Good afternoon, Dorothy.

According the Utility's test year request letter, Ni Florida is seeking rate relief for its Lee County water system and its Pasco County wastewater system. As such, please add Pasco County to the docket title for the above-referenced case.

Thanks, Bart.

Good afternoon, Monica,

GCL is in receipt of a copy of a letter to Chairman Brisé (DN 07305-12) advising Ni Florida intends to submit MFRs on or before 11/30/12; requesting the Commission process the petition for rate relief using the PAA procedure (which is being done per DN 06630-12); and requesting

interim rates based on the historic test year. This document will be available for viewing/printing shortly.

However, while entering this document in CMS, I noticed that the "Re:" portion of the letter says, "application for wastewater facility in Pasco County (SU915) and water facility in Lee County (WU920)." Our docket title was set up for WAW facilities in Lee County only. Please take a gander at this docket when you have a minute and advise Matilda Sanders, with a cc to Hong Wang and myself, as to whether or not the docket title needs to be revised/corrected.

Thank you for your help!

Dorothy
