Re: Docket No. 100381-WS; Request for approval of tariff amendment to include a late payment fee of \$5.25 in Orange Co. by Pluris Wedgefield, Inc.
Our File No.: 43085.09

Dear Ms. Cole:

Enclosed for filing in the above-referenced docket is the response of Pluris Wedgefield, Inc. (the "Utility") to Staff's First Data Request dated September 14, 2010. Staff has requested the following information in order to complete its analysis in the above-referenced docket.

Initial Connection, Normal Reconnection, Violation Reconnection, and Premises Visit

1. Currently, the Utility is not charging any miscellaneous service charges for wastewater. Please explain, in detail, why the Utility is now requesting miscellaneous service charges for initial connection, normal reconnection, violation reconnection, and premises visits for the wastewater service.

RESPONSE: The previous owner of the Utility did not have a wastewater tariff for miscellaneous service charges. As such, Pluris simply proceeded with the tariffs that were already in place when it acquired the system.

2. Has the Utility performed any initial connection, normal reconnection, violation reconnection, and/or premises visits during business hours for the preceding twelve (12) months for wastewater? If so, please provide the number of visits performed per different miscellaneous charge.

RESPONSE: The Utility has not performed any such wastewater services.

Page 2

3. Has the Utility performed any initial connection, normal reconnection, violation reconnection, and/or premises visits during after hours for the preceding twelve (12) months for wastewater? If so, please provide the number of visits performed per different miscellaneous charge.

RESPONSE: See the response to Item No. 2, above.

4. If the Utility has charged any of the wastewater customers for any miscellaneous services mentioned above during the preceding twelve (12) months, please provide the dollar amount charged per service for normal hours and after hours.

RESPONSE: The Utility has not charged for any of the services referenced herein.

5. As presented on the cost justification, the Utility indicated actual cost for the violation reconnection fee for normal hours and after business hours. Please explain, in detail, why this service is indicated as actual cost, and the different cost components the Utility anticipates being included in actual cost.

RESPONSE: Because Wedgefield is a system where the current customers are both water and wastewater customers, and therefore, the Utility can currently use the water meter as a mechanism for service interruption, the Utility believes that in lieu of "actual cost", the charge for violation reconnection should be \$21 for business hours and \$42 for after hours and be based on the cost justification already provided.

If you or Staff should have any questions or concerns regarding this filing, please do not hesitate to contact me at (407) 830-6331 or cmarcelli@rsbattorneys.com.

Very truly yours,

CHRISTIAN W. MARCELLI
