## STAFF'S FIRST DATA REQUEST

**Re: Docket No. 110089-EQ - Petition for approval of revisions to renewable energy tariff, by Florida Public Utilities Company.**

Dear Ms. Keating:

By this letter, the Commission staff requests that Florida Public Utilities Company (FPUC) provide responses to the following data requests.

1. In its petition in the instant docket, FPUC makes reference to the original purchased power agreement, approved by the Commission in Docket No. 070108-EI, between itself and Gulf Power Company. At paragraph 5, the petition states that "[t]he current electric power purchase agreement...contains a 'ratchet' provision based upon prior demand levels" which affects the capacity payments under the tariff for the Northwest Division in the instant docket. Please provide the specific location or quote of the provision in the original agreement being referred to, and describe or explain how that provision will affect the terms of this tariff.

For Questions 2 and 3, please use the table and scenario provided below.

Please assume the renewable generator is a 50 MW facility providing firm capacity at the minimum capacity factor required for full capacity payments. Additionally, please assume an in-service date of January 1, 2012 and a contract duration of 20 years. Please provide this information for the following scenarios:

- Normal Payments
- Levelized Payments
- Early Payments
- Early Levelized Payments
