

VOTE SHEET

November 30, 2010

Docket No. 100159-EG – Petition for approval of demand-side management plan of Tampa Electric Company.

Issue 1: Does TECO's revised Demand-Side Management Plan satisfy the Company's numeric conservation goals set by the Commission in Order No. PSC-09-0855-FOF-EG?

Recommendation: Yes. TECO's revised DSM Plan meets or exceeds the numeric conservation goals set by the Commission, is cost-effective, and the rate impact associated with the revised DSM Plan is relatively small compared to the increase in demand and energy savings projected.

The Commission should approve the programs contained in TECO's revised Demand-Side Management Plan to allow TECO to file for cost recovery. However, TECO must still demonstrate, during the Energy Conservation Cost Recovery (ECCR) clause proceeding, that expenditures in executing its DSM Plan are reasonable and prudent. TECO should be required to file program standards for administrative approval within 30 days of the Consummating Order in this docket.

Issue 2: Should this docket be closed?

Recommendation: Yes. If no person whose substantial interests are affected by the proposed agency action issue files a protest within 21 days of the issuance of the Order, a Consummating Order will be issued. If the Commission approves any programs, the programs should become effective on the date of the Consummating Order. If a protest is filed within 21 days of the issuance of the Order, the programs should not be implemented until after the resolution of the protest. However, the docket should remain open for staff's verification that the program standards have been filed by the Utility and approved by staff. When the PAA issues are final and the program standards have been approved, this docket may be closed administratively.
