RE: Docket No. 100407-TX; Application for certificate to provide competitive local exchange telecommunications service by Future Generations Technology Inc.

On September 28, 2010, this Commission received a competitive local exchange telecommunications service application to provide telecommunications service in Florida from Future Generations Technology Inc.

Upon review, Commission staff found the application to be incomplete. The company neglected to provide managerial, technical or financial capability information as required by the CLEC application. Staff attempted to contact the company on October 4, 2010, and again on October 11, 2010, using the email addresses listed in the application. Those email correspondences were returned undeliverable. On October 19, 2010, staff spoke with Diego Barrera on the telephone number listed for him in the CLEC application. Mr. Barrera stated that he would have the company submit the required information necessary to complete its CLEC application. Staff faxed and mailed the company a certified letter on November 10, 2010, requesting the additional information needed to complete the CLEC application. The certified letter was signed for on November 12, 2010.

As required in Section 2.07.C.5.g, Administrative Procedures Manual, on November 10, 2010, a certified letter was sent to the company requesting missing application information within 15 days. As of the date of this Memorandum, no response has been received from the applicant. Therefore, staff recommends that the CLEC application be denied and the docket closed.

This is to inform you that I concur with staff's recommendation to deny the CLEC application in Docket No. 100407-TX.
