Re: Docket No. 130047-WS, Application for amendment of water and wastewater Certificate Nos. 631-W and 540-S, to extend service area, in Sumter County by Central Sumter Utility Company, LLC.

Dear Mr. Friedman:

After initial review of the application in the above-referenced docket, staff has identified the following deficiencies and additional information needed to complete our review and processing of the application.

Deficiencies

1. Rule 25-30.036 (3)(i), Florida Administrative Code (F.A.C.), requires a copy of the official county tax assessment map or other map showing township, range, and section, with a scale such as 1"=200' or 1"=400', with the proposed territory plotted thereon by use of metes and bounds or quarter sections, and with a defined reference point of beginning. Exhibit G of the application did not include the specific criteria as stated in the rule. Please submit the appropriate map.
2. Rule 25-30.036 (3)(j), F.A.C., requires a statement describing the capacity of the existing lines, the capacity of the treatment facilities, and the design capacity of the proposed extension. This is broken down in attachment H, but lacks clarification. Further explanation is also needed in the calculation of the Equivalent Residential Connections (ECR). The ECR of 86 gpd that is given in section (m) of the application is based on residential connections alone when the application states that service will be provided to primarily commercial customers. Please provide any additional information needed for further clarification.

FPSC - COMMISSION CLERK

Additional Information

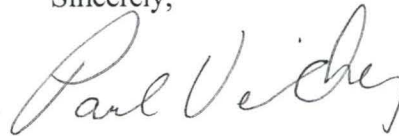

1. Rule 25-30.036 (3)(d), F.A.C., requires evidence that the utility owns the land upon which the utility treatment facilities that will serve the proposed territory are located or a copy of an agreement, such as a 99-year lease, which provides for the continued use of the land. The Commission may consider a written easement or other cost-effective alternative. There is no evidence of land ownership or agreement that the utility owns the land upon which the elevated water storage tank is located. Please provide evidence as stated in the rule.
2. In addition, please submit an electronic copy of the territorial description and proposed tariff sheets.

The original and four copies of the response to the information requested in this letter should be filed with the Commission on or before April 11, 2013. When filing the response, please be sure to refer to Docket 130047-WS, and direct the response to:

Office of Commission Clerk
Florida Public Service Commission
2540 Shumard Oak Boulevard
Tallahassee, FL 32399-0850

Should you have any questions concerning the information in this letter, please contact Stanley Rieger at (850) 413-6970 or Kevin Dawkins at (850) 413-6586.

Sincerely,

Paul Vickery
Chief
Bureau of Reliability and Resource Planning
