I reviewed the history of Advanced Communications of the Southeast and determined the following:

April 23, 2012 - Company paid \$650 (\$600 Regulatory Assessment Fee and \$50 penalty).

May 21, 2012 - PSC Proposed Agency Action Order was issued stating:

"If this Order is not protested, each entity's respective certificate to provide telecommunications services shall be cancelled. If an entity pays the penalty and cost of collection, together totaling \$500, and remits any past due Regulatory Assessment Fees, along with any accrued statutory late payment charges, prior to the expiration of this Proposed Agency Action Order, then that entity's respective certificate will remain active."

June 5, 2012 - Company paid \$558 (\$500 fine, \$40 penalty, \$18 interest).

June 15, 2012 - PSC issued Consummating Order making Proposed Agency Action Order final.

In summary, your company did what it was ordered to. It paid the \$500 fine plus penalty and interest prior to the expiration of the Proposed Agency Action. Your certificate is shown as Active and current.
