Pembroke Pines, FL 33029-827

Re: Competitive Local Exchange Telecommunications Company (CLEC) Application for Future Generations Technology Inc.

Dear Mr. Barrera:

The Florida Public Service Commission (Commission) received Future Generations Technology Inc.'s CLEC application form on September 28, 2010, and Docket No. 100407-TX was opened. The Office of Commission Clerk acknowledged the filing in a letter to the company dated September 29, 2010, that was returned by the US Postal Service on October 1, 2010 for an insufficient address. I called and spoke with you on October 19, 2010 to ask for a correct mailing address and you stated that the mailing address on file with the Commission is a good mailing address. I also explained that there was additional information needed to continue processing Future Generations Technology Inc.'s CLEC Application. This letter is to follow-up on our conversation.

In order to continue processing the company's CLEC application, question 18(a)(b)(c)1-3, page 6, requiring additional managerial, technical, and financial information must be completed. Staff also would like an update on when the company's website and email addresses listed in the CLEC application will be functioning.

Please submit this requested information by **November 30, 2010**. If no response is received by this date, staff will recommend the company's CLEC application be denied as incomplete and the docket will be closed administratively. If you have any questions, I can be reached at (850) 413-6532.

Sincerely,

Handwritten signature of Toni J. Earnhart in black ink.
