Docket No. 110165-SU – Application for staff-assisted rate case in Highlands County by Utility Corporation of Florida, Inc.

(Continued from previous page)

Issue 9: Should the Utility's current wastewater and reuse systems' rate structures be changed?

Recommendation: No. The Utility's current wastewater and reuse systems' rate structures should remain unchanged.

Issue 10: What are the appropriate rates for Utility Corporation?

Recommendation: The appropriate monthly wastewater rates are shown on Schedules No. 4 of staff's memorandum dated July 20, 2012. The recommended rates should be designed to produce revenues of \$151,638. The Utility should file revised tariff sheets and a proposed customer notice to reflect the Commission-approved rates. The approved rates should be effective for service rendered on or after the stamped approval date on the tariff sheet, pursuant to Rule 25-30.475(1)(c), F.A.C. In addition, the approved rates should not be implemented until staff has approved the proposed customer notice and the notice has been received by the customers. The Utility should provide proof of the date notice was given within 10 days of the date of the notice.

Issue 11: What is the appropriate amount by which rates should be reduced four years after the established effective date to reflect the removal of the amortized rate case expense as required by Section 367.0816, F.S.?

Recommendation: The wastewater rates should be reduced as shown on Schedule No. 4, of staff's memorandum dated July 20, 2012, to remove rate case expense grossed-up for RAFs and amortized over a four-year period. The decrease in rates should become effective immediately following the expiration of the four-year rate case expense recovery period, pursuant to Section 367.0816, F.S. The Utility should be required to file revised tariffs and a proposed customer notice setting forth the lower rates and the reason for the reduction no later than one month prior to the actual date of the required rate reduction. If Utility Corporation files this reduction in conjunction with a price index or pass-through rate adjustment, separate data should be filed for the price index and/or pass-through increase or decrease and the reduction in the rates due to the amortized rate case expense.

Issue 12: Should Utility Corporation's request for a service availability charge be approved?

Recommendation: No. Utility Corporation's request for a service availability charge should not be approved.

ITEM NO.

CASE

6**PAA

Docket No. 110165-SU – Application for staff-assisted rate case in Highlands County by Utility Corporation of Florida, Inc.

(Continued from previous page)

Issue 13: Should the Commission approve Utility Corporation's requested \$5.25 late payment charge?

Recommendation: Yes. The Commission should approve the Utility's requested \$5.25 late payment charge. The late payment charge should be effective for services rendered on or after the stamped approval date on the tariff sheet pursuant to Rule 25-30.475, F.A.C.

Issue 14: Should the Commission approve pro forma plant for Utility Corporation, and if so, what is the appropriate return on equity, overall rate of return, revenue requirement, and date for implementing the new rates?

Recommendation: Yes. The Commission should approve a Phase II revenue requirement associated with pro forma items. Staff is recommending the Commission employ the operating ratio methodology in this case. However, even when the operating ratio methodology is used for purposes of setting rates, every utility should have an authorized ROE established. Utility Corporation's appropriate ROE should be 8.74 percent with a range of 7.74 to 9.74 percent. The appropriate overall rate of return is 8.74 percent. The Utility's Phase II revenue requirement is \$155,215 which equates to an increase of 2.36 percent over the Phase I revenue requirement. Staff recommends that the Phase II revenue requirement increase should be applied as an across-the-board increase to Phase I rates.

Utility Corporation should complete the pro forma items within 12 months of the issuance of the consummating order. The Utility should be allowed to implement the resulting rates once the pro forma items have been completed and documentation provided showing that all improvements have been made to the system. Once verified, the rates should be effective for service rendered on or after the stamped approval date on the tariff sheets, pursuant to Rule 25-30.475(1), F.A.C. The rates should not be implemented until notice has been received by the customers. Utility Corporation should provide proof of the date notice was given within 10 days of the date of the notice. If the Utility encounters any unforeseen events that will impede the completion of the pro forma items, the Utility should immediately notify the Commission in writing.

Issue 15: Should the recommended rates be approved for Utility Corporation on a temporary basis, subject to refund, in the event of a protest filed by a party other than the Utility?

Recommendation: Yes. Pursuant to Section 367.0814(7), F.S., the recommended rates should be approved for the Utility on a temporary basis, subject to refund, in the event of a protest filed by a party other than the Utility. Utility Corporation should file revised tariff sheets and a proposed customer notice to reflect the Commission-approved rates. The approved rates should be effective for service rendered on or after the stamped approval date on the tariff sheet, pursuant to Rule 25-30.475(1), F.A.C. In addition, the temporary rates should not be implemented until staff has approved the proposed notice, and the notice has been received by the customers. Prior to implementation of any temporary rates, the Utility should provide appropriate security. If the recommended rates are approved on a temporary basis, the rates collected by the Utility should be subject to the refund provisions discussed in the staff analysis portion of staff's recommendation dated July 20, 2012. In addition, after the increased rates are in effect, pursuant to Rule 25-30.360(6), F.A.C., the Utility should file reports with the Commission Clerk's office no later than the 20th of each month indicating the monthly and total amount of money subject to refund at the end of the preceding month. The report filed should also indicate the status of the security being used to guarantee repayment of any potential refund.

Issue 16: Should Utility Corporation be required to provide proof, within 90 days of an effective order finalizing this docket, that it has adjusted its books for all applicable NARUC Uniform System of Accounts (USOA) primary accounts associated with the Commission-approved adjustments?

Recommendation: Yes. To ensure that the Utility adjusts its books in accordance with the Commission's decision, Utility Corporation should provide proof, within 90 days of the final order in this docket, that the adjustments for all applicable NARUC USOA primary accounts have been made.

Issue 17: Should this docket be closed?

Recommendation: No. If no person whose substantial interests are affected by the proposed agency action files a protest within 21 days of the issuance of the order, a consummating order will be issued. The docket should remain open for staff's verification that the revised tariff sheets and customer notice have been filed by the Utility and approved by staff. Once these actions are complete, this docket should be closed administratively.
