STAFF'S THIRD DATA REQUEST

Re: Docket No. 120302-EI- Petition for approval of a new environmental program for cost recovery through the Environmental Cost Recovery Clause by Tampa Electric Company.

Dear Mr. Beasley:

By this letter, the Commission staff requests that Tampa Electric Company (TECO or Company) provide responses to the following data requests. The following questions relate to the Company's November 30, 2012 petition for approval of a new environmental program for cost recovery through the environmental cost recovery clause (Petition) and to TECO's response to Staff's First Data Request.

14. In its response to Staff's First Data Request, Number 6, TECO states, "the frequency of quarterly testing would be difficult to achieve due to the dispatching and operating demands." Please describe the difficulties associated with dispatching and operating demands.
15. In its response to Staff's First Data Request, Number 6, TECO also states, "[t]he quarterly alternative was not considered an economically feasible option due to frequency." Please provide any data relied upon by TECO to reach this conclusion.
16. Please provide a drawing (or other graphic rendering) of the Big Bend FGD systems that includes the following information: a) a before and after view of the modifications being proposed in Paragraph 11 of TECO's Petition, and b) identification of each component discussed by TECO in Paragraph 11.
