FEDERAL EXECUTIVE AGENCIES' PRELIMINARY LIST OF ISSUES AND POSITIONS

Pursuant to Order No. PSC-10-0097-PCO-EI, issued February 22, 2010, establishing the prehearing procedure in this docket, the Federal Executive Agencies (FEA) hereby files its Preliminary List of Issues and Positions.

GENERIC ISSUES

1. What are the final environmental cost recovery true-up amounts for the period ending December 31, 2009?

FEA: No position at this time.

2. What are the estimated environmental cost recovery true-up amounts for the period January 2010 through December 2010?

FEA: No position at this time.

3. What are the projected environmental cost recovery amounts for the period January 2011 through December 2011?

FEA: No position at this time.

4. What are the environmental cost recovery amounts, including true-up amounts, for the period January 2011 through December 2011?

FEA: No position at this time.

5. What depreciation rates should be used to develop the depreciation expense included in the total environmental cost recovery amounts for the period January 2011 through December 2011?

FEA: The depreciation rates used to calculate the depreciation expense should be the rates that are in effect during the period the allowed capital investment is in service.

6. What are the appropriate jurisdictional separation factors for the projected period January 2011 through December 2011?

FEA: No position at this time.

FPSC-Commusion Clien

7. What are the appropriate environmental cost recovery factors for the period January 2011 through December 2011 for each rate group?

FEA: The factors are a mathematical calculation based on the resolution of company-specific issues.

8. What should be the effective date of the new environmental cost recovery factors for billing purposes?

FEA: Agrees with FIPUG and STAFF. The factors should be effective beginning with the specified environmental cost recovery cycle and thereafter for the period January 2011 through December 2011. Billing cycles may start before January 1, 2011 and the last cycle may be read after December 31, 2011, so that each customer is billed for twelve months regardless of when the adjustment factor became effective.
