DOCKET NO. 130001-EI
ORDER NO. PSC-13-0277-CFO-EI
ISSUED: June 17, 2013

ORDER GRANTING GULF POWER COMPANY'S
REQUEST FOR CONFIDENTIAL CLASSIFICATION
(REVIEW ACN 12-130-1-1; DOCUMENT 06974-12)

On October 15, 2012, pursuant to Section 366.093, Florida Statutes (F.S.), and Rule 25-22.006, Florida Administrative Code (F.A.C.), Gulf Power Company (Gulf Power) filed its request for confidential classification of certain information contained in portions of its responses to Commission Staff Data Requests and in Staff work papers connected with a review of Gulf Power's 2012 hedging settlements in this docket (Review ACN 12-130-1-1; Document 06974-12). This request was filed in Docket No. 120001-EI.

Section 366.093(1), F.S., provides that "any records received by the commission which are shown and found by the commission to be proprietary confidential business information shall be kept confidential and shall be exempt from Section 119.07(1) [the Public Records Act]." Section 366.093(3), F.S., defines proprietary confidential business information as information that is intended to be and is treated by the company as private, in that disclosure of the information would cause harm to the company's ratepayers or business operations, and has not been voluntarily disclosed to the public. Sections 366.093(3)(d) and (e), F.S., provide that proprietary confidential business information includes, but is not limited to "[i]nformation concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms" and "[i]nformation relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information."

Gulf Power contends that designated portions of its responses to Staff Data Requests and in Staff work papers connected with a review of its 2012 hedging settlements as more specifically described in the Justification Matrix in Attachment C to its request, fall within these categories and, thus, constitute proprietary confidential business information entitled to protection under Section 366.093, F.S., and Rule 25-22.006, F.A.C. Gulf Power states that Attachment C to its request provides support for confidential classification of the highlighted information in its responses to the Commission's Data Requests and information contained in Staff's work papers associated with the review of Gulf Power's 2012 hedging settlements. Gulf Power states that this information is intended to be and is treated by Gulf Power as private and has not been publicly disclosed.

In support of its request for confidential treatment, Gulf Power asserts that the information in its responses to Staff's Data Requests and in Staff's work papers as described above (Document Nos. 10-2.2 to 10-2.8; 10-9.1 to 10-9.5; 48-1 to 14.2 of composite Document

06974-12) contain details concerning Gulf Power's hedging activities between August 2011 and July 2012, including specific pricing information and target ranges for natural gas hedging transactions. Disclosure of this information would give other market participants a competitive advantage over Gulf Power and adversely affect Gulf Power's ability to conduct its hedging activities to the benefit of its customers. Further, Gulf Power's potential hedging counterparties may refuse to enter into contracts with Gulf Power, or may charge higher prices, if the price terms were made public.

Time Period For Confidential Classification

Gulf Power requests confidential classification for this information for a period of 18 months. According to Section 366.093(4), F.S., confidential classification may only extend for 18 months from the issuance of an Order granting confidential classification unless "the Commission finds, for good cause, that the protection from disclosure shall be for a specified longer period."

Ruling

Upon review, it appears the above-referenced information satisfies the criteria set forth in Section 366.093(3), F.S., for classification as proprietary confidential business information. The information constitutes "[i]nformation concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms." Thus, the information identified in Document No. shall be granted confidential classification.

Pursuant to Section 366.093(4), F.S., the information for which confidential classification is granted herein shall remain protected from disclosure for a period of 18 months from the date of issuance of this Order. At the conclusion of the 18-month period, the confidential information will no longer be exempt from Section 119.07(1), F.S., unless Gulf Power or another affected person shows, and the Commission finds, that the records continue to contain proprietary confidential business information.

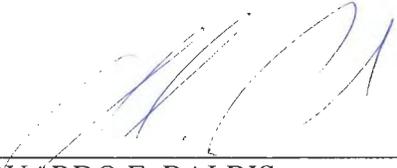

Based on the foregoing, it is

ORDERED by Commissioner Eduardo E Balbis, as Prehearing Officer, that Gulf Power Company's Request for Confidential Classification of Document No. 06974-12 is granted. It is further

ORDERED that the information in Document No. 06974-12 for which confidential classification has been granted, shall remain protected from disclosure for a period of 18 months from the date of issuance of this Order. It is further

ORDERED that this Order shall be the only notification by the Commission to the parties of the date of declassification of the materials discussed herein.

By ORDER of Commissioner Eduardo E. Balbis, as Prehearing Officer, this 17th day
of June, 2013.
