Re: Peoples Water Service Company of Florida, Inc.
2013 Limited Proceeding Rate Increase Application
Our File No. 31007.08

Dear Ms. Cole:

Attached in accordance with the requirements of Section 367.0822, F.S. and Rule 25-30.445, F.A.C., is the Application for Limited Proceeding Increase in Water Rates proposed by Peoples Water Service Company of Florida, Inc. to its water customers in Escambia County, Florida. The original and 15 copies of all accounting, and rate information as required by the rule and two copies of consolidated Billing Analysis as required, along with the filing fee of \$2,250. To the extent you or any members of the Commission staff have any questions in this regard, please let me know.

Sincerely,

SUNDSTROM, FRIEDMAN & FUMERO

DOCUMENT NUMBER - DATE

02934 MAY 28 2013

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Application of PEOPLES WATER
SERVICE COMPANY OF FLORIDA, INC.
for a Limited Proceeding Water Rate
Increase in Escambia County, Florida.

DOCKET NO. 130155 -WU

APPLICATION FOR LIMITED PROCEEDING
INCREASE IN RATES

PEOPLES WATER SERVICE COMPANY OF FLORIDA, INC. (hereinafter "the
"Utility"), by and through its undersigned attorneys and pursuant to Section 367.0822, Florida
Statutes, and Chapter 25-30.445 and 25-30.446, Florida Administrative Code, files this
Application for a Limited Proceeding Water Rate Increase in Escambia County, Florida, and in
support thereof states:

1. The address of the Florida office of the Utility is:

Peoples Water Service Company of Florida, Inc.
905 Lownde Avenue
Pensacola, FL 32507-0815

2. The name and address of the person authorized to receive notices and
communications in respect to this application is:

F. Marshall Deterding, Esquire
Sundstrom, Friedman & Fumero, LLP
2548 Blairstone Pines Drive
Tallahassee, Florida 32301
Phone: (850) 877-6555 Fax: (850) 656-4029
mdeterding@sfflaw.com

3. Peoples Water Service Company of Florida, Inc. is a Florida corporation incorporated in Florida on May 1, 1995. The names and addresses of the persons owning more than 5% of the Utility's stock are:

The Peoples Water Service Company	100%
409 Washington Avenue, Suite 310	
Towson, MD 21204-4971	

4. The Utility's rates were last considered and revised by the Commission in Docket No. 080695-WU. Order No. PSC-10-0117-PAA-WU dated February 26, 2010 is the final order in that docket adjusting the Utility's water rates. The Utility has implemented three Index rate increases since that time pursuant to Section 367.081(4)(a), Florida Statutes.

5. The address within the service area where the application is available for customer inspection during the time this rate application is pending is:

Peoples Water Service Company of Florida, Inc.
905 Lownde Avenue
Pensacola, FL 32507-0815

6. The Utility is seeking rate relief in order to allow it to recover its expenses and earn a fair rate of return on its investment in all property considered 100% used and useful in the public service.

7. An Affidavit signed by the Vice President of the Utility that the Utility will comply with the noticing requirements in Rule 25-30.446, F.A.C., is provided herewith as **Exhibit "D"**.

8. In its last rate proceeding in Docket No. 080695-WU, the Commission established rates for the Utility including recognition of repression in usage characteristics for the Utility's customers. In its final order the Commission ultimately established rates which were substantially different than those initially proposed by the Commission staff in order to shift a significant portion of the revenue requirement to gallonage charges rather than base charges at the behest of at least one Commissioner at that time.

9. The rates established by the Commission in Docket No. 080695-WU have resulted in decreases in usage characteristics by the Utility's customers well beyond those anticipated in the repression adjustments underlying the rates established. As such the Utility has not been able to recover its expenses and earn a fair rate of return on its investment since the establishment of rates in Docket No. 080695-WU.

10. The purpose of this rate request is simply to achieve the revenues authorized by the Commission in Docket No. 080695-WU plus the additional revenues authorized by indexes that the Utility has filed for since Order No. PSC-10-0117-PAA-WU was issued in February of 2010, and to recover an allowance for estimated rate case expense, income taxes and regulatory account fees related to these charges. The Utility is not requesting review of any changes in operating expenses, rate base or cost of capital since the issuance of that Order over three years ago, but is simply seeking to have rates adjusted so that the Utility will be able to achieve the revenues that it was authorized in that proceeding plus subsequent Indexes and the rate case expense and regulatory assessment fees necessary to make this change in rates.

11. This limited proceeding is not requesting recovery of costs required by a governmental or regulatory agency and therefore the requirements of 25-30.445(4)(b) are not applicable and therefore not provided.

12. This limited proceeding is not requesting recovery of specific rate base components other than those already authorized in Docket No. 080695-WU and therefore the requirements of 25-30.445(4)(c) are not applicable and therefore not provided.

13. This limited proceeding is not requesting recovery of plant in service, accumulated depreciation or depreciation expense other than those already requested and authorized in Docket No. 080695-WU and therefore the requirements of 25-30.445(4)(d) are not applicable and therefore not provided.

14. The Utility is not requesting a change in capital structure or costs of capital from that requested and authorized in Docket No. 080695-WU and therefore the requirements of 25-30.445(4)(e) are not applicable and therefore not provided.

15. The Utility is not requesting recovery of any additional operating expenses other than those already requested and authorized for recovery in Docket No. 080695-WU (other than the amortization of the additional rate case expenses, and regulatory assessment fees necessary to file this limited proceeding) and as such the details required by Rule 25-30.445(4)(f) are not applicable other than for those related to the additional rate case expenses. Those additional rate case expenses are specifically detailed in Page 5 of **Exhibit "A"**.

16. The Utility is not requesting consideration of items that will create costs savings or revenue impacts from implementation of requested cost recovery items and therefore the requirements of Section 25-30.445(4)(g) are not applicable and therefore not provided.

17. A calculation of the revenue increase including rate case expense and regulatory assessment fees is provided as Page 2 of **Exhibit "A"** attached hereto.

18. A calculation of annualized revenues for the most recent 12 month period using the rates in effect at the time of the filing of this application for limited proceeding and a schedule reflecting this calculation by customer class and meter size are attached hereto as Page 2 of **Exhibit "A"**.

19. A schedule of current and proposed rates for all classes of customers is attached hereto as Page 1 of **Exhibit "A"**.

20. The Utility is not seeking to revisit Rate Base, Operating Income, or Cost of Capital from those established in Docket No. 080695-WU, but instead is seeking only rates which will produce the revenues authorized by that Docket, plus authorized indexes, rate case expense and regulatory assessment fees. As such the information referred to in Section 25-30.445 (4) (l) is inapplicable and is not provided. To the extent that the Commission desires such information as outlined in this subsection, it is contained in the Utility's 2012 Annual Report on file with the Commission.

21. The Utility is not requesting a change in rate structure from those authorized in Docket No. 080695-WU and as such the requirements of Section 25-30.445(4)(n) are not applicable. However, the Utility has provided a schedule showing revenue at present and

proposed rates Page 2 of **Exhibit “A”** and has provided two sets of billing analysis schedules as required by Rule 25-30.445(4)(m)2.

22. Revised tariff sheets reflecting the rates proposed by the Utility in this limited proceeding are provided herein as **Exhibit “C”**.

23. In evaluating whether the Utility’s request is proper for a limited proceeding, the Utility notes that it is not requesting recovery on any additional projects other than those already recognized in Docket No. 080695-WU and is not requesting an increase that is equal to or exceeds 30%. In addition, the Utility’s last rate increase was by Order No. PSC-10-0117-PAA-WU issued on February 26, 2010, less than 3.5 years ago.

24. In accordance with the requirements of Section 25-30.445(7), Florida Administrative Code, the Utility hereby states that the Utility’s rate base has not declined other than due to depreciation since the filing of the Utility’s last rate case in Docket No. 080695-WU and that there are no expenses sought for recovery through this proceeding that are offset by customer growth since its most recent rate proceeding or that will be offset by future customer growth expected to occur within the next year of the date new rates are implemented.

25. The Utility is seeking only the recovery of the revenue requirement authorized by the Commission in Docket No. 080695-WU plus indexes authorized since that time, rate case expense estimated to be incurred in this proceeding and regulatory assessment fees. The Utility is seeking recovery of no other items of expense or investment or changes to cost of capital.

26. The Utility requests that this case be processed using Proposed Agency Action as outlined in Section 367.081(8), F.S. The Utility has utilized its in-house staff to prepare the great majority of the filing requirements in this proceeding in an attempt to realize cost savings in rate case expense to the benefit of its customers.

27. The appropriate filing fee in accordance with Rule 25-30.020(2)(g) is \$2,250 based upon the Utility having the existing capacity to serve more than 4,000 ERCs during the test year.

28. Two copies of the Billing Analysis Schedules as required by Rule 25-30.445(m) are provided herewith as **Exhibit "B"**.

29. The Utility requests that the Commission expeditiously authorize implementation of the water rate increase proposed in this application so as to allow the Utility to recover its expenses and earn a fair return on its investment in accordance with the schedules contained in **Exhibit "A"** and the tariffs contained in **Exhibits "C"**.

WHEREFORE, the Utility requests that the Florida Public Service Commission do the following:

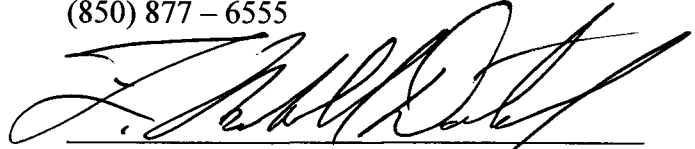

1. Accept jurisdiction of this Application to grant a limited proceeding increase in water rates utilizing the Proposed Agency Action (PAA) procedure outlined in Sections 367.0822 and 367.081(8), Florida Statutes.

2. Not withhold consent to the effectiveness of the rates requested as final herein and contained in the tariffs included as **Exhibit "C"**.

3. Provide such other and further relief as is fair, just and equitable.

Respectfully submitted this 24th day of May, 2013, by:
