STAFF'S DATA REQUEST NO. 2

Re: Docket No. 110047-EQ - Petition for approval of negotiated purchase power contract with Trans World Energy LLC by Progress Energy Florida, Inc.

Dear Mr. Burnett:

By this letter, the Commission staff requests that Progress Energy Florida, Inc. (PEF or utility) provide responses to the following data requests:

1. In its petition, PEF stated the facility would be located in Citrus County, Florida. Has a specific location been proposed and does PEF anticipate any transmission changes to accommodate the facility's proposed location(s)?
 - a. if so, does this affect the facility's avoided cost savings, or will it be included in RF/QF transmission charges as indicated in Appendix B of the Contract? Please explain if necessary.
2. In PEF's response to question 15 of Staff's Data Request No. 1, PEF stated the natural gas price forecast used was provided by PIRA Energy Group. What date was this fuel price forecast calculated, and what date was this forecast provided to PEF?
3. On April 1, 2011, PEF filed a Petition for Approval of Revisions to the Standard Offer Contract in Docket 110092-EI, which includes an updated avoided unit. Please provide calculations of cost savings from the proposed Trans World facility payments to the 2011 Standard Offer avoided unit.
4. For clarification purposes, please specify the Contract's capacity payment calculations and performance security measures when the facility is operating at less than 94% and greater than 74% capacity factor.
