Per this e-mail, we will return DN 08228-09; update DN 08227-09 to reflect that the request has been filed; and update the cross references. Thank you for your help in this matter.

Importance: High

I have confirmed that the request contained in dn 08988-09 refers to the first notice of intent 08227-09 and the second notice of intent 08405-09. It is my understanding that the request in 08988-09 is broader, but includes information contained in the first notice of intent 08227-09. I believe we can return the information contained in 08227-09 and 08228-09, as that information is duplicative to the information contained in the request 08988-09. I hope this makes sense.

Please let me know if you have any questions.

Thanks!

Kim,

Looking at this information, document no. 08405-09 is another notice of intent (request filed 08/31/09), which appears to address the same information as dns 08227-09 and 08228-09. Please look at the request for confidentiality filed on 08/31/09, document no. 08988-09 and let me know if the information is duplicative. Please let me know.

Thank you.

Katherine, please look at DNs 08227-09 and 08228-09. To date, we have not received an official request for confidentiality. Please advise.
