

VOTE SHEET

November 30, 2010

Docket No. 100009-EI – Nuclear cost recovery clause. (Deferred from the October 26, 2010, Commission Conference, revised recommendation filed.)

Issue 3A: Does the Commission have the authority to require a “risk sharing” mechanism that would provide an incentive for a utility to complete a project within an appropriate, established cost threshold? If so, what action, if any, should the Commission take?

Recommendation: No. Section 366.93, F.S., expressly provides that a utility is entitled to recover all prudently incurred costs resulting from the construction of nuclear power plants. The statute does not set a dollar limit on the amount a utility can recover through the NCRC. Requiring a risk sharing mechanism exceeds the scope of the plain and expressed language and intent of the statute.

DEFERRED
