Anna - How is the recommendation going?

Please see below for the Gail Simpson e-mail about the estimated connection potential for the area. You said that you would forward it to the Case File. Thanks.

Stan, I just got back in town today and wanted to get right back to you on this. You are correct that there are no customers to be transferred (no existing customers) as a result of the transfer of the Northeast Resort Parcel to PEF territory. Once built out, it is estimated that there will be 634 home (res) and 15 commercial connections (lighting, landscaping, guardhouse, lift station, etc.).

Please let me know if you have any questions.

Gail - It appears that there are no existing customers in the area to be exchanged (Northeast Resort Parcel/Golden Oak Estates PD). Is that true? Also, if planning is that far along, what are the potential number of connections (commercial and residential) at buildout for this area?
