Re: Docket No. 100127-WS - Application for an increase in water rates in Marion County, Florida by Tradewinds Utilities, Inc.

Dear Mr. deMenzes:

We have reviewed the revised minimum filing requirements (MFR) information submitted on March 31, 2011, on behalf of Tradewinds Utilities, Inc. (Utility). After reviewing this information, we find that Schedule E-14 is no longer deficient; however, Schedule E-2 remains deficient. As stated in the deficiency letter to you dated March 10, 2011, you were, in part, asked that: a) the corrected consolidated factor at the 10 kgal consumption level from Schedule E-14, p. 109 be appropriately reflected on Schedule E-2 (wastewater), p. 83, for period 1; and that b) Schedule E-2 be recalculated and refiled. However, the Utility failed to refile the Schedule E-2 previously referenced.

Please be sure to refile the Schedule E-2, p. 83, period 1 as referenced above. Also, please ensure that all mathematical recalculations are made to any other corresponding MFR schedules. If any correction or recalculation requires a corresponding change to any MFR schedules, those corrected schedules must also be submitted. Your petition will not be deemed filed until the deficiencies identified in this letter have been corrected. Please submit these corrections no later than May 16, 2011. If you have questions, please contact Jennie Lingo at (850) 413-6964.

Sincerely,

Handwritten signature of Marshall Willis in black ink.

Marshall Willis
