RE: Cancellation of IXC Registration for Equivoice, Inc. (TJ853)

Dear Commission Clerk:

This letter serves as notice that Equivoice, Inc. wishes to cancel its registration as an interexchange carrier (company code TJ853), which was issued by the Florida Public Service Commission in 2003.

Equivoice, Inc. no longer does business in Florida as an interexchange carrier, but instead provides solely voice over internet protocol (VoIP) service. Equivoice does *not* provide outbound plans for customers using switched access and does *not* select designated underlying carriers (DUCs) for customers. Equivoice also does *not* offer prepaid calling cards. The Equivoice offers to Florida customers only voice services provided solely via the internet. Given that Equivoice's service is limited in Florida to pure VoIP, we request that you cancel its registration with the PSC.

Should you have any questions concerning this, please contact our regulatory counsel, Richard C. Balough of Balough Law Offices, LLC, at (312)499-0000. Thank you very much.

Sincerely,

Richard Pierce
Vice President
