**Subject:** Request of Oral Modification to Item 8, February 14, 2012 Agenda, Docket No. 100330-WU - Aqua Utilities Florida, Inc.

Staff requests approval to make an oral modification to Issues 5 and 31 of the recommendation for the above-referenced item.

**Issue 5:**

The Used and Useful percentage for Wootens in Table 5-1, which is referenced in the recommendation paragraph should be 66 percent. This is a correction to a scrivener error and has no affect on any other portions of the recommendation. The specific modifications are in type and strike format and highlighted in yellow, as follows:

Wootens	66 68	43	66-68
---------	-------	----	-------

**Issue 31:**

An oral modification to the rec statement in Issue 31 needs to be made. References to Schedules 4-A and 4-B should be changed to 5-A and 5-B, and the rule reference has a typo. I have provided the revisions below.

**Issue 31:** What are the appropriate monthly rates for the water and wastewater systems for the Utility? (Fallout Issue)

**Recommendation:** The appropriate monthly water rates are shown on Schedule ~~4-A~~ 5-A, and the appropriate monthly wastewater rates are shown on Schedule ~~4-B~~ 5-B. Excluding miscellaneous service charges, and including the repression adjustments shown in Issue 30, the recommended water rates produce revenues of \$10,181,793, and the recommended wastewater

rates produce revenues of \$5,844,126. The Utility should file revised water and wastewater tariff sheets and a proposed customer notice to reflect the Commission-approved rates for the water and wastewater systems. The approved rates should be effective for service rendered on or after the stamped approval date of the revised tariff sheets pursuant to Rule ~~25-30.475(1)~~ 25-30.475(1), F.A.C. In addition, the approved rates should not be implemented until staff has approved the proposed customer notice. The Utility should provide proof of the date notice was given no less than ten days after the date of the notice. (Lingo, Fletcher)

In addition, these references appear in the first paragraph of Staff's analysis.
