1 only means by which a utility is able to obtain coverage for damages from  
2 storms.

3 **Q HOW ARE CUSTOMERS AFFECTED BY THE PROPOSED \$3.3 MILLION PER**  
4 **YEAR INCREASE IN CONTRIBUTIONS TO THE STORM RESERVE?**

5 A Customers will see their electricity rates increase unnecessarily. As I previously  
6 stated, customers would prefer to keep any money they can in their pockets,  
7 rather than have Gulf hold it for them to address an event which has not even  
8 occurred. This is particularly the case given the Commission's record of prompt  
9 action on storm recovery requests.

10 **Q DO GULF'S CUSTOMERS BENEFIT FROM HIGHER CONTRIBUTIONS TO**  
11 **FUND THE RESERVE?**

12 A No. As explained above, the current \$3.5 million contribution and the current  
13 storm reserve of \$27.6 million are more than sufficient to cover all but the most  
14 severe storms. ~~In contrast, the increase will benefit Gulf by increasing its cash~~  
15 ~~flow. The storm accrual funds are not maintained in a separate account, but can~~  
16 ~~be used to fund on-going Gulf operations.~~ Finally, the risk of non-recovery for  
17 storm damage restoration costs will remain with customers because if a  
18 catastrophic storm or storms strike Gulf's service territory, customers will be  
19 surcharged to allow Gulf to recover restoration in excess of the storm reserve  
20 balance.

**GULF POWER COMPANY**

**Utilities that Classify a Portion of their Distribution Network Investment as Customer-Related**
