Re: Docket No. 100001-EI

Dear Ms. Cole:

I am enclosing for filing in the above docket the original and seven (7) copies of Florida Power & Light Company's ("FPL") Renewed Request for Confidential Classification of Certain Information on Florida Public Service Commission Forms 423-1(a), 423-2, 423-2(a) and 423-2(b) for November 2007. FPL's Renewed Request for Confidential Classification is also included on the enclosed CD in Word format.

If there are any questions regarding this transmittal, please contact me at 561-304-5675.

Sincerely,

Ilan G. Kaufer

FPSC-COMMISSION CLERK

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Fuel and Purchased Power)
Cost Recovery Clause with Generating)
Performance Incentive Factor)

Docket No. 100001-EI
Filed: May 5, 2010

**FLORIDA POWER & LIGHT COMPANY'S RENEWED REQUEST FOR
CONFIDENTIAL CLASSIFICATION OF CERTAIN INFORMATION
ON FLORIDA PUBLIC SERVICE COMMISSION
FORMS 423-1(a), 423-2, 423-2(a) AND 423-2(b) FOR NOVEMBER 2007**

NOW, BEFORE THIS COMMISSION, through undersigned counsel, comes Florida Power & Light Company ("FPL") and, pursuant to Rule 25-22.006(3), Florida Administrative Code, and Section 366.093 of the Florida Statutes, submits its Renewed Request for Confidential Classification of certain information on Florida Public Service Commission Forms 423-1(a), 423-2, 423-2(a) and 423-2(b) for November 2007 (October 2007 with respect to Plant Scherer data) (the "Confidential Information") submitted in Docket 080001-EI, a predecessor to this docket. In support of its request, FPL states as follows:

1. On February 5, 2008, FPL requested confidential classification of the Confidential Information. See, Document No. 00911-08.
2. To date, it does not appear that the Commission has entered an order addressing FPL's February 5, 2008 request. FPL still considers the designated materials in FPL's January 16, 2008 request as confidential, and continue to require confidential treatment.
3. FPL incorporates its February 5, 2008 request, and the exhibits attached thereto, herein by reference.
4. All of the information that was the subject of FPL's February 5, 2008 Request warrants continued treatment as proprietary confidential business information within the meaning of Section 366.093(3), Florida Statutes. This material is intended to be and is treated by FPL as confidential and has not been disclosed. Pursuant to Section 366.093, Florida Statutes, such

information is entitled to confidential treatment and is exempt from the disclosure provisions of the public records law. Thus, once the Commission determines that the information in question is proprietary confidential business information, the Commission is not required to engage in any further analysis or review such as weighing the harm of disclosure against the public interest in access to the information

5. The set of documents or materials which are the subject of FPL's February 5, 2008 request contain or consist of contractual data, the disclosure of which would impair FPL's ability to contract for goods and services in the future. Such information is protected by Section 366.093(3)(d), Florida Statutes. Specifically, the information specifically delineates the price per barrel FPL paid for fuel oil for specific shipments from specific suppliers. Disclosure of this information would allow suppliers to compare an individual supplier's price with the market quote for that date of delivery and thereby determine the contract pricing formula between FPL and a specific supplier. Public disclosure of certain contractual information contained in these documents or material would also allow suppliers to converge on a target price, effectively eliminating any opportunity for a major buyer like FPL to obtain price concessions from any one supplier. This would impair FPL's competitive interests and FPL's ability to contract for goods on favorable terms in the future, and result in increased costs for FPL and its customers. The documents or materials that are asserted by FPL to be proprietary confidential business information also contain or constitute contractual terms or data relating to the procurement of coal at the St. John's River Power Park (SJRPP). Disclosure of this information could adversely affect FPL's interests in subsequent solicitations for coal and/or in negotiating coal supply agreements. Jacksonville Electric Authority (JEA) maintains this information as confidential pursuant to Section 160.01(15)(m), Florida Statutes. Additionally, disclosure of the purchase

price would enable the calculation of the total transportation charges on Form 423-2, which FPL seeks to protect. Certain of the information also includes total transportation costs, the disclosure of which would impair the efforts of JEA, acting on its own behalf and as an agent for FPL, to contract for goods and services at SJRPP on favorable terms in the future. Moreover, the service provider itself typically designates the transportation costs in the contract as confidential. JEA maintains this information confidential pursuant to section 160.01(15)(m), Florida Statutes.

6. Nothing has changed since FPL's February 5, 2008 request to render the information stale or public, such that continued confidential treatment would not be appropriate.

7. Upon a findings by the Commission that the Confidential Information remains proprietary confidential business information, the information should not be declassified for a period of at least an additional eighteen (18) months and should be returned to FPL as soon as the information is no longer necessary for the Commission to conduct its business. See § 366.093(4), Fla. Stat.

WHEREFORE, for the above and foregoing reasons, as more fully set forth in the supporting materials and affidavit included with this request, Florida Power & Light Company respectfully requests that its Renewed Request for Confidential Classification be granted.

Respectfully submitted,

John T. Butler, Managing Attorney
Scott Goorland, Principal Attorney
Ilan Kaufer, Attorney for
Florida Power & Light Company
