Re: Tampa Electric Company's Petition to Determine Need
for Polk 2-5 Combined Cycle Conversion
FPSC Docket No. 120234-EI

Dear Ms. Cole:

On October 18, 2012 we filed on behalf of Tampa Electric Company a Request for Confidential Classification and Motion for Temporary Protective Order of certain portions of the company's answer to First Request for Production of Documents (Nos. 1-11) of the Florida Public Service Commission's Staff. Included within that request as Exhibit "A" were justifications for confidential treatment of Bates stamp pages 121-134; 149; and 153-159 of those answers. In the rationale column for those pages Tampa Electric included rationale (2) of the two rationales provided. The company should have referenced rationales (1) and (2) for the above listed Bates stamp pages. We request that this letter serve as Tampa Electric's correction to Exhibit "A", to include both rationales (1) and (2) in support of confidential treatment of Bates stamp pages 121-134; 149; and 153-159 of the company's answers to First Request for Production of Documents (Nos. 1-11).

We apologize for any inconvenience this may have caused anyone.

Please acknowledge receipt and filing of the above by stamping the duplicate copy of this letter and returning same to this writer.

Thank you for your assistance in connection with this matter.

Sincerely,

James D. Beasley
