ANNUALIZED REVENUE WORKSHEET

Have the rates charged for customer services changed since January 1, 2011?

- () If no, the utility should use actual revenues. This form may be disregarded.
- (x) If yes, the utility must annualize its revenues. Read the remainder of this form.

Annualizing calculates the revenues the utility would have earned based upon 2011 customer consumption at the most current rates in effect. To complete this calculation, the utility will need consumption data for 2011 to apply to the existing rate schedule. Below is a sample format which may be used.

* Annualized revenues must be calculated separately if the utility consists of both a water system and a wastewater system. This form is designed specifically for utilities using a base facility charge rate structure. If annualized revenues must be calculated and further assistance is needed, contact the Commission Staff at (850)413-6900.

This affirmation is made pursuant to my request for a 2012 price index and/or pass-through rate increase, in conformance with Section 367.081(4)(c), Florida Statutes.

Further, I am aware that pursuant to Section 837.06, Florida Statutes, whoever knowingly makes a false statement in writing with the intent to mislead a public servant in the performance of his official duty shall be guilty of a misdemeanor of the second degree.
