The provisions of this policy are available throughout the territory served by the Utility. The Utility adopts herein, by reference, Part VI, Chapter 25-30, Florida Administrative Code.

Fees and Charges

Each new connection to the system shall pay the applicable service availability fees and charges shown on Tariff Sheet No. 16.0.

Policies Applicable to Developers

Developers will construct and convey, at no cost to the Utility, all on-site wastewater collection facilities, off-site wastewater transmission facilities, and lift/pump stations pursuant to the standards and specifications of the Utility. Conveyance of the facilities by the Developer and acceptance of the facilities by the Utility will take place upon the successful completion of the following:

1. Inspection by representatives of the Utility.
2. Transmittal of a one year warranty against defects in materials or workmanship.
3. Transmittal of a complete statement of cost to construct by NARUC chart of accounts.
4. Transmittal of a bill of sale together with perpetual rights-of-way and easements for appropriate access to facilities as well as complete as-built plans for all such lines and facilities.

Furthermore, at the Utility's option, where facilities, either on-site or off-site, are required to serve more than one developer, the first developer may be required to construct oversized facilities. In that event, subsequent developers, builders, and individuals who connect to those facilities or use those facilities may be required to pay their prorated share of the costs of the facilities, which will be refunded to the developer who constructed the facilities, less a reasonable administrative fee, not to exceed 10%, to be retained by the Utility.

SERVICE AVAILABILITY POLICY

The provisions of this policy are available throughout the territory served by the Utility. The Utility adopts herein, by reference, Part VI, Chapter 25-30, Florida Administrative Code.

Fees and Charges

Each new connection to the system shall pay the applicable service availability fees and charges shown on Tariff Sheet No. 17.0.

Policies Applicable to Developers

Developers will construct and convey, at no cost to the Utility, all on-site water distribution facilities, off-site water transmission facilities, pump stations, hydrants, and water meters pursuant to the standards and specifications of the Utility. Conveyance of the facilities by the Developer and acceptance of the facilities by the Utility will take place upon the successful completion of the following:

1. Inspection by representatives of the Utility.
2. Transmittal of a one year warranty against defects in materials or workmanship.
3. Transmittal of a complete statement of cost to construct by NARUC chart of accounts.
4. Transmittal of a bill of sale together with perpetual rights-of-way and easements for appropriate access to facilities as well as complete as-built plans for all such lines and facilities.

Furthermore, at the Utility's option, where facilities, either on-site or off-site, are required to serve more than one developer, the first developer may be required to construct oversized facilities. In that event, subsequent developers, builders, and individuals who connect to those facilities or use those facilities may be required to pay their prorated share of the costs of the facilities, which will be refunded to the developer who constructed the facilities, less a reasonable administrative fee, not to exceed 10%, to be retained by the Utility.
