## Tariff Sheet Modifications & Explanations

### Tariff Sheet 12.0 & 13.0 – General & Residential Service

#### Proposed change - Bi-Monthly Billing

Explanation – With bi-monthly billing we can reduce the costs of meter reading, mailing and payment processing. Customers appreciate the time between bills as they are relatively small and this allows them to deal with us half as often. The time between bills allows us to complete a billing cycle collection before the next bills are sent. We have bi-monthly billing at our 4 Citrus County utilities and the vast majority really appreciate it. We have a couple customers on fixed incomes and they pay an estimated amount on the odd months.

We have changed the Billing Period to Bi-Monthly and the Rate to equal two months Base Facility Charge

### Tariff Sheet 14.0 – Customer Deposits

#### Proposed change – Raise Deposit to \$85.00

Explanation – With bi-monthly billing the deposit will need to cover an increased amount of time. The current deposit is \$50.00 for one month. Our 4 utilities in Citrus County have \$85.00 deposits and this amount has proven adequate to cover costs and not be a burden to the customer.

### Tariff Sheet 16.0 – Miscellaneous Service Charges

Proposed change – Initial Connection Fee to \$45.00  
Normal Reconnection Fee to \$ 45.00  
Violation Reconnection Fee to \$ 45.00

Explanation – A connection requires two visits to the customer's meter. The time associated with processing the paper work and driving to the customer's meters twice, once to unlock and then return at the end of service and relock. Violation Reconnection is the same process in just the opposite order. Two trips and paper work easily require 45 minutes to an hour of time. Our 4 utilities in Citrus County have \$45.00 this amount has proven adequate to cover costs and not be excessive to the customer.

Proposed change – Premises Visit Fee to \$30.00

Explanation – This action requires one less trip than a Connection. Paperwork and one trip to the customer meter.

Proposed change – Late Payment Fee to \$5.00

Explanation – This action requires time and resources for tracking late customers and sending them a second notice.

### Tariff Sheet 17.0 – Service Availability Fees and Charges

Proposed change – Meter Installation Fee to \$360.00

Explanation – This includes the expense of supplying and installing a 5/8 -3/4 water meter. Costs include a meter, curb stop, meter box and piping. Also included is the labor for the in ground installation.
