BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Examination of the outage and replacement fuel/power costs associated with the CR3 steam generator replacement project, by Progress Energy Florida, Inc.

DOCKET NO.: 100437-EI

FILED: May 6, 2013

STATEMENT IN SUPPORT OF WHITE SPRINGS

On May 6, 2013, the Office of Public Counsel (“OPC”) filed a Motion for Reconsideration of the Commission’s Third Order Establishing Procedure in this proceeding and a separate Request for Oral Argument regarding the motion for reconsideration. As OPC explains, the schedule established in this Order does not provide opportunity for intervenors to address the substantial and complex issues still to be addressed in this proceeding. There is significant potential harm facing Duke Energy Florida’s (“DEF”) ratepayers that would result from a rushed examination of the prudence of DEF’s action, and no detriment to DEF or ratepayers from establishing a process that will allow sufficient opportunity for discovery and the development of a full record. Accordingly, White Springs Agricultural Chemicals, Inc., d/b/a PCS Phosphate fully supports OPC’s motion for reconsideration and joins its requests for oral argument to discuss these critical issues before the Commission.
