Docket No. 090430-TP
December 21, 2011

AT&T FLORIDA'S RESPONSED TO STAFF QUESTIONS

At the conclusion of the Staff requested conference call regarding the status of the disputes in this Docket, Staff posed the following questions to AT&T Florida. AT&T Florida's responses are shown below.

Question 1. Provide the total number of STS LSRs rejected by AT&T for each month January 2011 to date. Please sort the total number of rejects by super fatal and fatal.

AT&T Florida Response: See the attached spreadsheet. Note that during the discussion during the conference call regarding Super Fatal errors, some preliminary data from a quick query was discussed. The data discussed included only STS's LSRs and not Saturn's LSRs, hence the discrepancy between the data on the attached spreadsheet and the data discussed on the call. The spreadsheet contains the complete data for requested rejects. Note also that the rejects are near real time. Reject reasons are listed in the LSOR.

Question 2. Provide the total number of STS LSRs for service in Florida rejected by AT&T for each month January 2011 to date. Please sort the total number of rejects by super fatal and fatal.

AT&T Florida Response: See the attached spreadsheet.

Question 3. Provide a list of CLECs in AT&T's southeast region that currently use the LEX interface to place orders.

AT&T Florida Response: There are 150 unique CLEC names using LEX in the Southeast.
