33. If PEF does not either raise sufficient funds in a year to provide an incentive as detailed on page 30, or does not provide incentives up to the annual cap, please explain how the excess amount will be treated?

Answer: PEF intends to continue to fund solar installations from amounts raised through energy management credits donated by customers. This is in addition to (and will not reduce) the installations reflected in the PEF DSM Plan filing of March 30, 2010 to be funded via the pilot program approved by the Commission.
