Re: LP Utilities, Inc SARC, Docket No. 110208-WS

Dear Clerk:

In June 2011, we filed for a SARC with the PSC. We now wish to request that a 90 day abatement of any further processing that application be granted.

The utility has been in the process of selling the utility to US Water Corporation. We have had to deal with TD Bank in matters relating to the sale of the utility and it isn't taking an in unusual amount of time, but it seems now we will be able to close this sale within the next 90 days.

We hereby request an abatement of all further action in this docketed proceeding. The utility hereby waives all statutory time periods for processing this application as outlined in 367.081, Florida Statutes, for the entire abatement period granted.

The utility agrees that it will report back to the Commission to update the Commission on the status of the proposed sale within the 90 day period or sooner if the proposed sales is closed or the offer to purchase is withdrawn. We request that this abatement be granted immediately so that no further time or energy is expended by either the utility or Commission staff in processing this case while an abatement is in place.

Thank you for your cooperation in this matter and if you have any questions, please do not hesitate to contact me.
