

VOTE SHEET

January 11, 2011

Docket No. 100435-EG – Petition for approval of extending the small general service price responsive load management program pilot, by Tampa Electric Company.

Issue 1: Has TECO justified the additional expenses associated with the time extension for the Small General Service Price Responsive Load Management Pilot Program?

Recommendation: No. The almost six month delay in program implementation was due to TECO's own actions. TECO did not justify an increase over the \$286,000 cap approved by Order No. PSC-09-0501-TRF-EG. TECO should not be authorized to recover any additional expenses associated with this pilot program. If the Commission approves the staff recommendation then the GSVP-1 tariff expires on January 14, 2011, pursuant to Order No. PSC-09-0501-TRF-EG, and TECO should withdraw the tariff at that time.
