**PROGRESS ENERGY FLORIDA, INC.'S RESPONSES TO STAFF'S INFORMAL QUESTIONS  
DOCKET NO. 090011-EI**

**Q1. What is PEF's estimated cost of removing its facilities on Mr. Williams' property?**

Answer: The total approximate cost of the removal of facilities on the Williams property is \$165,000.

**Q2. What will be the date of transfer of PEF's current PEF account to WREC?**

Answer: Following approval of joint petition to transfer Mr. William's account to WREC, PEF and WREC will agree on a mutually acceptable date in coordination with Mr. Williams and based on availability of resources. We expect this transfer will occur within two months of the approval of the petition. The removal of the substation and related equipment from Mr. William's property will occur following the transfer of the customer's service to WREC. We expect the removal of the substation and related equipment to occur within two months of the transfer of the customer's service, but no later than December 31, 2010.

**Q3. What is the retail rate comparison based on a 1,000 kWh between PEF and WREC?**

Answer: The current residential rates for a 1,000 KWH customer bill are as follows:

- WREC = \$121.67
- PEF = \$126.90

**Q4. Currently, is PEF the exclusive provider of power to all Williams' accounts or does WREC serve some of Mr. Williams' accounts, also?**

Answer: PEF currently serves all of Mr. William's existing accounts. Note that several parcels owned by Mr. Williams, however, are located within WREC's service territory.

**Q5. FPSC has a map of the WREC / PEF territorial boundary map filed in Docket No. 040133-EI. Please provide a one page map of the "before" and "after" of Mr. William's account prior to and after transfer to WREC.**

Answer: Please see "Exhibit A" attached hereto.
