agency or by a water or wastewater utility regulated by the Commission, along with evidence of the utility service rates of that governmental agency or water or wastewater utility in effect on January 1 of each of the three preceding years.

(b) A statement setting out by month the charges for utility services purchased from the governmental agency or regulated utility for the most recent 12-month period.

(c) 1. A statement setting out by month the gallons of water or wastewater treatment purchased from the governmental agency or regulated utility for the most recent 12-month period. If wastewater treatment service is not based on a metered flow, the number of units by which the service is measured shall be stated.

2. A statement setting out by month gallons of water and units of wastewater service sold by the utility for the most recent 12-month period.

(d) A statement setting out by month the gallons of water or wastewater treatment purchased from any other government entity or utility company.

(e) A statement setting out by month the gallons of water pumped or wastewater treated by the utility filing the verified notice.

(f) If the total water available for sale is in excess of 110% of the water sold, a statement explaining the unaccounted for water.

(2) Prior to an adjustment in rates because of an increase or decrease in the charge for electric power the utility shall file with the Commission:

(a) A certified copy of the order, ordinance or other evidence which establishes that the rates for electric power have been increased or decreased by the supplier, along with evidence of the electric power rates of the supplier in effect on January 1 of each of the three preceding years.

(b) A schedule showing, by month, the charges for electric power and consumption for the most recent 12 month period, the charges that would have resulted had the new electric rates been applied, and the difference between the charges under the old rates and the charges under the new rates.

(c) A statement outlining the measures taken by the utility to conserve electricity.

(3) Prior to an adjustment in rates because of an increase or decrease in ad valorem taxes the utility shall file with the Commission:

(a) A copy of the ad valorem tax bills which increased or decreased and copies of the previous three years' bills; if copies have been submitted previously, a schedule showing the tax total only is acceptable; and

(b) A calculation of the amount of the ad valorem taxes related to that portion of the water or wastewater plant not used and useful in providing utility service.

(4) Prior to an adjustment in rates because of an increase or decrease in the costs of water quality or wastewater quality testing required by the Department of Environmental Protection (DEP), or because of an increase or decrease in the fees charged by DEP in connection with the National Pollutant Discharge Elimination System Program, the utility shall file with the Commission:

Supp. No. 199 WATER AND WASTEWATER CHAPTER 25-30

- (a) A copy of the invoice for testing;
- (b) Calculation of the amortized amount.
- (5) In addition to subsections (1), (2), (3), and (4) above, the utility shall also file:
 - (a) A schedule of proposed rates which will pass the increased or decreased costs on to the customers in a fair and nondiscriminatory manner and on the basis of current customers, and a calculation showing how the rates were determined;
 - (b) A statement, by class of customer and meter size, setting out by month the gallons of water and units of wastewater service sold by the utility for the most recent 12 month period. This statement shall not be required in filings for the pass through of increased regulatory assessment fees or ad valorem taxes;
 - (c) The affirmation reflecting the authorized rate of return on equity required by Section 367.081(4)(c), F.S.;
 - (d) A copy of the notice to customers required by subsection (7) of this rule;
 - (e) Revised tariff sheets reflecting the increased rates;
 - (f) The rate of return on equity that the utility is affirming it will not exceed pursuant to Section 367.081(4)(c), F.S.; and
 - (g) The utility's DEP Public Water System identification number and Wastewater Treatment Plant Operating Permit number;
- (6) The amount authorized for pass through rate adjustments shall not exceed the actual cost incurred and shall not exceed the incremental increase or decrease for the 12-month period. Foregone pass through decreases shall not be used to adjust a pass through increase below the actual cost incurred.
- (7) In order for the Commission to determine whether a utility which had adjusted its rates pursuant to Section 367.081(4)(b), F.S., has thereby exceeded the range of its last authorized rate of return, the Commission may require a utility to file the information required in Rule 25-30.437, F. A. C., for the test year specified.
- (8) Prior to the time a customer begins consumption at the adjusted rates, the utility shall notify each customer of the increase authorized and explain the reasons for the increase.
- (9) The utility shall file an original and five copies of the verified notice and supporting documents with the Division of Economic Regulation. The rates shall become effective 45 days after the official date of filing. The official date of filing for the verified notice to the Commission of adjustment in rates shall be at least 45 days before the new rates are implemented.

Title: _____

(To be used if an index and pass-through rate increase are requested jointly.)

AFFIRMATION

I, _____, hereby affirm that the figures and calculations upon which the change in rates is based are accurate and that the change will not cause _____ to exceed the range of its last _____
(Utility Name)
authorized rate of return on equity, which is _____.

I, the undersigned/officer of the above-named utility, have read the foregoing and declare that, to the best of my knowledge and belief, the information contained in this application is true and correct.

This affirmation is made pursuant to my request for a 2010 price index and/or pass-through rate increase, in conformance with Section 367.081(4)(c), Florida Statutes.

Further, I am aware that pursuant to Section 837.06, Florida Statutes, whoever knowingly makes a false statement in writing with the intent to mislead a public servant in the performance of his official duty shall be guilty of a misdemeanor of the second degree.

NOTICE TO CUSTOMERS

Pursuant to Section 367.081(4)(a) and/or (b), Florida Statutes, water and wastewater utilities are permitted to pass through, without a public hearing, a change in rates resulting from: an increase or decrease in rates charged for utility services received from a governmental agency or another regulated utility and which services were redistributed by the utility to its customers; an increase or decrease in the rates that it is charged for electric power, the amount of ad valorem taxes assessed against its used and useful property, the fees charged by the Department of Environmental Protection in connection with the National Pollutant Discharge Elimination System Program, or the regulatory assessment fees imposed upon it by the Commission; and costs incurred for water quality or wastewater quality testing required by the Department of Environmental Protection.

On _____, _____
(date) (name of company)

filed its notice of intention with the Florida Public Service Commission to increase water and wastewater rates in _____ County pursuant to this Statute. The filing is subject to review by the Commission Staff for accuracy and completeness. Water rates will increase by approximately _____% and wastewater rates by _____%. These rates should be reflected on your bill for service rendered on or after _____.(date)

If you should have any questions, please contact your local utility office. Be sure to have your account number handy for quick reference.

Re: Docket No. 100005-WS - 2010 Price Index

Dear Utility Owner:

Since March 31, 1981, pursuant to the guidelines established by Section 367.081(4)(a), Florida Statutes (F.S.), and Rule 25-30.420, Florida Administrative Code (F.A.C.), the Commission has established a price index increase or decrease for major categories of operating costs. The intent of this rule is to insure that inflationary pressures are not detrimental to utility owners, and that any possible deflationary pressures are not adverse to rate payers. By keeping up with index and pass-through adjustments, utility operations can be maintained at a level sufficient to insure quality of service for the rate payers.

Pursuant to Rule 25-30.420(1)(a), F.A.C., all operation and maintenance expenses shall be indexed with the exception of:

- a) Pass-through items pursuant to Section 367.081(4)(b), F.S.;
- b) Any amortization of rate case expense; and
- c) Disallowances or adjustments made in an applicant's most recent rate proceeding.

Upon the filing of a request for an index and/or pass-through increase, staff will review the application and modify existing rates accordingly. If for no other reason than to keep up with escalating costs, utilities throughout Florida should file for this rate relief on an annual basis. Utilities may apply for a 2010 Price Index anytime between April 1, 2010, through March 31, 2011. The attached package will answer questions regarding what the index and pass-through rate adjustments are, how to apply for an adjustment, and what needs to be filed in order to meet the filing requirements. While this increase for any given year may be minor, (see chart below), the long-run effect of keeping current with rising costs can be substantial.
